## THE DISCOUNT GROUP – GENERAL OVERVIEW AND PRINCIPAL DATA

At the meeting of the Board of Directors held on August 19, 2015, the unaudited consolidated interim financial statements of Israel Discount Bank Ltd. and its subsidiaries for June 30, 2015 were approved (hereinafter: "the condensed financial statements"). The data presented in the report are consolidated data, unless explicitly stated otherwise.

### PRINCIPAL OPERATIONS AND CENTRAL EVENTS DURING THE REPORTED PERIOD

The Bank continued in the first half of 2015 the absorption and implementation of the strategic plan, which had been approved in 2014. Salaries and related expenses, disregarding the impact of the retirement plan in 2014 (see "Developments in Income and Expenses" below) decreased by 3.2% in the first half of 2015 (compared with the corresponding period last year).

U.S. accounting principles as regards employee rights are being applied by the Bank as from January 1, 2015, implementation that has had an adverse effect on capital in the amount of NIS 557 million (as of January 1, 2015). In addition, the Bank has implemented in these reports, by means of retrospective restatement, the Supervisor's directives with regard to the capitalization of in-house software developed costs, implementation that had an adverse effect on capital in an amount of NIS 87 million (as of December 31, 2014).

Despite the aforesaid adverse effect on capital the Bank maintained the ratio of common equity tier 1 to risk assets of 9.5%. This, among other things, due to early preparations, and including therein the sale of a part of the Bank's holdings in FIBI, as detailed below.

On February 19, 2015, the Bank completed a move for the sale of a parcel of shares of FIBI, following which, the Bank's rate of holdings in the shares of FIBI was reduced to below 10% (see Notes 15 C to the condensed financial statements). Completion of this move constitutes the Bank's attainment of a relevant milestone in the sale outline determined by the Antitrust Commissioner, prior to the final date that had been fixed for this sale in the outline.

In consequence of this sale and the decrease in the Bank's rate of holdings in the shares of FIBI to below 10%, the exceptional impact of the investment in these shares on capital adequacy has been removed, a fact that brought about an improvement in capital adequacy already in the first quarter of 2015.

The Bank notes these days the 80th anniversary of its establishment. Within this framework, the "Heroism – Breaking New Ground for 80 Years" exhibition opened in July 2015 at the Herzlilblum Museum.

In the reported period, the Bank presents for the first time the liquidity coverage ratio and the leverage ratio, in accordance with the new instructions in these matters. The said ratios maintained by the Discount Group, are even at present higher than the minimal goal determined by the Supervisor, with effect as from January 1, 2017 and January 1, 2018, respectively.

For details regarding the negotiations for the merger of Clal Finance Underwriting Ltd. with and into Discount Underwriting and Issuing Ltd., see below "Israel Discount Capital Markets and Investments Ltd.". For details regarding discussions concerning the acquisition of the minority's shares in Diners, see "Credit Card Operations" below.

## PRINCIPAL DATA

Leverage ratio <sup>(3)</sup>	6.6	-	-

### Footnotes:

(1) Return on capital computed on the average balance of risk assets (June 30, 2015 - 9.02%, December 31, 2014 and June 30, 2014 - 8.5%).

(2) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of employee rights and in the matter of capitalization of software development costs, see Note 1E(1) and (2) to the condensed financial statements, respectively.

(3) The data is presented according to the new instruction, in effect as from April 1, 2015, and therefore no comparative data is presented.

## MARKET SHARE

Based on data relating to the banking industry as of March 31, 2015, published by the Bank of Israel, the Discount Bank Group's share in the total of the five largest banking groups in Israel was as follows:

	March 31, 2015	December 31, 2014
	In %	
Total assets	15.3	15.6
Credit to the public, net	14.1	14.1
Deposits from the public	15.0	15.3
Interest income, net	19.3	17.0
Total non-interest income	14.1	18.1

## Development of the Discount share

	Closing price at end of the trading day			Rate of change in the first half of 2015 in %
	August 16, 2015	June 30, 2015	December 31, 2014	
Discount share	764	725	625	15.9
The Banks index	1,521.80	1,437.57	1,249.51	15.1
The TA 25 index	1,719.09	1,648.80	1,464.99	12.5
Discount market value (in NIS billions)	8.05	7.64	6.59	15.9

## THE DISCOUNT GROUP STRATEGIC PLAN

On August 20, 2014, the Board of Directors approved the Discount Group's strategic plan for the years 2015-2019.

The plan has been constructed on three central pillars – far-reaching efficiency measures, growing the retail segment and inculcating an organizational culture supporting change.

**Integration of the strategic plan.** Management of the absorption of the strategic plan is being coordinated by the strategic plan administration, which activates the projects, assists in the planning and in the implementation of assignments, in keeping a close and continuous monitoring and reporting to the Bank's Management and to the Board of Directors. Implementation of the strategic plan is progressing according to plan.

## FORWARD-LOOKING INFORMATION

Some of the information detailed in the directors' report, which does not relate to historical facts, comprises forward-looking information, as defined in the Securities Law, 1968.

The Bank's actual results might differ materially from those indicated in the forward-looking information, due to a large number of factors, including, among other things, macro-economic changes, changes in the geo-political situation, regulatory changes and other changes not under the Bank's control, and which may result in the non-realization of the estimates and/or in changes in the Bank's business plans.

Forward-looking information is typified by terms and words like: "believe", "anticipate", "estimate", "intends", "prepares to...", "might" and similar expressions, in addition to nouns such as: "desire", "anticipation", "intention", "expectation", "assessment", "forecast", etc. Such forward-looking expressions involve risks and uncertainties as they are based on evaluations by management as to future events, which include, among other things, evaluations as to the state of the economy, public preferences, domestic and foreign interest rates, inflation rates, etc. as well as regarding the effects of new legislative and regulatory provisions relating to the banking industry and the capital market and to other fields that have an impact on the Bank's activity and on the environment in which it operates, and that by the nature of things, their realization is uncertain.

The information presented below relies, among other things, on information in the Bank's hands, inter-alia, publications by other entities such as the Central Bureau of Statistics, the Ministry of Finance, the Bank of Israel, the Ministry of Housing and other entities that publish data and assessments as to the Israeli and global financial and capital markets.

The above reflects the Bank's and its subsidiaries point of view at the time of preparation of the financial statements as to future events, based on evaluations that are uncertain. The evaluations and business plans of the Bank and its subsidiaries are derived from such data and assessments. As stated above, actual results might differ materially and impact the realization of the business plans or bring about changes in these plans.

## EXPLANATIONS REGARDING THE BUSINESS CONDITION OF THE GROUP

### INCOME AND PROFITABILITY

**Net profit attributed to the Bank's shareholders** for the first half of 2015 totalled NIS 522 million, compared with NIS 296 million in the corresponding period last year, an increase of 76.4%.

With the elimination of the impact of the retirement plan in 2014, the income for the first half of 2014 would have amounted to NIS 487 million and the increase would have reached a rate of 7.2%.

**Return on equity net attributed to the Bank's shareholders** for the first half of 2015 reached a rate of 8.3%, on an annual basis, compared with a rate of 5.0% for the corresponding period last year, and 4.2% for all of 2014.

With the elimination of the impact of the retirement plan in 2014, the return on equity in the first half of 2014 would have reached an annualized rate of 8.3%.

**The following are the main factors that had an effect on the business results of the Group** in the first half of 2015, compared with the corresponding period last year:

- A decrease in credit loss expenses, of NIS 36 million (90.0%).
- An increase in the total non-interest income, of NIS 115 million (7.6%), affected by an increase of NIS 49 million in non-interest financing income (20.6%), an increase of NIS 44 million in commissions (3.5%) and an increase of NIS 22 million in other income.
- A decrease of NIS 306 million in operating and other expenses (9.7%), affected, mainly, by a decrease of NIS 363 million in payroll and related expenses (17.6%), of which, NIS 306 million being the impact of the retirement plan in the first half of 2014, which was partly offset by an increase of NIS 54 million in other expenses (10.4%).
- Tax provision of NIS 344 million on earnings in the first half of 2015, compared with NIS 145 million in the corresponding period last year.

**Following is the condensed statement of comprehensive income:**

	For the six months ended June 30		Change in %
	2015	2014	
	in NIS millions		
Net income attributed to the Bank's shareholders	522	<sup>(2)</sup> (3)296	76.4
Changes in components of other comprehensive income (loss), attributed to the Bank's shareholders:			
Other comprehensive income (loss), before taxes <sup>(1)</sup>	(98)	<sup>(2)</sup> 228	
Effect of attributed taxes	16	<sup>(2)</sup> (117)	
Other comprehensive income (loss), attributed to the Bank's shareholders, after taxes	(82)	111	
<b>Comprehensive income, attributed to the Bank's shareholders</b>	<b>440</b>	<b>407</b>	<b>8.1</b>

Footnotes:

- For details regarding changes in the components of other comprehensive income, see Note 14 to the condensed financial statements.
- Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of employee rights, See Note 1 E (1) to the condensed financial statements.
- Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of capitalization of software development costs, See Note 1 E (2) to the condensed financial statements.

- (4) For details regarding the net changes in the provision for severance pay, see Note 16L & M to the 2014 financial statements (p. 451).
- (5) Reclassified – improving the classification of the refunds provision.

Following are details regarding material changes in statement of income items:

**Interest income, net.** In the first half of 2015, interest income, net, amounted to NIS 2,115 million compared with NIS 2,118 million in the corresponding period last year, a decrease of 0.1%. The decrease in the interest income, net, in the amount of NIS 3 million, is explained by a negative price impact of NIS 102 million, and a positive quantitative effect in the amount of NIS 99 million (see Schedule "A" to the Management Review, below).

The interest spread, excluding derivatives, reached a rate of 2.16% in the first half of 2015, compared with 2.26% in the corresponding period last year.

The average balance of interest bearing assets has increased by a rate of approx. 5.1%, from an amount of NIS 175,319 million to NIS 184,272 million, and the average balance of interest bearing liabilities has declined by a rate of approx. 1.3%, from an amount of NIS 146,307 million to NIS 144,424 million.

**Non-interest financing income.** In the first half of 2015, non-interest financing income amounted to NIS 287 million, compared to NIS 238 million in the corresponding period last year, an increase of 20.6%.

The reduction in non-interest financing income is mainly from the net growth in profits, with adjustment to fair value of derivative instruments (see Note 12 to the condensed financial statements).

Non-interest financing income includes the effect of activity in derivative financial instruments, which constitute an integral part of the management of the Bank's interest exposure and base exposure. Accordingly, for the purpose of analyzing the financing income from current activity, the net interest income and the non-interest financing income need to be aggregated.

**Following is the composition of the net financing income:**

	2015			2014		
	Q2	Q1	Q4	Q3	Q2	Q1
	in NIS millions					
Interest income	1,550	1,082	1,352	1,479	1,581	1,324
Interest expenses	455	62	313	418	481	306
Interest income, net	1,095	1,020	1,039	1,061	1,100	1,018
Non-interest financing income	102	185	163	148	114	124
<b>Total net financing income</b>	<b>1,197</b>	<b>1,205</b>	<b>1,202</b>	<b>1,209</b>	<b>1,214</b>	<b>1,142</b>

**Following is an analysis of the total net financing income:**

	2015			2014		
	Q2	Q1	Q4	Q3	Q2	Q1
	in NIS millions					
Profit from current operations	1,083	1,034	1,059	1,047	1,072	1,017
Net profit from realization and adjustment to fair value of bonds	24	142	78	72	52	105
Profit (loss) from investments in shares	20	28	(29)	11	63	18
Adjustment to fair value of derivative instruments	54	(32)	20	11	(1)	(32)
Exchange rate differences, options and other derivatives	5	33	75	67	28	34
Net income (loss) on the sale of loans	11	-	(1)	1	-	-
<b>Total net financing income</b>	<b>1,197</b>	<b>1,205</b>	<b>1,202</b>	<b>1,209</b>	<b>1,214</b>	<b>1,142</b>

**Financing income, net**, amounted to NIS 2,402 million in the first half of 2015, compared to NIS 2,356 million in the corresponding period last year, a 2.0% increase.

The increase in the financing income is mainly due to a NIS 28 million increase in income from operating activities and from an increase of NIS 55 million in net gains with adjustment to fair value of derivative instruments, which were offset in respect of the reduction in income from exchange rate differences and the reduction in gains on investment in shares.

**Rates of income and expenses.** Interest income, net, is presented in Schedule "A" to the Management Review. In explaining the Bank's interest rate gap from current operations, one should add the effect of operations in ALM derivatives (not including exchange differences and operation in options).

**Interest margin, from current operations, including ALM derivatives** reached a rate of 1.08% in the first half of 2015, compared with 1.11% in the corresponding period last year.

The net financing income amounted to NIS 1,197 million in the second quarter of 2015, compared to NIS 1,214 million in the corresponding quarter last year, a 1.4% decrease, and compared to NIS 1,205 million in the first quarter of 2015, a 0.7% decrease.

The interest margin on current operations, including ALM derivatives, reached 1.06% in the second quarter of 2015, compared to 1.15% in the corresponding quarter last year and compared to 1.10% in the first quarter of 2015.

**The following is the development of the interest income, net by segments of operations:**

	For the three months ended June 30			For the six months ended June 30		
	2015	2014	Change in %	2015	2014	Change in %
	In NIS millions			In NIS millions		
Retail - household segment	293	<sup>(1)</sup> 298	(1.7)	560	<sup>(1)</sup> 586	(4.4)
Retail- small business segment	210	<sup>(1)</sup> 197	6.6	412	<sup>(1)</sup> 388	6.2
Corporate banking segment	233	<sup>(1)</sup> 218	6.9	462	<sup>(1)</sup> 447	3.4
Middle market banking segment	149	<sup>(1)</sup> 147	1.4	305	<sup>(1)</sup> 286	6.6
Private banking segment	87	80	8.7	172	163	5.5
Financial management segment	123	<sup>(1)</sup> 160	(23.1)	204	<sup>(1)</sup> 248	(17.7)
<b>Total</b>	<b>1,095</b>	<b>1,100</b>	<b>(0.5)</b>	<b>2,115</b>	<b>2,118</b>	<b>(0.1)</b>

footnote:

(1) הכספים הדוחות לתמצית (1) ג' ביאור ראו, מחדש סוג (1)

**Credit loss expenses.** In the first half of 2015 credit loss expenses in the amount of NIS 4 million were recorded, compared with expenses of NIS 40 million in the corresponding period last year, a decrease of 90%. The said reduction was affected by the declines in the group allowance which was offset by the increase in the specific allowance. The reduction in the group allowance stemmed mostly from collections, from changes in the composition of the credit and from changes in the multiyear average composition of the allowance rates.

For details as to the components of the credit loss expenses, see Note 3 to the condensed financial statements.

**Following are details of the quarterly development in the credit loss expenses:**

	2015		2014			
	Q2	Q1	Q4	Q3	Q2	Q1
In NIS millions						
On a specific basis	31	81	20	(34)	(75)	104
On a group basis	(59)	(49)	64	74	40	(29)
<b>Total</b>	<b>(28)</b>	<b>32</b>	<b>84</b>	<b>40</b>	<b>(35)</b>	<b>75</b>
<b>Rate of credit loss expenses to the average balance of credit to the public<sup>(1)</sup>:</b>						
The rate in the quarter	(0.09%)	0.10%	0.28%	0.13%	(0.12%)	0.25%
Cumulative rate since the beginning of the year	0.01%	0.10%	0.14%	0.09%	0.07%	0.25%

Footnote:

(1) On an annual basis.

**Commissions** in the first half of 2015, amounted to NIS 1,312 million, compared to NIS 1,268 million in the corresponding period last year, an increase of 3.5%.

**Following is the distribution of the commissions:**

	For the six months ended June 30,		
	2015	2014	Change in %
	in NIS millions		
Ledger fees	265	285	(7.0)
Credit cards	482	453	6.4
Operations in securities and in certain derivative instruments	175	167	4.8
Commissions from the distribution of financial products	74	66	12.1
Management, operational and trusteeship services for institutional bodies	7	7	-
Handling credit	66	58	13.8
Conversion differences	72	68	5.9
Foreign trade services	26	26	-
Net income from credit portfolio services	7	9	(22.2)
Commissions on financing activities	86	82	4.9
Other commissions	52	47	10.6
<b>Total commissions</b>	<b>1,312</b>	<b>1,268</b>	<b>3.5</b>

**Salaries and related expenses** amounted to NIS 1,703 million in the first half of 2015, compared with NIS 2,066 million in the corresponding period last year, a decrease of 17.6%. When eliminating the impact of the retirement plan in 2014, which are included in the salaries for the first half of 2014, a reduction at a rate of 3.2% would have been recorded. Among other things, the decline stems from the impact of employee retirement within the framework of the plan encouraging early retirement, which was put into operation at the end of 2014 (see "Human resources" below).

**Following are details of the effects of certain components on salaries and related expenses:**

Salaries and Related Expenses	2015		2014

Footnote:

(1) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of employee rights and in the matter of capitalization of software development costs, see Note 1E(1) and (2) to the condensed financial statements, respectively.

Following are details regarding credit to the public, securities and deposits from the public.

### CREDIT TO THE PUBLIC

**General.** Credit to the public, net, (after provision for credit losses) as at June 30, 2015 totaled NIS 120,279 million, compared with NIS 120,123 million at the end of 2014, an increase at a rate of 0.1%.

For details regarding the credit portfolio, see the 2014 Annual Report (pp. 26-32). For details regarding credit risk management, see "Credit risk management" under "Exposure to risks and risk management" hereunder and in the 2014 Annual Report (pp. 142-158). For details regarding the quality of credit, see Note 3 to the condensed financial statements and in the 2014 Annual Report (pp. 408-409). For details regarding the housing credit portfolio at the Discount Group, see "Mortgage Activity" under "Further details as to activity in certain products" and in the 2014 Annual Report (pp. 115-123).

## COMPOSITION OF CREDIT TO THE PUBLIC BY LINKAGE SEGMENTS

Following are data on the composition of net credit to the public by linkage segments:

	June 30, 2015		December 31, 2014		Rate of change in %
	In NIS millions	% of total credit to the public	In NIS millions	% of total credit to the public	
Non-linked shekels	78,034	64.9	74,762	62.2	4.4
CPI-linked shekels	14,742	12.2	15,314	12.8	(3.7)
Foreign currency and foreign currency-linked shekels	27,503	22.9	30,047	25.0	(8.5)
<b>Total</b>	<b>120,279</b>	<b>100.0</b>	<b>120,123</b>	<b>100.0</b>	<b>0.1</b>

Credit to the public denominated in foreign currency and in Israeli currency linked thereto decreased by 8.5% compared with December 31, 2014. In U.S. dollar terms, credit to the public in foreign currency and foreign currency linked Shekels decreased by US\$429 million, a decrease of 5.6% as compared to December 31, 2014. The total credit to the public, which includes credit in foreign currency and Israeli currency linked to foreign currency, computed in U.S. dollar terms, increased by a rate of 0.9% as compared to December 31, 2014.

## COMPOSITION OF CREDIT TO THE PUBLIC BY SEGMENTS OF OPERATIONS

The following is a review of developments in the balance of net credit to the public, by segments of operations:

	June 30, 2015	March 31, 2015	December 31, 2014	September 30, 2014	June 30, 2014
	In NIS millions				
Retail - household segment	42,140	41,254	40,889	40,577	<sup>(1)</sup> 39,445
Of which - Mortgages	20,632	20,202	20,138	20,035	19,835
Retail - small business segment	14,819	14,539	14,255	13,857	<sup>(1)</sup> 13,555
Corporate banking segment	37,784	39,581	39,105	39,409	<sup>(1)</sup> 38,440

## COMPOSITION OF THE OVERALL CREDIT TO THE PUBLIC RISK BY ECONOMIC SECTORS

Following are the developments of total credit to the public risk, by main economic sectors:

Economic Sectors	June 30, 2015		December 31, 2014		Rate of change in %
	Total credit to the public risk	Rate from total credit risk	Total credit to the public risk	Rate from total credit risk	
	in NIS millions	%	in NIS millions	%	
Agriculture	1,129	0.6	1,218	0.6	(7.3)
Mining & Quarrying	696	0.4	475	0.2	46.5
Industry	20,091	10.2	22,661	11.8	(11.3)
Construction and real estate - construction	14,557	7.4	15,137	7.8	(3.8)
Construction and real estate - real estate activity	19,805	10.1	19,484	10.0	1.6
Electricity and water	3,830	2.0	3,853	2.0	(0.6)
Commerce	24,081	12.3	23,027	11.9	4.6
Hotels, hotel services and food	2,526	1.3	2,778	1.4	(9.1)
Transportation and storage	4,387	2.2	4,287	2.2	2.3
Communications and computer services	3,235	1.7	2,542	1.3	27.3
Financial services	19,289	9.8	20,420	10.5	(5.5)
Other business services	8,125	4.1	7,448	3.8	9.1
Public and community services	5,470	2.8	5,381	2.8	1.7
Private individuals - housing loans	22,655	11.6	21,966	11.3	3.1
Private individuals - other	45,991	23.5	43,458	22.4	5.8
<b>Total overall credit to the public risk</b>	<b>195,867</b>	<b>100.0</b>	<b>194,135</b>	<b>100.0</b>	<b>0.9</b>
Banks	10,498		12,114		
Governments	24,027		23,225		
<b>Total</b>	<b>230,392</b>		<b>229,474</b>		

Starting with the first quarter of 2015, the data relating to the total credit to the public risk is presented in accordance with the 2011 uniform classification of economic sectors by the Central Bureau of Statistics, which replaced the 1993 uniform classification of economic sectors. This, within the framework of implementing the amendment of the Reporting to the Public Directives of the Supervisor of Banks, of 2014, which took effect on January 1, 2015. The comparative data as of December 31, 2014, are presented in accordance with the new classification.

The data presented above indicates that in the first half of 2015, the overall risk regarding credit to the public increased by 0.9% compared with the end of 2014. The growth was mostly focused on credit to private individuals, for housing and non-housing purposes, as well as to the commerce, information and communication and other business services sectors. In the meanwhile, the total credit to the public risk in the industrial, construction, hotels, hotel services and food sectors, was reduced.

## DEVELOPMENT OF PROBLEMATIC CREDIT RISK

### Problematic credit risk<sup>(1)</sup> and non performing assets:

	June 30, 2015			December 31, 2014		
	Balance Sheet	Off-Balance Sheet	Total	Balance Sheet	Off-Balance Sheet	Total
Credit Risk						
In NIS millions						
<b>Problematic Credit Risk:</b>						
Impaired credit risk	<sup>(3)</sup> 3,145	49	3,194	<sup>(3)</sup> 2,796	42	2,838
Substandard credit risk	755	4	759	922	6	928
Special mention credit risk <sup>(2)</sup>	<sup>(4)</sup> 1,204	316	1,520	<sup>(4)</sup> 2,370	667	3,037
<b>Total Problematic Credit Risk</b>	<b>5,104</b>	<b>369</b>	<b>5,473</b>	<b>6,088</b>	<b>715</b>	<b>6,803</b>
Of which: Non impaired debts, in arrears for 90 days or more <sup>(2)</sup>	419			506		
<b>Non-performing assets:</b>						
Impaired debts - non accruing interest income	2,783			2,487		
Assets received in respect of credit settlement	2			2		
<b>Total Non-Performing Assets</b>	<b>2,785</b>			<b>2,489</b>		

Footnotes:

- (1) Impaired credit, substandard credit and credit under special mention risks.
- (2) Including in respect of housing loans for which an allowance based on the extent of arrears exists and in respect of housing loans that are in arrears for 90 days or more for which an allowance based on the extent of arrears does not exist.
- (3) Including non accruing corporate bonds in an amount of NIS 24 million (December 31, 2014- NIS 20 million).
- (4) Including cumulative bank bonds in the amount of NIS 176 million, and cumulative foreign governments bonds in the amount of NIS 27 million (December 31,2014 - NIS 122 million and NIS 30 million, respectively).

Following are details on credit to the public, as specified in Note 3 to the condensed financial statements:

**Impaired credit to the public.** The balance sheet impaired credit to the public (accruing interest and non- accruing) amounted at June 30, 2015 to approx. NIS 3,121 million, compared to NIS 2,776 million at December 31, 2014, an increase of 12.4%.

**Impaired non-accruing credit to the public.** The impaired non-accruing credit to the public which is examined on a specific basis, amounted at June 30, 2015 to approx. NIS 2,759 million, compared to NIS 2,467 million at December 31, 2014, an increase at a rate of 11.8%.

### Hereunder is the ratio of problematic debts to total debt in principal economic sectors:

Economic Sectors	June 30, 2015			December 31, 2014		
	Total credit risk in NIS millions	Of which: Problematic credit risk in NIS millions	Rate of problematic risk %	Total credit risk in NIS millions	Of which: Problematic credit risk in NIS millions	Rate of problematic risk %
Industry	20,091	586	2.9	22,661	1,269	5.6
Construction and real estate - construction	14,557	525	3.6	15,137	724	4.8
Construction and real estate - real estate activity	19,805	563	2.8	19,484	896	4.6
Commerce	24,081	1,186	4.9	23,027	1,102	4.8
Financial services	19,289	368	1.9	20,420	443	2.2
Private individuals - housing loans	22,655	374	1.7	21,966	464	2.1
Private individuals - other	45,991	353	0.8	43,458	345	0.8
Other Sectors	29,398	1,316	4.5	27,982	1,408	5.0
<b>Total Public</b>	<b>195,867</b>	<b>5,271</b>	<b>2.7</b>	<b>194,135</b>	<b>6,651</b>	<b>3.4</b>
Banks	10,498	176	1.7	12,114	122	1.0
Governments	24,027	26	0.1	23,225	30	0.1
<b>Total</b>	<b>230,392</b>	<b>5,473</b>	<b>2.4</b>	<b>229,474</b>	<b>6,803</b>	<b>3.0</b>

A reduction was recorded in the first half of 2015, in the rate of the problematic credit risk, in continuation to the trend in 2014. The reduction was focused on the industrial, construction and real estate operations sectors.

## THE BALANCES OF THE ALLOWANCE FOR CREDIT LOSSES

**The balance of the allowance for credit losses.** The balance of the allowance for credit loss, including the allowance on a specific basis and the allowance on a group basis, but not including allowance for off-balance sheet credit risk, totalled NIS 1,978 million as of June 30, 2015. The balance of this allowance constitutes 1.62% of the credit to the public, compared with a balance of the allowance in the amount of NIS 2,049 million, constituting 1.68% of the credit to the public as of December 31, 2014.

**The balance of the specific allowance for credit losses.** The outstanding balance of the specific allowance for credit losses in respect of impaired credit to the public, examined on a specific basis amounted to NIS 466 million on June 30, 2015, compared to NIS 307 million on December 31, 2014, an increase of 51.8%.

**The balance of the group allowance for credit losses.** The outstanding balance of the group allowance for credit losses, excluding housing loans for which the allowance for credit loss was calculated according to the extent of arrears, amounted on June 30, 2015 to NIS 1,339 million, compared to NIS 1,481 million as of December 31, 2014, comprising a decrease in the amount of NIS 142 million, a rate of 9.6%.

The decline in the balance of the group allowance stemmed, mainly, from collections, from changes in the composition of the credit and from changes in the multiyear average composition of the allowance rates.

**Following are several financial ratios used to evaluate the quality of the credit portfolio:**

	June 30, 2015	June 30, 2014	December 31, 2014
Ratio of balance of impaired credit to the public to balance of credit to the public	2.6%	2.8%	2.3%
Ratio of balance of non-impaired credit to the public, in arrears for 90 days or more, to balance of credit to the public	0.3%	0.4%	0.4%
Ratio of balance of allowance for credit losses in respect of credit to the public, to balance of credit to the public	1.6%	1.8%	1.7%
Ratio of balance of allowance for credit losses in respect of credit to the public to balance of impaired credit to the public	63.4%	64.0%	73.8%
Ratio of problematic credit risk in respect of the public to the total credit risk in respect of the public	2.7%	3.7%	3.4%
Ratio of credit loss expenses to the average balance of credit to the public (in annualized terms)	0.01%	0.07%	0.14%
Ratio of net accounting write-offs in respect of credit to the public to the average balance of credit to the public (in annualized terms)	0.1%	0.1%	0.2%
Ratio of net accounting write-offs in respect of credit to the public to the balance of allowance for credit losses in respect of credit to the public (in annualized terms)	5.4%	6.1%	14.1%
The ratio of the balance of allowance for credit losses in respect of credit to the public, to the balance of impaired credit to the public together with the balance of credit to the public in arrears for 90 days and over	55.9%	55.5%	62.5%

## THE RISK CHARACTERIZATION OF THE CREDIT TO THE PUBLIC PORTFOLIO

Following is the distribution of credit loss expenses (expenses reversal) over the various economic sectors:

sectors	Six months ended June 30	
	2015	2014
	Credit loss expenses In NIS millions	
Agriculture	(6)	(6)
Mining & Quarrying	(1)	(2)
Industry	(51)	73
Construction and real estate - construction	(10)	54
Construction and real estate - real estate activity	(119)	(41)
Electricity and water	2	-
Commerce	129	(62)
Hotels, hotel services and food	(6)	6
Transportation and storage	(31)	7
Communications and computer services	97	(9)
Financial services	(29)	4
Other business services	12	(2)
Public and community services	1	(1)
Private Individuals - Housing Loans	1	1
Private Individuals - Other	17	17
<b>Total Public</b>	<b>6</b>	<b>39</b>
Total Banks	(2)	1
Total Governments	-	-
<b>Total</b>	<b>4</b>	<b>40</b>

The data presented above indicates that the decline in credit loss expenses in the first half of 2015, centered mostly on the construction and real estate, industrial, transportation and storage and financial services sectors. On the other hand, credit loss expenses increased in the information and communication, commercial and other business services sectors.

## SECURITIES

**General.** Securities in the Nostro portfolio totaled NIS 36,590 million as of June 30, 2015, compared with NIS 37,353 million at the end of 2014, a decrease of 2.0%. It is clarified that the "Nostro" portfolio of the Discount Group as of June 30, 2015, did not include any security the investment in which comprised 5% or over of the value of the total portfolio, except for a security of the "government variable 520" type and security of the "government variable 1121" type, which amounted to 8.2%, and 7.4% of the total portfolio, respectively.

As of June 30, 2015, some 59% of the portfolio is invested in Government bonds, and 7% of the portfolio is invested in bonds of U.S. Government Supported Enterprises (GSE). For details regarding the Bank's investments in bonds, according to economic sectors, see Annex to the Report of the Board of Directors, comprising an integral part thereof (Part "A", items 1-3). For details regarding the segmentation of the investment in government bonds according to principal governments, see Annex to the Report of the Board of Directors, comprising an integral part thereof (Part "C", Item 3).

For details regarding the Nostro portfolios management policy, see 2014 Annual Report (p. 78).

**The First International Bank of Israel Ltd. ("FIBI").** See Note 6 D to the financial statements as of December 31, 2014 (pp. 416-418) and Note 15 to the condensed financial statements. for details regarding the following matters: the agreement with FIBI Holdings Ltd., regarding the Bank's ownership of shares in FIBI, which, as a result of its instructions, as from March 13, 2014, FIBI is no longer an affiliated company of the Bank; the timeline determined by the Antitrust commissioner for the reduction in the interest held by Discount Bank in FIBI; the provision for impairment in respect of the Bank's holdings in shares of FIBI; dividend distributed in April 2014, December 2014 and June 2015, and recognized as income; sale of shares in June 2014, in September 2014, in December 2014 and February 2015, loss on impairment of a nature other than temporary (OTTI) which was recorded in the financial statements as of December 31, 2014, in respect of a part of the shares, which were sold in February 2015.

## COMPOSITION OF THE SECURITIES PORTFOLIO BY LINKAGE SEGMENTS

Following is the composition of the securities portfolio by linkage segments:

	June 30, 2015	December 31, 2014	Rate of change in %
	In NIS millions		
Non-linked shekels	15,630	14,782	5.7
CPI-linked shekels	4,250	4,817	(11.8)
Foreign currency and foreign currency-linked shekels	15,373	16,062	(4.3)
Shares - non-monetary items	1,337	1,692	(21.0)
<b>Total</b>	<b>36,590</b>	<b>37,353</b>	<b>(2.0)</b>

Securities in foreign currency and in Israeli currency linked to foreign currency decrease by 4.3%, compared with December 31, 2014. In U.S. dollar terms, the investment in securities in Israeli currency linked to foreign currency and in foreign currency decreased by US\$51 million, a decrease of 1.2% as compared with December 31, 2014. Total securities, including securities in foreign currency and in Israeli currency linked to foreign currency expressed in U.S. dollar terms decreased by 0.7% as compared with December 31, 2014.

## COMPOSITION OF THE SECURITIES PORTFOLIO ACCORDING TO PORTFOLIO CLASSIFICATION

In accordance with directives of the Supervisor of Banks, securities have been classified into three categories: held-to-maturity bonds portfolio, available-for-sale securities portfolio, and trading securities portfolio.

Following is the composition of investments in securities according to the above categories:

	June 30, 2015		December 31, 2014			
	Amortized Cost (in shares-cost)	Fair value	Book value	Amortized Cost (in shares-cost)	Fair value	Book value
in NIS millions						
<b>Bonds</b>						
Held to maturity	6,914	7,363	6,914	6,981	7,452	6,981
Available for sale	25,641	25,959	25,959	26,849	27,282	27,282
Trading	2,383	2,380	2,380	1,382	1,398	1,398
<b>Shares</b>						
Available for sale	1,341	1,329	1,329	1,737	1,681	1,681
Trading	9	8	8	13	11	11
<b>Total Securities</b>	<b>36,288</b>	<b>37,039</b>	<b>36,590</b>	<b>36,962</b>	<b>37,824</b>	<b>37,353</b>

**Corporate bonds.** Discount Group's available for sale securities portfolio as of June 30, 2015, includes investments in corporate bonds in the amount of NIS 3,104 million (including an amount of NIS 437 million held by IDB New York, an amount of NIS 632 million, held by Mercantile and NIS 2,035 million directly held by the Bank). For additional details, see Annex to the Report of the Board of Directors, comprising an integral part thereof (Part "A", item 1). For details as to the balance of unrealized losses included in the balance of the said bonds, see Note 2 to the condensed financial statements.

## INVESTMENTS IN MORTGAGE AND ASSET BACKED SECURITIES

**Investments in mortgage and asset backed securities – general.** Discount Group's securities portfolio as of June 30, 2015 includes investment in mortgage backed securities, in the amount of US\$2,209 million, which are held by IDB New York, compared to an amount of US\$2,330 million as at December 31, 2014. The majority of the mortgage backed securities portfolio is comprised of bonds of various federal agencies (Ginnie Mae, Fannie Mae, Freddie Mac). The investment in the said bonds does not include exposure to the subprime market.

As of June 30, 2015, the portfolio of mortgage backed securities (MBS) and asset backed securities (ABS) included unrealized net losses of US\$5 million.

For details regarding the agencies operating under the auspices of the U.S. Administration, see the 2014 Annual Report (p. 35).

**Direct investments in Federal Agencies' bonds.** The securities portfolio of the Discount Group as at December 31, 2014, included a direct investment in FHLB, Fannie Mae and Freddie Mac bonds (hereinafter: "the Federal Agencies"), that were held by IDB New York, in an amount of US\$25 million. The said bonds were redeemed in the course of the first quarter of 2015.

**CMBS.** For details regarding exposure to commercial mortgage backed securities (CMBS) in immaterial amounts, see Annex to the Report of the Board of Directors, comprising an integral part thereof (Part "A", item 4).

**CLO.** IDB New-York holds secured bonds of the CLO class in a total amount of US\$100 million. The said securities are rated AA-AAA by at least one rating agency. For details, see Note 2 to the condensed financial statements.

## DETAILS REGARDING IMPAIRMENT IN VALUE OF AVAILABLE FOR SALE SECURITIES

**General.** The point in time for determining the length of the period in which the investment was in a continuous unrealized loss position, is the date of the financial statements for the reporting period during which a continuous impairment first occurred. The rate of the decline in the fair value below cost is computed as of the reporting date. This is so even if during the period in which the investment was in a continuous unrealized loss position, the rate of decline in fair value below cost was significantly different from the rate applying on the reporting date.

For details regarding the review of impairment of securities, see "Critical accounting policies and critical accounting estimates" in the 2014 Annual Report (p. 253) and Note 1 to the financial statements as of December 31, 2014 (pp. 364-366).

Based on a review of the impairment of the said securities as of June 30, 2015, and where relevant, basing itself also on the review made by the relevant subsidiary's Management, the Bank's Management believes that that the impairment is of a temporary nature.

For details regarding unrealized accumulated losses in respect of available-for sale shares and regarding available-for-sale mortgage backed securities, see Note 2 E to the condensed financial statements.

**Provision for impairment of TRUPS - 2014.** The Basel III rules apply to IDB New York as from January 1, 2015, within the framework of which, the investment in TRUPS bonds is considered as "non-significant investment in the capital of financial institutions". Accordingly, that part of the investment exceeding 10% of the Common equity tier 1, shall be gradually deducted from capital, in accordance with the transitional instructions. In view of the effect on capital adequacy, IDB New York has decided to sell the said securities. In 2014 the full investments in TRUPS have been sold. In the financial statements as of December 31, 2014 a loss was recorded on the sale of bonds, as stated in an amount of approx. US\$30 million (NIS 105 million). In the financial statements as of June 30, 2014, a loss was recorded on the sale of bonds, as stated, until June 30, 2014, in an amount of US\$15 million (NIS 53 million). In addition, a loss was recognized in respect of impairment of the remainder of the investment in bonds of the TRUPS type, that had not been sold by June 30, 2014 (classification from other comprehensive income) in the amount of approx. US\$13 million (NIS 45 million).

## DEPOSITS FROM THE PUBLIC

Deposits from the public as at June 30, 2015, totalled NIS 151,758 million, compared with NIS 152,903 million at the end of 2014, a decrease of 0.7%, and compared with NIS 145,350 million as of June 30, 2014, an increase of 4.4%.

Following is data on the composition of deposits from the public by linkage segments:

	June 30, 2015		December 31, 2014		Rate of change in %
	In NIS millions	% of total Deposits from the public	In NIS millions	% of total Deposits from the public	
Non-linked shekels	89,533	59.0	85,546	56.0	4.7
CPI-linked shekels	7,181	4.7	8,314	5.4	(13.6)
Foreign currency and foreign currency-linked shekels	55,044	36.3	59,043	38.6	(6.8)
<b>Total</b>	<b>151,758</b>	<b>100.0</b>	<b>152,903</b>	<b>100.0</b>	<b>(0.7)</b>

Deposits from the public in foreign currency and in Israeli currency linked to foreign currency decreased at the rate of 6.8%, compared with December 31, 2014. In dollar terms the deposits from the public in foreign currency and in Israeli currency linked to foreign currency decreased by US\$578 million, a decrease of 3.8% compared with December 31, 2014. The total deposits from the public, including deposits in foreign currency and in Israeli currency linked to foreign currency, expressed in U.S. dollar terms, increased at a rate of 0.4%, compared with December 2014.

The following is a review of developments in the balance of deposits from the public, by segments of operations:

	June 30, 2015		December 31, 2014		Rate of change in %
	In NIS millions	% of total Deposits from the public	In NIS millions	% of total Deposits from the public	
Retail - household segment	65,997	43.5	65,683	43.0	0.5
Retail - small business segment	17,801	11.7	16,517	10.8	7.8
Corporate banking segment	20,803	13.7	21,975	14.3	(5.3)
Middle market banking segment	11,079	7.3	11,604	7.6	(4.5)
Private banking segment	36,078	23.8	37,124	24.3	(2.8)
<b>Total</b>	<b>151,758</b>	<b>100.0</b>	<b>152,903</b>	<b>100.0</b>	<b>(0.7)</b>

## CAPITAL RESOURCES

### IMPLEMENTATION OF THE INSTRUCTIONS REGARDING EMPLOYEE RIGHTS

Starting with January 1, 2015, the Bank implements the new instruction regarding employee rights. The instruction is implemented by way of retroactive implementation of the comparative data for periods beginning January 1, 2013 and thereafter. For additional details regarding the instruction and the effect of its implementation, see below and Note 1 E 1 to the condensed financial statements.

It should be noted that Proper Conduct of Banking Business Directive No. 299, regarding "The regulatory capital – Transitional instructions", states that for the purpose of computing capital adequacy, to the extent that the shareholders' equity reflected in the financial statements includes the balance of accumulated other comprehensive income or loss in respect of the remeasurement of net liabilities or net assets relating to defined employee benefit, the transitional instructions will apply to the said balance as regards regulatory adjustments and deductions from capital, according to which it will be gradually deducted from capital over a period of four years. Respectively, an amount comprising 40% was deducted on January 1, 2015, and the balance will be deducted in equal parts in the years 2016-2018.

### IMPLEMENTATION OF BASEL III IN ISRAEL

**The instructions.** Instructions regarding "Basel III guidelines", which apply as from January 1, 2014, include a requirement for maintaining a minimal common equity tier 1 ratio of 9%, and a total capital ratio of 12.5% (from January 1, 2015), as well as detailed reference with respect to transitional instructions.

**Restrictions on the granting of housing loans.** For details regarding the amendment to Proper Conduct of Banking Business Directive No. 329 in the matter of "Restrictions on housing loans", in the framework of which, a banking corporation is required to increase their Common equity tier 1 target and the Total capital target, see Note 5 1 (b) to the condensed financial statements.

**Future issues of capital instruments.** The capital instruments that would be issued according to Basel III instructions, will include "loss absorption" mechanisms, whether by conversion into shares or by elimination (in full or in part) of the capital instrument. The Bank estimates that it would not be possible to issue such capital instruments to the public, in the immediate time range, in view of the required agreement between the supervisory bodies regarding the characteristics of the securities that may be offered to the public, and which, to the best of the Bank's knowledge, has not yet been formed at this stage.

**Effect of the transitional instruction included in Proper Conduct of Banking Business Directive No. 299 ("the Instruction").** Among other things, the Instruction included transitional instruction, which allow, in certain of the matters, a gradual implementation over a number of years. Below are presented the short-term (one year) and the long-term (termination of the transitional instructions) effects of the adoption of the Instruction.

**The effect of adoption of the Directive on the common equity tier 1 - short-term effect.** The Bank estimates that had the guidelines of the Directive been implemented as of June 30, 2015, on the basis of the data for that date and the transitional instructions as would apply on June 30, 2016, including the impact of the implementation of the instruction regarding employee rights (see Note 1 E 1) and including the impact of a possible acquisition of the minority interest in Diners, if and to the extent that the negotiations in this matter would result in an agreement, without the consideration of income accumulated during the period, the ratio of common equity tier 1 would have been reduced by 0.2%.

**The effect of adoption of the Directive on the common equity tier 1 - long-term effect.** The Bank estimates that had the guidelines included in the Directive been implemented in full as of June 30, 2015, on the basis of the data for this date, and without taking into account the provisional instructions (excluding the discount regarding the sale of all the shares of FIBI held by the Bank and including the impact of a possible acquisition of the minority interest in Diners, if and to the extent that the negotiations in this matter would result in an agreement) (a situation equal to the situation that will prevail in 2018, approx. five years after the date of initial implementation of the directive, though without taking into consideration earnings that will accumulate during the period), the ratio of common equity tier 1 would have declined by 0.4%.

It should be emphasized that the data presented above, as an estimate of the short and long-term effect, forms an estimate only. Moreover, the said estimates assume a situation of static existence of the data as of June 30, 2015, throughout the period of implementation, while in practice changes will occur during the period of implementation in the capital adequacy of the Bank, both as a result of the accumulation of current earnings and of preparation measures adopted by Management of the Bank, if at all. In view of the above, the actual result will inevitably be different than from the estimates stated above.

**Preparations made by the Bank.** The Bank prepared a detailed plan for attaining the capital targets, being at least the level of capital prescribed by the instructions of the Supervisor of Banks and according to the time schedules published by him, and it is acting towards its implementation.

## COMPONENTS OF CAPITAL

**Total capital** as at June 30, 2015, totalled NIS 13,460 million, compared with NIS 12,989 million at the end of 2014, an increase of 3.6%.

**Equity attributed to the Bank's shareholders** as at June 30, 2015, totalled NIS 13,039 million, compared with NIS 12,599 million at the end of 2014, an increase of 3.5%. The change in equity attributed to the Bank's shareholders in the first half of 2015 was affected, among other things, by the net earnings during the period, by a decrease of NIS 39 million in the component of net adjustment of available-for-sale securities presented at fair value, net of the tax effect and from a decrease of NIS 97 million in financial statements translations adjustments and from the net actuarial gain in the amount of NIS 52 million.

**The ratio of total capital to total assets**, as at June 30, 2015, reached a rate of 6.6%, compared with 6.3% at the end of 2014.

## COMPONENTS OF THE REGULATORY CAPITAL AS OF JUNE 30, 2015 (BASEL III)

**General.** As stated, starting with January 1, 2014, the new instructions in accordance with the Basel III guidelines gradually came into effect.

**Implementation of the instructions regarding employee rights.** It is noted that the Supervisor of Banks has stated in the transitional instructions to the said instruction, that it is not required to restate the capital adequacy data for prior periods, with respect to the adoption of U.S. GAAP in the matter of employee benefits (see note 1 E 1 to the condensed financial statements). Accordingly, the comparative data presented below has not been restated. On the other hand, the comparative data presented hereunder have been restated in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of capitalization of software development costs - see Note 1E (2) to the condensed financial statements).

**Ratio of common equity tier 1** as of June 30, 2015, amounted to 9.5%, compared with 9.4% on December 31, 2014.

**Total capital ratio** as of June 30, 2015, amounted to 14.5%, as compared with 14.8% on December 31, 2014.

	June 30		December 31,
	2015	2014	2014
in NIS millions			
<b>1. Capital for Calculating ratio of capital</b>

Footnote:

- (1) With an addition of 0.012% per quarter, in accordance with the additional capital requirements with respect to housing loans – see Note 5 1 (b) to the condensed financial statements.
- (2) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of capitalization of software development costs, See Note 1 (E) 2 to the condensed financial statements.

## ADDITIONAL DISCLOSURE ACCORDING TO THE THIRD PILLAR OF BASEL

Within the framework of the "Additional disclosure according the third pillar of Basel" document, a description is given of the principal characteristics of the issued regulatory capital instruments (part "A" of the document) and a disclosure of the composition of the regulatory capital (part "B" of the document). The document is available for perusal on the Magna Site of the Israel Securities Authority, on the Maya Site of the Tel Aviv Stock Exchange Ltd. and on the Bank's website together with the Bank's report for the second quarter of 2015 (the present report). The information included in parts "A" and "B" of the document is presented here by way of reference.

## LIQUIDITY AND THE RAISING OF RESOURCES IN THE BANK

### GENERAL

A 25% increase was recorded during the first half of 2015 in the M1 money supply (cash held by the public and shekel current account deposits) as well as a 8% increase in the M2 money supply (M1 together with non-linked deposits of up to one year). It is noted, that in the corresponding period last year the money supply M1 and M2 increased by 9% and 2.5%, respectively.

The changes in the money supply reflected mostly, a rise in current account deposits and current credit deposit and on the other hand a decline in deposits of up to one year. These trends occurred concurrently with the lowering of the interest rate and to the rise in the capital markets. These supported the continuing trend of the shift from bank deposits, on the background of the low interest rate, to liquidity and to the capital market. A growth of NIS 4.7 billion was recorded in the monetary base in the reviewed period. The growth in

the monetary base is commensurate with the reduction in the Bank of Israel interest rate for the month of March to 0.1%. For comparison, a growth of NIS 6 billion was recorded in the first half of 2014, when the interest rate for March was lowered to 0.75%. The growth in the first half of this year stems from the supply of liquidity by the Bank of Israel, which offset the absorption by the Government. The supply of liquidity by the Bank of Israel was achieved mainly by the conversion of foreign currency as well as by expansion through open market activities.

**Following are the sources for the change in the monetary base:**

	2014	2013	change in %
	In NIS billion		
Operations on the Capital Market	7.1	(4.5)	-
The Shekel deposits tender	(2.7)	11.0	-
Foreign currency conversion	17.8	14.5	22.8
Government activity	(18.1)	(14.7)	23.1

## THE BANK

During the first half of 2015, the Bank has maintained liquid assets in a volume larger than its total liquid liabilities and the Bank's internal liquidity model has shown significant liquidity surplus.

The following trends were noticed during the first half:

- As a result of the low interest environment, the shifting of liquidity from deposits to current account balances, to the tune of NIS 3.2 billion in local currency and approx. US\$500 million in foreign currency;
- A decline of approx. US\$500 million in the volume of foreign currency deposits, after elimination of the exchange rate effect, of which approx. US\$300 million of retail deposits;
- An increase of approx. NIS 3 billion in the volume of Shekel deposits, of which an increase of NIS 1.4 billion in retail deposits;
- Decline in volume of CPI-linked liabilities in the amount of approx. NIS 1.4 million (15.6%). Contributed to the decline were the redemption of CPI linked debt notes in the amount of approx. NIS 500 million and the redemption of linked deposits to the tune of NIS 900 million.

For additional details, see below in the item "Liquidity risk management" and in the 2014 annual report (pp. 41-43). For details regarding the Directive in the matter of Liquidity Coverage Ratio (LCR), see below under "Exposure to Risks and Risk Management".

**Deposits from the public**

**DISCLOSURE REGARDING DEPOSITS**

Deposits from the public of the three largest depositor groups amounted as of June 30, 2015, to NIS 6,897 million.

**RAISING OF RESOURCES**

During the first half of the year the Bank did not raise any funds on the capital market.

**Subtraction of regulatory capital instruments in 2015.** Subordinate capital notes, which under the Basel II instructions had been recognized as hybrid Tier 1 capital or as upper Tier 2 capital, are no longer qualified according to the Basel III instructions, though according to the transitional provisions they would be recognized as additional Tier 1 capital and would be gradually eliminated in the years 2014-2022. Furthermore, subordinate debt notes, which under the Basel II instructions had been recognized as Tier 2 capital, are no longer qualified under the Basel III instructions, though according to the transitional provisions they would be recognized as Tier 2 capital and would be gradually eliminated in the years 2014-2022. Regulatory capital instruments, which are to be subtracted in the course of July-December 2015, in accordance with the transitional provisions, amount to NIS 316 million.

NIS 704 million were deducted in the first half of 2015 (of which an amount of NIS 526 million would have been deducted also in accordance with the Basel II instructions).

Despite the subtraction of supervisory capital instruments (tier 2 capital) as stated, according to the Bank's work plan for the year 2015, the raising of tier 2 capital in order to reach the overall capital goals for 2015, is not required.

For additional details, see "Management and measurement of the liquidity risk" under "Exposure to risks and risk management" and Note 4 to the condensed financial statements.

## DESCRIPTION OF THE ACTIVITY OF THE GROUP ACCORDING TO SEGMENTS OF OPERATION

### ACTIVITY OF THE GROUP ACCORDING TO PRINCIPAL SEGMENTS OF OPERATIONS

#### GENERAL

Concise data regarding operations in the various segments is presented in Note 13 to the condensed financial statements, p. 255 below.

For details regarding the relevant public reporting instructions and the definition of the segments, and details regarding the principal assumptions, estimates and principles used in the preparation of segment information, see Note 31 to the financial statements as of December 31, 2014 (pp. 517-519).

**Regulatory operating segments.** For details regarding an amendment to the reporting to the public instructions and a FQA file in the matter of regulatory operating segments, see Note 1 f 1 to the condensed financial statements. According to the amendment, the disclosure requirements in the directors' report and in the provisional instruction regarding "description of the business of the banking corporation and forward-looking information in the directors' report" shall relate to disclosure of regulatory operating segments.

**Changes in the cost allocation model.** In view of the period of time that has passed since the formation of the model for the allocation of costs used in the preparation of the operating segments data, and among other within the framework of the preparations for the implementation of the instruction regarding the regulatory operating segments (see Note 1 F 1 to the condensed financial statements), the Bank has performed a comprehensive review of the cost allocation model, making therein the necessary changes. The new model was initially implemented in the first quarter of 2015.

In view of the significance of the change, and respectively, in view of its impact on the comparability between the data for the current period and the data for prior periods, it has been decided to restate the comparative data for prior periods in accordance with the new model. For additional details, see Note 13 B to the condensed financial statements.

#### ADMINISTRATIVE STRUCTURE

The Discount Group operates in Israel and overseas by way of the Bank, subsidiaries, branches and representative offices, in all areas of banking and financial services.

The Bank's business operations in the first half of 2015 were conducted by four divisions: Banking Division, Corporate Division, Financial Markets Division and the Customer Assets Division.

**The Banking Division** conducts business with households including VIP customers as well as small businesses and medium corporations (middle market) and customers of direct banking. The Division is responsible for the operation of the investment consultants operating in branches and investment centers, direct channels and for the mortgage activity.

**The Corporate Division** is responsible for operations with the large corporations through business managers, the Tel Aviv main branch and its extensions, the foreign trade department, Diamond Exchange Branch and the London branch. Likewise, the Division is responsible for operations with segments of specific customers, such as: construction (real estate project financing) and infrastructure companies and large capital market operators.

**The Financial Markets Division** is responsible for the financial management of the Bank and of the Group, which includes asset and liability management, dealing rooms management, market risks management, transfer prices management, capital management, "Nostro" portfolio management and management of relations with foreign financial institutions. The Division's operation is divided between several units: assets and liabilities management, dealing room, investment unit, control and operating services regarding securities and derivatives, and the Chief Economist and foreign financial institutions. In addition, the Division is responsible for the subsidiaries BLD Ltd., Discount Manpikim Ltd. and Israel Discount Capital Market and Investments Ltd..

**The Customer Asset Division** is responsible for the service provided by the Bank to private banking Israeli customers, as well as to foreign resident customers at the branches and at the private banking centers attached to the Division. The Division is also responsible for the advisory services at the Bank – pension and investments advisory services – and for the initiating, developing and managing of the financial products offered to all customer segments. In addition, the Division is responsible for investment portfolio management (through "Tafnit Discount Asset Management"), for trusteeship services (through "Discount Trust") and for the subsidiary IDB (Swiss) Bank.

## RETAIL SEGMENT – GENERAL

The Bank presents two retail segments: "Household segment" and "Small business segment". For details regarding "Retail Segment - General", see the 2014 Annual Report (pp. 44-48).

## DISCOUNT, THE BANK FOR THE FAMILY

The Bank offers its customers a unique plan in Israel, which is designed for existing and new customers who are related to one another. A "family program" turns the existing family cell into a financial group, enjoying the variety of services and exclusive benefits.

The program is enjoyed by the Bank's customers who join as a group to the "family program" at Discount Bank. Joining the program is simple and easy and is made possible by registering at the branch, at the TeleBank center and through the Bank's Internet site.

The connection to the family group grants the family members participating in the program, benefits of a personal value in accordance with the status of the accounts and in accordance with the type of benefits elected by the participants, and everything, of course, while strictly maintaining bank confidentiality so that none of the parties joining the program share or are involved in the accounts of the other family members.

**"go2 key" card.** One of the products offered by the family plan. A rechargeable card, which family members may order for a customer who is not the account owner, including also children from the age of 14. The card may be recharged through the customer's account at the branch, by TeleBank or by the Internet. The 2go key card allows a daily cash withdrawal of up to NIS 400, and daily purchase transactions of up to NIS 400. The card provides security and control over expenditure. The possibility of recharging the card through a phone application has also been added recently.

For additional details, see the 2014 Annual Report (p. 44).

**Real Families.** In continuation to the concept "Discount is good for the family" the Bank introduced in June 2015 a new communication platform – "Real Families". This is a new communication concept of "Real banking" – banking business based on attentiveness, learning and the offer of services and products suitable for the real needs of families in Israel.

For the purpose of the advertising campaign, the Bank has elected not to use presenters, and for the purpose of the new communication platform, tens of families representing the Israeli pattern were elected. These families documented themselves, the Bank participating in the documentation.

## "MAFTEACH DISCOUNT"

In 2015, the Bank is continuing the unique marketing effort in the area of financial consumption – the credit card "Mafteach Discount". For additional details, see the 2014 Annual Report (p. 47).

In continuation to the "Discount is good for the family" move, the Bank introduced in June 2015 the "family key". "Family key" is a benefits plan designed for customers who are attached in their current accounts to the family plan and who hold the "Discount key" credit card of the Bank. Within the framework of this plan, holders of the "Family key" enjoy double or increased discounts at a variety of trading houses.

## DEVELOPMENTS IN THE SEGMENT

**Branches.** At the end of the second quarter, the Bank has 137 branches in operation. Ibn Gabirol Branch in Tel Aviv was closed down in the second quarter.

**Operational efficiency in the branches.** In the second quarter of 2015, the operation to remove the basic documents from the branches and to scan them, continued, thereby enabling computerized viewing of the basic documents by the business function and head office units. For additional details, see the 2014 annual report (pp. 47-48).

**Services to State employees.** On June 30, 2015, the engagement between the Bank and the Office of the Accountant General at the Ministry of Finance, for the provision of services to State employees, was concluded (for additional details, see Note 19 C 17 to the 2014 Annual Report, p. 477, and Note 8 b 9 to the condensed financial statements). The Bank continues to grant beneficial terms to State employees.

## DIRECT CHANNELS

The Bank acts on a current manner in order to provide its customers with an advanced experience regarding its direct channels, aspiring for a continuous improvement both as regards the type and variety of services and as regards user friendliness and customer experience. Within the framework of this activity, the Bank introduced during the second quarter of 2015, the following products and services:

**My finance Discount.** In June 2015, the Bank introduced the capital market widget for cellular telephones. This innovative service allows customers to access the value of their securities portfolio and prices of securities contained therein in a quick manner with no need to access an application.

**A new "Discount@Internet".** In June 2015, the Bank introduced the first stage of the new website "Discount@Internet", which allows customers to manage their accounts quickly and efficiently. The new website includes new set, home page and loan and mortgage worlds.

The new home page is user friendly and easy to use, it includes information, frequent operations and important notices. The new loan world presents to customers all the information concerning the loans in his account in a clear and simple format, and allows him to receive an immediately approved personally tailored loan, or communicate with the banking staff by means of the website.

Through the new mortgage world the customer may receive all the information regarding the mortgage in a clear and accessible manner, and arrange a meeting with the mortgage advisor directly through the website.

**Voting in general meetings.** The "voting in general meetings" service was introduced in June 2015, allowing a customer holding securities entitling him to vote in general meetings, to receive information about the holding of general meetings and provide identification to the voting website (of the Israel Securities Authority), by means of Discount@Internet for private individuals and business+.

**Closing an account by means of the Internet.** In accordance with the instruction of the Bank of Israel, requiring banks to allow customers to close their bank accounts using online channels, the Bank introduced in June 2015, an Internet service for the closing of accounts.

## RETAIL BANKING SEGMENT – HOUSEHOLD SEGMENT

---

### GENERAL

The household segment provides services and diverse financial products to the Group's private individual customers, both at Discount Bank and at MDB. These are provided by means of a chain of some 200 branches located all over the country, in addition to a variety of direct channels. The customers are classified into a number of customer populations according to their age, financial wealth and additional parameters.

### GOALS AND BUSINESS STRATEGY

The Bank approved in 2014 a new comprehensive Group strategic plan, which had defined the household segment as one of the segments in focus, on which the Group would focus in the coming years, as the central growth engine. The new strategy relies on three principal layers: focus on the intensification of relations with existing customers of the Group; focus on growth products – private credit, and growth sectors – wealthy customers (at Discount Bank), customers of the Arab and Jewish Orthodox sectors (at MDB); and improvement of the retail infrastructure, which among other things includes the improvement of the service model and customer experience.

### LEGISLATIVE RESTRICTIONS, REGULATIONS AND SPECIAL CONSTRAINTS APPLICABLE TO THE SEGMENT

For details regarding private Bills tabled recently in the matters of restrictions on the charging of commissions and the payment of interest on credit current account balances, see "Legislation and supervision" below.

For details regarding the recommendations of the team examining the strengthening of competition in the banking industry and measures taken by the Supervisor of Banks for their implementation and additional measures taken by the Supervisor of Banks for improving competition and increasing transparency in current account management, see Note 17 to the condensed financial statements.

### SCALE OF OPERATIONS AND NET INCOME OF THE SEGMENT

**The segment's loss** in the first half of 2015 amounted to NIS 18 million, compared to a loss in the amount of NIS 203 million in the corresponding period last year.

**The credit loss expenses** in this segment in the first half of 2015 amounted to an expense reversal of NIS 2 million, compared to an expense of NIS 11 million in the corresponding period last year.

## RETAIL BANKING SEGMENT – SMALL BUSINESS SEGMENT

---

### GENERAL

The small business segment provides services and diverse financial products to small business customers, both at Discount Bank and at MDB. These are provided by means of a chain of some 200 branches located all over the country, in addition to a variety of direct channels.

### GOALS AND BUSINESS STRATEGY

The Bank approved in 2014 a new comprehensive Group strategic plan, which had defined the small business segment as one of the segments in focus, on which the Group would focus in the coming years, as the central growth engine. The new strategy relies on the focusing on the intensification of relations with existing customers of the Group, alongside a growth in the market share of this segment.

### LEGISLATIVE RESTRICTIONS, REGULATIONS AND SPECIAL CONSTRAINTS APPLICABLE TO THE SEGMENT

For details regarding private Bills tabled recently in the matters of restrictions on the charging of commissions and the payment of interest on credit current account balances, see "Legislation and supervision" below.

For details regarding the recommendations of the team examining the increase in competition in the banking industry, measures taken by the Supervisor of Banks to implement these recommendations and additional action taken by the Supervisor to improve competition and increase transparency in the management of current accounts, including the change in the "small business" definition as regards charging commissions, see Note 17 to the condensed financial statements.

### SCALE OF OPERATIONS AND NET INCOME OF THE SEGMENT

**Net income** of the segment in the first half of 2015 amounted to NIS 120 million, compared to NIS 59 million in the corresponding period last year, an increase of 103.4%.

**The credit loss expenses** in this segment in the first half of 2015 amounted to an expense of NIS 28 million, compared to NIS 12 million in the corresponding period last year.

## CORPORATE BANKING SEGMENT

### REACHING TARGETS AND BUSINESS STRATEGY – FIRST HALF OF 2015

The Bank has acted in accordance with the work plan for the corporate banking segment, while focusing on increasing return on risk assets and a customer-focused view. Among other things, the Bank acted to adjust its exposure in accordance with sectorial risk level evaluations and adjust the credit margins to the risk level, reducing exposure to foreign operations, and reducing the concentration risk (to borrower groups and individual borrowers), with a view of improving the credit portfolio.

### LEGISLATIVE RESTRICTIONS, REGULATIONS AND SPECIAL CONSTRAINTS APPLICABLE TO THE SEGMENT

As of June 30, 2015, no deviations existed to the limitations as set in Proper Conduct of Banking Business Directive No. 313. Furthermore, as June 30, 2015, there were no deviations from the limitations on "related persons". It should be noted that the holding permit states that during the cooling-off period (which is to terminate on September 3, 2015) the members of the Bronfman Group and Mr. Schron shall be deemed related parties and controlling shareholders for the purpose of Directive No. 312 (see the 2014 Annual Report, pp. 246-250).

In accordance with a clarification received from the Supervisor of Banks, the investment of the Group in securities of U.S. federal agencies is averaged at 50% for the purpose of computing the liability according to Directive 313.

**Amendment to the Proper Conduct of Banking Business Directive No. 313 in the matter of "Restrictions on indebtedness of a single borrower and of a group of borrowers"**. Proper Conduct of Banking Business Directive No. 313 was amended on June 9, 2015, so that the definition of capital for the purpose of computing the limitation was restricted to the Tier 1 capital only (net of supervisory adjustments and deductions) within the meaning of Proper Conduct of Banking Business Directive No. 202. It has been prescribed as a transitional instruction, that the calculation of capital shall include the Tier 2 capital as of December 31, 2015, which shall be reduced as from January 1, 2016, by one-twelfth in each quarter, until its elimination on December 31, 2018. The limitation on indebtedness of a banking group of borrowers was reduced to 15% of the capital. The amendment takes effect as from January 1, 2016.

**Amendment to the Proper Conduct of Banking Business Directive No. 312 in the matter of "A banking corporation business with related parties"**. The provisions of the amendment took effect as from January 2015, except for the change in the definition of capital, which will be applied gradually. For additional details regarding the amendment, see the 2014 Annual Report (p. 62).

### SCALE OF OPERATIONS AND NET INCOME OF THE SEGMENT

**Net income** of the segment in the first half of 2015 amounted to NIS 258 million, compared with NIS 194 million in the corresponding period last year, an increase of 33.0%.

**The credit loss expenses** in this segment in the first half of 2015 amounted to an expense reversal of NIS 2 million, compared to an expense reversal of NIS 44 million in the corresponding period last year, a decrease of 95.5%.

## DEVELOPMENTS IN THE SEGMENT

**Issue of credit-linked debt notes.** Towards the end of the first quarter of 2015, the Bank had issued credit-linked notes (CLN), the balance of which at June 30, 2015, amounted to approx. NIS 336 million (fair value in an amount of NIS 333 million), which is presented in the item "bonds and subordinated debt notes".

A credit-linked debt note is a financial instrument that is connected to an asset of the Bank representing a debt of a third party legal entity and which bears the credit risk inherent in that entity. The purchaser of the note accepts the risk inherent in the debt asset. The Bank commits to redeem the amount of the liability (as well as interest in accordance with the terms of the note), when the Bank's liability is contingent on the non-materialization of the risk inherent in the debt asset. The deposit shall not be refunded to the purchaser of the note if the base asset, to which it is linked, would be in an insolvency situation, and the Bank shall only pay to the holder of the note the amounts it manages to collect in respect of the debt asset.

This product is considered collateral which is deductible in calculating the indebtedness of the customer, in accordance with Proper Conduct of Banking Business Directive No.313. It is also considered a qualified financial collateral in accordance with Sections 145 to 147 of Proper Conduct of Banking Business Directive No.203.

## DEVELOPMENTS IN THE BUSSINESS SECTOR IN THE FIRST HALF OF 2015

In the first half of 2015 the product expanded on an annual rate of 2.6%, similarly to the first and second half of 2014 (2.4%-2.5%). However, while in the first quarter a growth of 2% was recorded, in the second quarter the growth rate stood at 0.3%. The business product grew in the first half by 2.4%, showing growth of 1.5% in the first quarter and a regression of 1% in the second quarter.

Following are the factors which effected the development of the business product in the first half:

- An increase of 4.8% in privet consumption, following a growth of 6.4% in the second half of 2014 and compared to 2.5% in the first half last year;
- Regression of 3.9% in investment in fixed assets (excluding ships and airplanes). The said regression derived from a regression of approx. 7% in investments in the economic sectors and on the other hand an increase of 3.8% in investment in housing construction;
- Decrease of approx. 9% in exports in continuation to a decrease of 2.7% in the previous half. The export data reflected a regression in both the export of goods and the export of services;
- Public consumption (excluding defense imports) recorded in the first half an increase of approx. 1% (a growth of approx. 5% in the second half of 2014). The said increase in public consumption stems from an increase (3.4%) in civil consumption, and on the other hand a steep decrease (approx. 11%) in consumption of local defense industries.

The import of goods and services (excluding defense imports) recorded a decrease of 1%, with a regression in the import of services (approx. -4%) and a standstill in the import of civilian goods.

## DEVELOPMENTS IN THE DEBT OF THE BUSSINESS SECTOR

The debt of the business sector (excluding banks and insurance companies) amounted at the end of May 2015 to NIS 821 billion, a rise of 1% compared with the end of December 2014. However, while there was an increase in the first quarter, a decrease was recorded in the months of April-May. The increase in debt during the first half of the year reflects an increase to banks and institutional entities, along with a decrease in debt to overseas residents. As a result, there has been a slight increase in the banks' weighting in the total debt of the business sector from 48.4% at the end of 2014 to 48.7% at the end of May 2015.

According to the Bank of Israel assessments in quantitative terms (eliminating the effects of inflation and changes in exchange rates), the total debt of the business sector recorded an increase of 1.3% in the reviewed period. The aforesaid increase is due mainly to a 1.8% increase in the debt to banks and to a 3.8% increase in the balance of nonmarketable bonds and private loans of institutional entities, practically all of which was in the private loans component.

The volume of corporate bond issues (at the Tel Aviv Stock Exchange and abroad) in the period January to June amounted to NIS 31.8 billion, compared with NIS 16.6 billion in the corresponding period last year.

The margin between corporate bonds (included in the Tel-Bond 60 Index) and government bonds as of the end of the first half of 2015 was 1.76%, compared with 2.01% at the end of 2014 and 1.37% at the end of the corresponding quarter last year.

## DEVELOPMENTS IN THE SEGMENT'S MARKETS

Following are development directions in the principal economic sectors:

- Industrial sector – A certain weakness was recorded in the second quarter in the industrial sectors, reflected in moderation in production and in especially weak foreign trade data. Notwithstanding the above, following a number of weak months, the Purchasing Managers Index rose in June to a level of 51 points, indicating an expected growth in industrial activity. Furthermore, in view of the developments taking place in Greece during the quarter, certain uncertainty appeared with respect to the impact on the Eurozone. An impact in the form of the weakening of the Euro as against the currencies basket might cause an adverse effect on industrial sectors having a considerable export to Europe (such as: chemicals, oil products, foodstuffs, rubber and plastics);
- Diamonds – The slowdown (which started in the second half of 2014) in demand for diamonds and in the activity in this sector is continuing and is reflected in the decline in exports of polished diamonds;
- The agricultural sector – Agricultural exports continued to decline in the second quarter, on the background of exposure to the Ruble crisis in Russia (being the target country for approx. 20% of agricultural exports), as well as on the background of the continuing strengthening of the Shekel against the Euro (the exchange rate reached a low of 4.2 as of the end of June 2015);
- Transportation sector – In the aviation field the high competition continues in view of the implementation of the second stage of the "open skies" agreement and the increase in passenger traffic to and from Israel served by foreign airline companies. In the marine transportation field an improvement was recorded in the second quarter with the marine transportation index (Baltic Dry Index) increasing by 40% during the second quarter though after a reduction of a similar magnitude in the previous quarter;
- The commerce sector - A weakening in the sectorial indicators, reflected in a decline in the purchases of durable goods and moderation in commercial turnover. Moreover, the consumer sentiment (Consumer Confidence Index) also reflected a certain decline;
- Real estate sector – for details, see below under "Construction and real estate activity" under "Further details as to activity in certain products".

## ANTICIPATED DEVELOPMENTS IN THE SEGMENT'S MARKETS

The economic growth forecast of the Bank of Israel for the year 2015 indicates 3.0%, following a downward updating by 0.2%. The update stemmed from an unexpected negative turn in investment and export components. However, the forecast for the year 2016 has been updated upwards (to 3.7%) in view of the expected growth in public expenditure.

According to the forecast of the Bank of Israel, the interest rate is expected to remain at its low level until the end of 2015, and continue rising at the beginning of 2016. However, a rise in the FED interest rate is expected already in the fourth quarter of 2015, which may have implications also on the domestic economy. In such a case, a moderating effect on the rate of growth of private consumption and investments is expected, which will have its implications on the commerce sector.

On the other hand, a growth is expected in 2015 in the level of international trade (according to the IMF) and accordingly in the rate of imports of the OECD countries, which is expected to be beneficial to the industrial sector.

For details regarding developments expected in the real estate and infrastructure sector, see below under "Construction and real estate activity" under "Further details as to activity in certain products".

## EXPECTED DEVELOPMENTS IN CREDIT TO THE CORPORATE BANKING SEGMENT

**Banking credit.** The demand for banking credit is expected to be supported by several factors, among which are the Concentration Act (which is expected to lead to the sale of assets by centralized corporations) is expected to create credit opportunities regarding transactions for the acquisition of means of control. Another supporting factor is the attainment of capital requirement goals. On the other hand, certain obstructing factors exist, among which are the growing competition on the part of institutional bodies and the expansion in their operations, as well as Directive No. 313 regarding the restriction of capital in respect of groups of borrowers in terms of Tier 1 capital, which is expected to moderate the supply of credit to groups of borrowers.

In accordance with the above and in view of the factors having an impact, a moderate expansion of the credit is expected in the corporate banking segment.

**Off-banking credit.** A continuation of rapid growth is expected in the off banking credit. This, mainly due to fast growth in non-marketable private loans.

The above said in the last two items is considered a forward looking statement. The above reflects the evaluation of the Bank's management keeping in mind the information available to it at date of preparation of the financial statements, with respect to the state of the economy and of the global economy. The foregoing may not materialize in case of different changes in macro-economic conditions, which are not under the Bank's control.

For further details regarding the "Corporate Banking Segment", see the 2014 Annual Report (pp. 58-68).

## MIDDLE MARKET BANKING SEGMENT

### SCALE OF OPERATIONS AND NET INCOME OF THE SEGMENT

**Net income** of the segment in the first half of 2015 amounted to NIS 109 million, compared with NIS 32 million in the corresponding period last year, an increase of 240.6%.

**The credit loss expenses** in the first half of 2015 amounted to expenses reversal of NIS 7 million, compared with expenses of NIS 42 million in the corresponding period last year.

## DEVELOPMENTS IN THE SEGMENT

In the first half of 2015, a course of action was initiated to concentrate financially wealthy customers at the Tel Aviv International Private Banking Center. This move was intended to concentrate professional service in a single location, in order to ensure high-quality service on the one hand, and allow risks involved in providing service to foreign residents to be dealt with in an efficient manner on the other.

For further details regarding the "Private Banking Segment", see the 2014 Annual Report (pp. 72-76).

## FINANCIAL MANAGEMENT SEGMENT

### SCALE OF OPERATIONS AND NET INCOME OF THE SEGMENT

The segment's loss in the first half of 2015, not including the activity of the non-financial companies sub-segment, amounted to NIS 24 million, compared to a net income of NIS 159 million the corresponding period last year.

Total income in the first half of 2015 amounted to NIS 419 million, compared to NIS 398 million the corresponding period last year, and they include three main components:

1. Income from the Bank's "Nostro" operations in Israel in the net amount of NIS 220 million, net, including a gain of NIS 156 million from the sale of securities (mostly Government bonds) and fair value adjustments of marketable securities, compared to an income of NIS 201 million from nostro activity in the corresponding period last year, including a profit of NIS 232 million from the sale of securities and fair value adjustments of marketable securities.
2. Gain from assets and liabilities management (from positions management and from currency and financial derivatives trading and brokerage) of NIS 122 million, compared to a gain of NIS 167 million in the corresponding period last year.
3. Income from international operations in the amount of NIS 77 million, compared with income of NIS 30 million in the corresponding period last year.

## DEVELOPMENTS IN THE SEGMENT

**Negative interest environment.** Following the transition to a negative interest environment, as regards the Swiss franc and the Euro currencies, the Bank has informed its institutional customers of the charging of interest on credit current account balances in these currencies. The Bank would continue to consider the steps to be taken in accordance with development in interest rates in Israel and the world over.

For further details regarding the "Financial Management Segment", see the 2014 Annual Report (pp. 76-79).

## NON-FINANCIAL COMPANIES SUB-SEGMENT

### GENERAL

This sub-segment includes the Group's operations in non-financial investments. The greater part of the sub-segment's operations relate to investments made by a subsidiary, Israel Discount Capital Markets and Investments Ltd. (hereinafter: "DCMI").

### LEGISLATIVE RESTRICTIONS, REGULATIONS AND SPECIAL CONSTRAINTS APPLICABLE TO THE SUB-SEGMENT

As of June 30, 2015, the amount of the Bank's investment in non-financial corporations was less than the restricted amount pursuant to Section 23 A (A) of the Banking Law (Licensing). For further details see the 2014 Annual Report (p. 80).

### SCALE OF OPERATIONS AND NET PROFIT OF THE SUB-SEGMENT

The sub-segment's net income in the first half of 2015 amounted to NIS 43 million, compared with NIS 51 million in the corresponding period last year, a decrease of 15.7%.

#### Principal data relating to the operations in the non-financial companies sub-segment:

	For the three months ended June 30		For the six months ended June 30	
	2015	2014	2015	2014
	in NIS millions			
Interest income, net	-	-	-	-
Non-interest financing income	24	39	52	54

<b>Total Income</b>	<b>25</b>	<b>40</b>	<b>54</b>	<b>55</b>
<b>Net Income Attributed to the Bank's shareholders</b>	<b>20</b>	<b>38</b>	<b>43</b>	<b>51</b>

### INVESTMENT OF THE GROUP IN PRIVATE INVESTMENT FUNDS, VENTURE CAPITAL FUNDS AND CORPORATIONS

DCMI is a partner in a number of private and public corporations, private investment funds and venture capital funds. As of June 30, 2015, the net investments of DCMI in these corporations and funds amounted to approx. US\$232 million. As of June 30, 2015, the maximum future commitment of DCMI for investment in these corporations and funds amounted to approx. US\$72 million.

In addition to the investment in funds through DCMI, Mercantile Discount Bank is committed to invest in four active venture capital funds. As of June 30, 2015, the investment of Mercantile Discount Bank in these funds amounted to US\$2.4 million. As of June 30, 2015, the maximum additional commitment for the future investments in these funds amounted to US\$0.7 million.

## DEVELOPMENTS IN THE SUB-SEGMENT

**Realizations.** In the first half of 2015, DCMI has recognized gains in the total amount of NIS 29 million in respect of withdrawals from the funds, compared with NIS 41 million in the corresponding period last year.

**Investment in dividend paying shares.** During the first half of 2015, DCMI realized all its holdings in dividend shares, at a profit of NIS 10 million.

**Additional investments.** DCMI is studying additional investments with a view of diversifying its sources of income.

For further details regarding the "Non-financial companies sub-segment", see the 2014 Annual Report (pp. 80-82).

## FURTHER DETAILS AS TO ACTIVITY IN CERTAIN PRODUCTS

### CREDIT CARD OPERATIONS

#### GENERAL INFORMATION ON THE OPERATIONS

Following are quantitative data regarding the activity of ICC:

	June 30, 2015		December 31, 2014	
	The total number of cards	Of which: active cards	The total number of cards	Of which: active cards
	in thousands			
Bank cards	1,434	1,229	1,422	1,212
Off-banking cards	865	607	840	592
<b>Total</b>	<b>2,299</b>	<b>1,836</b>	<b>2,262</b>	<b>1,804</b>

#### Transactions turnover

	For the six months ended June 30, 2015	For the six months ended June 30, 2014	For the year ended December 31, 2014
		in NIS millions	
Bank cards	25,016	23,268	48,258
Off-banking cards	7,096	6,421	13,320
<b>Total</b>	<b>32,112</b>	<b>29,689</b>	<b>61,578</b>

"Bank card" - A credit card issued jointly with the banks in the arrangement and under their responsibility.

"Off-banking card" - A credit card issued by ICC, separately from the banks.

"Valid card" - A valid credit card which is not blocked.

"Transactions turnover" - Includes transactions made using the credit card and debits in respect of transactions payable in installments, less the credits made to the banks or their customers in respect of the use of credit cards during the same period and commissions collected for the banks or for ICC. The transaction turnover does not include withdrawals of cash through the automatic teller machines in Israel.

"Active card" - a credit card through which at least one transaction was made in the last quarter.

## SCALE OF OPERATIONS AND NET INCOME

**Net income** in the first half of 2015 amounted to NIS 64 million, compared with NIS 71 million in the corresponding period last year, a decrease of 9.9%.

**The credit loss expenses** amounted in the first half of 2015 to NIS 16 million, compared with NIS 14 million in the corresponding period last year, an increase of 14.3%.

**LEGISLATION AND REGULATIONS**

**Banking Law (Licensing) (Clearing of Charge Card Transactions).** The aforesaid law entered into effect upon its publication in August 2011, apart from the provisions relating to opening the clearing market to competition which entered into effect on May 15, 2012. In January 2012, ICC, LeumiCard and IsraCard were defined as "issuer having a wide-ranging activity" (within the meaning of this term in the said legislation amendment). The Supervisor of Banks extended, from time to time, the date for ICC for obtaining a clearing license, recently until March 2016, or until the receipt of a permanent clearing license, the earliest. For further details, see the 2014 Annual Report (pp. 87-88).

**Banking Order (Service to customer) (amount of maximum commission for a service granted by a clearing agent to a provider of discount services in credit cards transactions), 2015.** On May 10, 2015 an Order was published in the Official Gazette, announcing a service granted by a clearing agent to a provider of discount services as a supervised service. The amount of maximum commission that may be charged for this service stands at NIS 20 per month per customer that is a "large business" and at NIS 10 per month for an "individual/small business". The Order takes effect on July 1, 2015.

On July 1, 2015, ICC published its updated commission pricelists, in accordance with the instructions of the Supervisor of Banks. The principal changes relate to the computation of commissions on the withdrawal of cash abroad and the currency conversion accompanying such transactions, as well as the publication of a pricelist for trading houses.

**Letter of the Supervisor of Banks regarding "increasing the distribution of immediate debit cards".** On June 29, 2015, the Supervisor of Banks published a letter in this matter. For the purpose of increasing the distribution of immediate debit cards, banking corporations are required to take active action with respect to their customers matching the definition of "household" or "small business" (as defined in Section 79A(5) to the Reporting to the Public Directive No. 664). As from the date of the letter, banking corporations are required to offer an immediate debit card to any new customer opening a current account; and until December 31, 2016, they are required to offer immediate debit cards to all existing customers having current accounts.

Banking corporations are required to determine an effective policy, forming the work procedures for approaching customers and obtaining their position as regards the issue of an immediate debit card.

The letter of the Supervisor of Banks provides also for certain instructions with respect to fees of immediate debit cards. Banking corporations may not charge card fees for an immediate debit card issued as from July 1, 2015, to a customer having a valid credit card issued by that same banking corporation, and this for a period of thirty-six months from date of issue of the immediate debit card. This provision was regularized in the Banking Rules (Customer service) (Commissions) (Amendment No. 2), 2015, published on June 28, 2015, and which took effect on July 1, 2015.

With respect to customers who do not have a valid credit card issued by that same banking corporation, it is provided that the card fees for an immediate debit card would be lower than the fees charged for a credit card.

The instruction also imposes the duty of reporting to the Supervisor of Banks the progress made in the distribution of immediate debit cards.

For additional details regarding the regulation of use of debit cards, see the 2014 Annual Report (pp. 88-89).

**Amendment of Proper Conduct of Banking Business Directive No. 470 in the matter of "debit cards".** On June 29, 2015, the Supervisor of Banks issued an amendment to the instruction, within the framework of the action taken by the Supervisor of Banks in order to increase competition in the field of debit cards and promote the use of immediate debit cards and of rechargeable cards. The amendment includes: addition of a definition for the terms "immediate debit card", "rechargeable card" and "immediate debit transaction"; and the regularization of the manner of charging the customer, taking effect on April 1, 2016, and of the transfer of funds to trading houses in respect of immediate debit transactions (in effect from April 1, 2016, in respect of an immediate debit card and taking effect on October 1, 2016, with respect to a rechargeable card); a visual differentiation of the immediate debit card and of the rechargeable card from all other charge cards, to take effect as from October 1, 2015; the format of presenting immediate debit card transactions in the statement of current account and in the monthly detailed statement of transactions, to take effect as from April 1, 2016. The Bank is preparing for the implementation of the said instructions.

In addition, the amendment to the instruction regularized an outline for the transition of the payments layout in Israel to the EMV Standard. The Standard is the accepted international standard for the protection of debit card transactions made by means of a point of sale (POS). Adoption of this Standard includes transition to the use of "smart" cards and of points of sale at trading houses, as well as ATM's that support EMV ("smart" terminals). The outline refers to the issue part (with effect as from October 1, 2015, in respect of international cards, and as from October 1, 2016, with respect to local cards) and clearing part of debit cards (with gradual effect as from October 1, 2015 and until July 1, 2017) as well as to the use of automatic machines for cash withdrawals (with effect as from January 1, 2018). Accordingly, it requires preparations for its implementation, including technological and operational preparations, as well as obtaining the relevant qualification approvals, where required.

**Draft Banking Order (Customer service) (Supervision over the service granted by an issuer to a clearing agent in respect of the cross-clearing of immediate debit transactions) (Provisional instruction), 2015.** The draft Order was published on March 9, 2015. The essence of the proposed Order contains: declaration of a service granted by an issuer to a clearing agent in connection with the cross-clearing of immediate debit transactions ("the service") as a controlled service for the purpose of the commission charged in respect thereof, and the determination that the cross-commission paid by the clearing agent to the issuer in respect of the service, shall not exceed 0.3% of the transaction amount. According to the draft, the Order shall remain in effect for one year.

**Interim report – Charge Card Transaction Chain.** In August 2015, the Bank of Israel published an interim report aimed at removing the obstacles and allowing the entry of new participants into the charge card market. The report recommends, among other things, the expansion of the spheres of responsibility of the National Committee for Payments and Settlement, the establishment of a committee to regulate the activity and the transaction execution rules in the local charging system, regulating the "Ashrayit" software protocol, and so forth.

For details regarding amendments and draft amendments to the Banking Rules (Customer service) (Commissions), within the framework of which, among other things, certain restrictions have been imposed on the charging of commissions with respect to credit cards, or where such restrictions are being proposed, see Note 17 to the condensed financial statements.

For details regarding references to the credit card field made in the coalition agreement for the formation of the 34th Government of the State of Israel, see "Legislation and supervision" below.

For further details as to the legislation concerning the credit card activity, see the 2014 Annual Report (pp. 83-90).

## DEVELOPMENTS IN THE OPERATIONS

**Negotiations concerning the acquisition of the minority's shares in Diners.** Negotiations are being held between ICC and Diners, on the one side, and Dor-Alon Finances Ltd. ("Dor-Alon") and Blue Square Israel Ltd. ("Blue Square"), on the other, in relation to a transaction, whereby ICC will acquire the shares held by Dor-Alon and Blue Square in Diners (49%). There is no certainty at this stage that the negotiations will be concluded and result in a transaction. Signing an agreement is contingent on, among other things, completing the negotiations and agreeing the details of the transaction. Should the transaction be signed, its completion will be contingent on, among other things, receiving regulatory approvals, approval of the international organizations and approval of the authorized organs of all the parties, to the extent required.

**Agreement with Bank Otsar Ha-Hayal.** For details regarding this agreement, which was signed in March 2015, see Note 16A to the condensed financial statements.

**The signing of an agreement with H&O.** On July 16, 2015, ICC, Diners and H&O entered into an agreement for the updating of the previous club agreement signed by them on December 29, 2010. The new agreement covers the period from June 1, 2015 to May 31, 2020.

For further details regarding the credit card operations, see the 2014 Annual Report (pp. 83-96).

## OPERATIONS IN THE CAPITAL MARKET

---

### TREND OF EVENTS AND DEVELOPMENTS IN THE MACRO-ECONOMIC ENVIRONMENT

**The mutual funds market.** The net raising of deposits on the mutual funds market was negative (withdrawals exceeded deposits) and amounted since the beginning of the year to NIS 15.6 billion, compared to positive net deposits of NIS 26.4 billion raised in the corresponding period last year. An examination of the different classes of funds indicates a rise in deposits raised by funds investing overseas (to a level of NIS 4.0 billion) and moderation in the raising of deposits in Israeli bond funds (to NIS 3.6 billion) and in equities funds in Israel (to NIS 809 million). On the other hand, a steep rise in withdrawals was recorded in the monetary funds (to NIS 21.3 billion) and in the shekel funds (to NIS 2.6 billion), this on the background of the low interest rate.

According to the Bank of Israel data, assets of mutual funds investing in bonds decreased in the said period by NIS 14.4 billion. Assets of the non-linked funds decreased by NIS 14.9 billion, assets of the CPI linked funds decreased by NIS 3.8 billion, and assets of the foreign currency linked funds in Israel denominated in foreign currency, declined by NIS 2.1 billion. On the other hand, the assets of funds investing overseas increased by NIS 3.7 billion, and assets of funds investing in equities and convertibles increased by NIS 2.7 billion.

**The provident funds market.** In the twelve months ended June 30, 2015, provident funds classified as "personal severance pay and provident funds" achieved a positive average return of 4.29%. The increase in return stemmed from the increases in the various indices in the stock exchange.

According to data published by the Capital Markets Division at the Ministry of Finance, provident funds classified as "personal severance pay and provident funds" showed a net positive accumulation in the amount of NIS 949 million, in the twelve months ended June 30, 2015, compared to a net negative accumulation of NIS 2.1 billion in the previous twelve months ended June 30, 2014. The positive accumulation, as stated, reflects a trend of one-off deposits of funds due to regulatory changes in the Ordinance made by the Tax Authority, which allow the withdrawal of funds by way of capitalization and under payment of capital profit tax, alongside maintaining the benefits existing in provident funds. The volume of provident fund assets as of June 30, 2015 amounted to approx. NIS 193.8 billion, compared to approx. NIS 186.2 billion as of June 30, 2014, an increase of NIS 7.6 billion (approx. 4%).

**The new pension funds market.** The new pension funds achieved in the twelve months ended June 30, 2015, an average positive return of 6.2%. According to data published by the Capital Market Division at the Ministry of Finance, all the new pension funds showed a net positive accumulation of funds in the amount of NIS 22.1 billion in the twelve months ended June 30, 2015, compared to a net positive accumulation of funds of NIS 19.2 billion in the preceding twelve months ended June 30, 2014. The volume of the new pension funds amounted to 204.5 billion as of June 30, 2015, compared to NIS 172.9 billion as of June 30, 2014, an increase of NIS 32 billion (approx. 18%).

**The ETN market.** According to data published by the Tel Aviv Stock Exchange, 630 ETN's were traded on the Stock Exchange at the end of the second quarter of 2015, of which 23 currency certificates ("deposit certificates"). Since the beginning of the year, the public has purchased certificates on international equities indices in the amount of approx. NIS 2 billion (all data in net terms). Furthermore, the public has purchased ETN's on local bond indices in the amount of NIS 0.8 billion. On the other hand currency certificates in the amount of NIS 12.5 billion have been sold and ETN's based on local share indices, by an amount of NIS 0.2 billion.

**Capital Market.** For details regarding developments in the capital market in the first half of 2015, see "Capital market" under "Main developments in Israel and around the world in the first half of 2015" hereunder.

## LEGISLATIVE RESTRICTIONS, REGULATIONS AND SPECIAL CONSTRAINTS APPLICABLE TO THE OPERATIONS IN THE CAPITAL MARKET

**Referring customers to portfolio management.** The Israeli Securities Authority published on March 10, 2015, an "instruction to advisor license holders and to holders of marketing license with respect to referral of customers to providers of portfolio management services". The instruction took effect on June 8, 2015. In accordance with this instruction, an investment advisor may refer customers to a company engaged in portfolio management, only if all conditions stated in the instruction exist, among which are: referral of the customer to a portfolio management company is made only after the investment advisor had applied independent judgment in the matter and found that such a referral would be to the benefit of the customer. The investment advisor shall not be directly or indirectly compensated for his referral of the customer to the portfolio management company, and the volume of his activity in the field of such referrals shall not be used to measure the activity of the advisor. In the case of a referral to a related company, the investment advisor shall make the customer aware, in a language understood by him, of the nature of the connection between the Bank and the related company.

**Uniform interfaces.** An updated version was published on May 6, 2015, of the circular regarding the uniform structure for communicating information and data on the pension savings market, within the framework of which, were amended, among other things, the rules regarding the different interfaces, including the holdings interface, and the rules regarding the submission of a request for obtaining information on a regular basis by a license holder were established.

The effective date is fixed for November 1, 2015.

**Pension clearinghouse.** The Capital Market, Insurance and Savings Department at the Ministry of Finance continues its actions for the stability of the pension clearinghouse and enlargement of its operations. In this framework, an amendment to the circular was published on March 4, 2015, requiring the use of the central pension clearinghouse system, widening the operations a license holder has to make through of the clearinghouse system, among which is the request to obtain information on a regular basis or a one-time request (the holdings interface). The effective date is January 1, 2016. In addition, and as a supplementary action, an amendment of the circular was published on the same date, regarding the payment for use of the central pension clearinghouse system, within the framework of which it expands the types of operations that may be conducted using the clearinghouse and determine the price for each of them. It was further determined that a license holder shall be credited by all the institutional bodies for the full amount paid by him in respect of a one-time information request, this, in the cases stated in the amendment.

**The Supervision over Financial Services Bill (Pension consulting, marketing and clearing system).** In the framework of the Bill Memorandum of the Economic Plan for the years 2015 and 2016 (Legislation amendments), 2015, the above Bill, among other things, was included. within its framework the Bill proposes to establish the right of the employee to obtain consultation as regards his pension savings from any license holder he chooses, and to forbid the subjecting by the employer of a transaction in a pension product to it being executed by a certain license holder, including a license holder who provides operating services to the employer. In supplementing the enhancement of competition in the pension consulting and pension marketing field and for creating free choice by the employee with respect to the license holder, it is proposed to separate the operating services provided to the employer from the pension marketing services provided to employees.

**Additional regulations regarding pension savings.** A final version was published on February 17, 2015, of the circular regarding provident funds investment channels, which determines rules for the establishment of default channels modified to the age of provident fund members. The effective date is determined for January 1, 2016. A circular was published on March 24, 2015, regarding the joining of a pension fund or of a provident fund, which provides for a standard version of the details to be provided in the form for membership of a pension fund or a provident fund, as well as in the form for changes requested by the member after joining such funds. The effective date is determined for January 1, 2016.

A reasoning document circular was published on June 23, 2015, within the framework of which, among other things, was included for the first time, the duty of clarifying the type of pension products held by a customer, by means of the pension clearing house, for the purpose of providing pension consulting or marketing, and this in the case of a new license holder, who has to fill in a full reasoning

document. The circular is to take effect on July 1, 2016, and with regards of the duty of clarifying the type of the pension products, on November 1, 2015.

An amendment to the circular regarding the power of attorney granted to a license holder was published on August 6, 2015, and will take effect on November 1, 2015. For additional details regarding the amendments in the circular, see the 2014 annual report (p. 99).

**Changing the structure of the Stock Exchange.** A special meeting of the shareholders of the Stock Exchange, held on July 30, 2015, approved a formulation of a detailed proposal for an arrangement plan between the present Stock Exchange members, in between themselves and between them and the Stock Exchange, in order to implement the restructuring of the Stock Exchange, turning it into a profit organization through the issue of shares to the present members of the Stock Exchange on the basis of an elected economic model and according to the attached allotment Table, according to which 5.92% of the shares would be allotted to the Bank and to MDB. At the same time, the Israel Securities Authority is promoting a Bill in the matter. Following the completion of the legislation process, a detailed arrangement plan will be submitted for approval under the Companies Act.

**Improving the process of investment consulting to customers.** On July 7, 2015, the Israeli Securities Authority published a document containing the perceptions and position of the Authority's staff formed in the consulting field. Among other things, the staff of the Authority wishes to clarify that consulting may be carried out in different ways, including by electronic mail, SMS and by regular mail.

Furthermore, the document proposes also amending the Regulation of Engagement in Investment Consulting, Investment Marketing and Investment Portfolio Management (recording of transactions and recording of consulting operations), 2007. On July 29, 2015, the Finance Committee of the Knesset approved the amendment of the said Regulations, within the framework of which, among other things, the requirement for the customer's signature and for the delivery to the customer of the minutes of the consultation meeting at its conclusion, was abolished, and instead it was determined that the minutes be delivered to the customer no later than the end of ten days since the date of the minutes.

**Regulation of securities trading services in the institutional market.** The Capital Market, Insurance and Savings Department at the Ministry of Finance published on July 29, 2015, a draft amendment to the Supervision over Financial Services Regulations (Provident funds) (Purchase and sale of securities), 2009, and a draft amendment to the Supervision over Financial Services Regulations (Provident funds) (Personally managed provident funds), 2009, the principal subjects of which are the regularization of principles for the competitive process of choosing brokers by institutional bodies (managing company and an insurer). The Amendment proposes to forbid an institutional investor to buy or sell foreign currency and securities through or from the operating bank of this body or by means of or from a related party thereof. It is further proposed to require an institutional investor to maintain a competitive process, having at least five participants, also with respect to the holding and clearing of securities, on condition that it is not the operating bank of this body. Moreover, it is proposed to determine that the payment of a commission in respect of the clearing of securities shall not be computed as a percentage of the monetary volume of a single purchase/sale transaction.

For further details regarding legislative restrictions, regulations and special constraints applicable to the operations in the capital market, see 2014 Annual Report (pp. 97-103).

## SCALE OF OPERATIONS AND NET INCOME

The net gain recorded from operations in the first half of 2015 amounted to NIS 69 million, compared to NIS 38 million in the corresponding period last year, an increase of 81.6%.

## DEVELOPMENTS IN THE OPERATIONS

**Providing securities services to residents of foreign countries.** The procedure regarding the prohibition on providing securities services to U.S. residents, since 2010, has been updated, among other things, in respect of exceptions to the definition of "U.S. resident", following updates received from external advisors in the U.S.. For further details, see the 2014 Annual Report (pp. 105-106). Furthermore, within the framework of management of risks stemming from cross-border transactions of customers, a restriction of securities services is considered, also in respect of residents of other foreign countries.

**Activity in the field of operating services.** As from July 1, 2015, the granting of operating services to Clal Pension and Provident Ltd. (hereinafter: "Clal") was terminated, thus bringing to an end the operating agreement between the parties. The parties continue in attaining the milestones with respect to cessation of services and separation.

## DATA RELATING TO THE SCALE OF OPERATIONS IN DIFFERENT AREAS

**Securities.** On June 30, 2015, the balance of securities held for the Bank's customers amounted to NIS 154.6 billion, including NIS 4.6 billion of non-marketable securities, compared to approx. NIS 151 billion as at December 31, 2014, including NIS 6.15 billion of non-marketable securities, an increase of approx. 2.38% (For details as to income from security activities, see Note 25 to the 2014 financial statements, p. 510).

In addition, on June 30, 2015, Mercantile Discount Bank held securities on behalf of customers in an amount of approx. NIS 11 billion, compared to NIS 11.8 billion on December 31, 2014, a decrease of approx. 6.8%.

**Investment portfolio management.** On June 30, 2015, Tafnit was managing investment portfolios, which together were valued at approx. NIS 6,572 million, as compared to approx. NIS 6,100 million as at December 31, 2014, an increase of approx. 7.7%.

**Pension advisory services.** The accumulation of customer assets, to whom advice has been provided, amounted as of June 30, 2015 to NIS 13.8 billion, compared with NIS 13.1 billion as of December 31, 2014, an increase of approx. 5.3%. The increase mostly stems from the rise in the value of the assets, as stated.

For further details regarding the operations in the capital market, see the 2014 Annual Report (pp. 96-107).

## CONSTRUCTION AND REAL ESTATE ACTIVITY

### DEVELOPMENT IN MARKETS OF THE ACTIVITY

**Residential property.** A rise of 1.9% in residential units prices took place in the months January to April 2015, as shown by the freehold residential units price index. The number of transactions in the months January to May 2015 totaled 51 thousand residential units, an increase at a rate of 28% compared with the corresponding period last year.

**Beginning of construction projects.** The construction of 12,390 new residential units began in the first quarter of 2015 (grossed up on an annualized basis, this represents an increase to a level of 50 thousand housing units), a 2% reduction compared to the corresponding period last year.

The monthly average amount of mortgages granted in the first half of 2015, totaled NIS 5.4 billion, 26% higher than the monthly average amount of mortgages granted in 2014 (approx. NIS 4.3 billion).

The balance of housing loans as of May 2015 was NIS 309 billion, compared with NIS 303 billion, in December 2014. The bank credit granted in this segment grew during the last three years at an average annual rate of 8.1%.

**Income producing commercial real estate.** The slight trend of decline in occupancy rates continued in the second quarter of 2015, and stability was maintained in rental prices. A sizable offer of approved building plans is available, the materialization of which may lead to surplus supply followed by a drop in rental fees.

**Income producing office premises.** A slight decline in rental prices and in occupancy rate has occurred in the second quarter of 2015 in Ramat-Gan and Bnei Braq, while stability was maintained in Tel Aviv.

It is possible that rental prices for office premises in the Greater Tel Aviv area would be affected by the start of construction of the light railway, in view of the traffic disruption in the area. Furthermore, the large surplus in supply of areas intended for office building real estate and the large volume of construction beginnings, principally in the central area, may lead to surplus supply and to the continuation of the gradual trend of decline in rental prices in this sector.

### LEGISLATIVE AND REGULATORY LIMITATIONS AND SPECIAL CONSTRAINTS APPLYING TO THE ACTIVITY

The limitations described above applying to the business segment also apply to construction and real-estate operations. In addition, it should be noted that as part of Proper Conduct of Banking Business Directives No. 315, a limitation applies to sectorial credit concentration, where that part of the credit being the responsibility of the banking corporation (including off-balance sheet credit) granted to a certain industry, as defined in the Directive, exceeds 20% of total credit to the public being the responsibility of the banking corporation. The Bank's sectorial credit concentration in the real estate sector stood at a rate of 18.8% as of June 30, 2015, compared with 18.43% at the end of 2014.

## SCALE OF OPERATIONS AND NET PROFIT

**Net profit** from operations in the first half of 2015 amounted to NIS 216 million, compared with NIS 130 million in the corresponding period last year, an increase of 66.2%.

**The credit loss expenses** in the first half of 2015, amounted to expenses reversal of NIS 81 million, compared with an expense of NIS 17 million in the corresponding period last year.

## MORTGAGE ACTIVITY

### DEVELOPMENTS IN THE MORTGAGE MARKET

	For the six months ended June 30		Change in %
	2015	2014	
	in NIS millions		
Total housing loans granted by the banks, excluding internal recycling of loans	32,246	25,529	26.3
Loans from State funds	51	103	(50.5)

### LEGISLATIVE RESTRICTIONS AND REGULATIONS

**Recycling of mortgage loans to qualified borrowers.** On March 31, 2015, the Supervisor of Banks and the Ministry of Construction announced the extension to August 31, 2015 of the process for the recycling of mortgage loans to qualified borrowers, at a low cost and accelerated process. For additional details regarding this process, see the 2014 Annual Report (p.119).

### GUIDELINES AND DIRECTIVES OF THE SUPERVISOR OF BANKS DESIGNED TO RESTRAIN THE MORTGAGE MARKET

For details regarding guidelines and instructions of the Supervisor of Banks in this respect, see the 2014 Annual Report (pp. 119-121).

**Draft circular of the Supervisor of Banks in the matter of housing loans carrying variable interest.** On July 14, 2015, the Supervisor of Banks issued a draft circular, according to which a banking corporation shall have to approach all borrowers who took loans bearing variable interest rates and to direct their attention to the risk involved in rising interest rate in the loan and the effect it has on their monthly repayments. In addition, a bank has to make the borrowers aware of the possibility for the recycling of the loan and to refer them to the relevant function at the bank for additional information.

### SCALE OF OPERATIONS AND NET PROFIT

**Following are details regarding new loans and recycled loans granted for the purchase of a residential unit and secured by a mortgage on a residential unit:**

	For the six months ended June 30,		Change in %	For the year ended
	2015	2014		December 31, 2014
	In NIS millions			In NIS millions
From bank funds(1)	2,083	1,476	41	2,997
From Treasury funds (2)	3	4	(25)	7
Total of new loans	2,086	1,480	41	3,004
Recycled loans	685	388	77	981
<b>Total</b>	<b>2,771</b>	<b>1,868</b>	<b>48</b>	<b>3,985</b>

Footnotes:

(1) Including new loans granted, secured by housing mortgages, in the amount of NIS 162 million in the first six months of 2015, compared to NIS 92 million as at June 30, 2014 and NIS 195 million in 2014

(2) Including standing loans in the amount of NIS 2 million in the first six months of 2015, compared to NIS 2 as at June 30, 2014 and NIS 4 million in 2014.

The net gain of the segment in the first half of 2015 amounted to NIS 23 million. No gain was recorded in the corresponding period last year.

The credit loss expenses. In the first half of 2015, expenses reversal in the amount of NIS 3 million were recorded, compared with an expenses reversal of NIS 11 million in the corresponding period last year.

## ADDITIONAL DETAILS REGARDING THE MORTGAGE PORTFOLIO OF THE DISCOUNT GROUP AND THE RISKS INHERENT THEREIN

**General.** The data presented hereunder relate to all the activity of the Group in this field: the Bank, MDB and IDB New York. It is noted though, that the data relating to IDB New York are negligible (housing credit in the amount of NIS 48 million as of June 30, 2015 and NIS 43 million as of December 31, 2014).

**Following are details regarding the amount of loans and average financing ratios:**

	For the six months ended June 30,	For the year ended December 31,
	2015	2014
Average amount of loan (in NIS thousands)	629	644
Average financing ratio for housing loans (in %)	53.8	52.7
Average financing ratio for general purpose loans (in %)	38.3	36.8

**Following is the division of housing credit balances according to size of credit to borrowers:**

	June 30, 2015		December 31, 2014	
Credit limit (in NIS thousands)	In NIS millions	% of total Housing Credit	In NIS millions	% of total Housing Credit
Up to 1,200	17,335	82.9	17,075	83.4
Between 1,200 and 4,000	3,210	15.3	3,013	14.7
Over 4,000	370	1.8	380	1.9
<b>Total</b>	<b>(1)(2)20,915</b>	<b>100.0</b>	<b>(1)(2)20,468</b>	<b>100.0</b>

Footnotes:

- (1) As at June 30, 2015 the credit balance includes an amount of NIS 48 million in respect of Housing loans that were granted abroad (December 31, 2014: NIS 43 million).  
(2) The credit balance is after deduction of allowance for credit losses.

**Following are data regarding the volume of problematic debts in housing credit:**

As at	Balance of credit to the public <sup>(1)</sup>	Balance of allowances for credit losses <sup>(2)(3)</sup>	Ratio of problematic debt	Change in %
	In NIS millions			
June 30, 2015	21,086	(4)340	(4)97	1.6
December 31, 2014	20,729	429	190	2.1

Footnotes:

- (1) Recorded amount.  
(2) As at June 30, 2015 the balance of the allowance includes an allowance in accordance with the extent of arrears in an amount of NIS 94 million, and also an allowance over the extent of arrears in an amount of NIS 3 million (as of December 31, 2014: NIS 164 million and NIS 26 million, respectively).  
(3) Not including group allowance in a percentage of 0.35% from the credit balance in respect of which an allowance in accordance with the extent of arrears was not made, in amount of NIS 75 million as at June 30, 2015. (as at December 31, 2014: NIS 73 million).  
(4) In accordance with the clarification received from the Supervisor of Bank, the Bank has recorded, for the first time in the first quarter of 2015, accounting write-offs in the amount of NIS 92million, regarding housing loans in respect of which a full allowance existed.

**Following is the distribution of housing credit granted, according to financing ratios and as a ratio of credit granted**

	For the six months ended June 30,				For the year ended December 31, 2014	
	2015		2014			
Loan to value (LTV) ratio <sup>(1)</sup>	In NIS millions	% of total Housing Credit	In NIS millions	% of total Housing Credit	In NIS millions	% of total Housing Credit
Up to 45%	547	26.3	459	31.1	933	31.1
Between 45% and 60%	809	38.8	575	39.0	1,146	38.2
Over 60%	727	34.9	442	29.9	918	30.6
<b>Total</b>	<b>2,083</b>	<b>100.0</b>	<b>1,476</b>	<b>100.0</b>	<b>2,997</b>	<b>100.0</b>

Footnote:

- (1) The loan to value (LTV) ratio is computed in respect of the purchased asset and does not include additional collateral, if granted.

It is noted that the component of loans granted having a financing ratio of over 60% of the value of the property at the Bank is not higher than this component of operations at the banking industry in general.

**Following are data regarding developments in housing credit balances according to linkage segments:**

	Non-linked credit <sup>(2)</sup>		CPI linked credit <sup>(2)</sup>		credit <sup>(2)</sup>		In NIS millions	In NIS millions	In NIS millions	Total Housing Credit <sup>(1)(2)</sup>
	Fixed interest	Variable interest	Fixed interest	Variable interest	Fixed interest	Variable interest				
			% of total Housing Credit	% of total Housing Credit	% of total Housing Credit					
As at June 30, 2015	2,853	8,128	52.5	45.6	1.9	4,414	5,123	3	394	20,915
As at December 31, 2014	1,877	7,782	47.2	50.7	2.2	4,974	5,374	3	458	20,468

Footnotes:

(1) Of which approx. NIS 406 million housing loans granted for acquisition groups which are in the process of construction.

(2) The credit balance is after deduction of allowance for credit losses.

A trend is noticeable in recent years, regarding a certain shifting from loans in the CPI-linked segment to loans in the non-linked segment.

Most of the loans are granted for an initial period of up to 25 years.

The outstanding balance as of June 30, 2015, of the housing loans portfolio according to the present period to maturity of over 20 years, amount to NIS 1,475 million, comprising 7.1% of the total housing loans portfolio (as of December 31, 2014, the balance amounted to NIS 1,365 million, comprising 6.7% of the total housing loans portfolio).

**Following are data regarding the composition of loans granted for housing purposes, divided by the ratio of repayments to earnings:**

	For the six months ended June 30,		For the six months ended June 30,		For the year ended December 31,	
	2015	2014	2015	2014	2014	2014
	% of total In NIS millions	% of total Housing Credit	% of total In NIS millions	% of total Housing Credit	% of total In NIS millions	% of total Housing Credit
Ratio of payment to income (PTI) <sup>(1)</sup>						
Up to 40%	1,810	98.2	1,184	93.3	2,464	94.7
Over 40%	34	1.8	85	6.7	139	5.3
<b>Total</b>	<b>1,844</b>	<b>100.0</b>	<b>1,269</b>	<b>100.0</b>	<b>2,603</b>	<b>100.0</b>

Footnote:

(1) The amount of loans granted do not include loans secured by a mortgage on a residential unit, balloon loans and bullet loans.

It should be noted that the Bank operates a rating model, which takes into account additional parameters that supplement the repayment ability profile and which does not rely exclusively on the repayment ratio.

On the background of regulatory instructions regarding restricting the refund ratio to 50% and increasing the allotment of capital with respect to loans of a refund ratio exceeding 40%, a significant decline has occurred in the rate of credit granted in the first six months of 2015 at a refund ratio of over 40%, which comprised 1.8%, compared with 5.3% in 2014.

For further details regarding the mortgage activity - housing loan, see the 2014 Annual Report (pp. 115-123). For details regarding credit risk relating to housing loans, see below under "Exposure to risk and risk management".

## INTERNATIONAL OPERATIONS

### GENERAL

Discount Group's overseas operations are carried out primarily by the Bank's subsidiaries in the United States and DBLA in Uruguay (including representative offices in Latin America), by a subsidiary in Switzerland, and by means of the Bank's branch in London (for details regarding the closing down or sale of a part of the extensions, see below).

### SCALE OF OPERATIONS AND NET PROFIT

**Net profit** of the operations in the first half of 2015 amounted to NIS 97 million, compared with NIS 19 million in the corresponding period last year, an increase of 410.5%.

**The credit loss expenses** in this segment amounted to NIS 14 million in the first half of 2015, compared to NIS 69 million in the corresponding period last year, a decrease of 79.7%.

## DEVELOPMENTS IN THE SEGMENT

**Sale of DBLA operations.** For details regarding the sale of DBLA operations, see Note 18 to the condensed financial statements.

**London Branch.** In accordance with the decision of the Board of Directors, the Bank's Management is acting towards the closure of the branch in London. The closing down of most of the operations of the branch is expected to be concluded until the end of 2015.

**IDB (Swiss) Bank.** As part of the measures to implement the decisions of the Board of Directors to examine various alternatives to continuing to operate in Switzerland, the Bank has engaged the services of a consulting firm that has approached various potential buyers with regard to selling the subsidiary's activity in Switzerland. At the end of July 2015, several non-binding, initial bids had been submitted. There is no certainty at this stage regarding completion of the process and it resulting in a transaction. Furthermore, at this stage, there is uncertainty whether in the framework of the transaction the whole operation would be sold, or parts thereof, and under what terms.

**Agreement between the Swiss Authorities and the U.S. Department of Justice.** For details see "Exposure to cross-border risks in respect of the activities of foreign resident customers" below and Note 8 b 7 to the condensed financial statements.

## LEGISLATIVE RESTRICTIONS, REGULATIONS AND SPECIAL CONSTRAINTS APPLICABLE TO THE OPERATIONS

**Exposure restriction with regard to overseas extensions.** As of June 30, 2015 the calculated rate of the Bank's exposure with respect to overseas offices was 18.53% of the total risk assets, as compared with 17.53% on December 31, 2014. The said exposure rate complies with the exposure limitations set by the Board of Directors, within the framework of the risk appetite declaration of the Discount Group. The Bank reviews developments in the calculated rate of exposure regarding its activity at the overseas extensions.

**IDB New York - Risk Based and Leverage Capital Ratios.** Beginning on January 1, 2015, IDB New York became subject to new Basle III capital rules based on the final rules published by the FRB in July 2013 (the "Basel III Capital Rules"). The new rules establish a new comprehensive capital framework for U.S. banking organizations.

The rules apply to all depository institutions and banks holding companies with total consolidated assets of \$500 million or more. Among other things, the new rules establish a new common equity tier 1 ("CET1") minimum capital requirement and a higher minimum tier 1 capital requirement, and assign higher risk weightings (150%) to exposures that are more than 90 days past due or are on nonaccrual status and certain commercial real estate facilities that finance the acquisition, development or construction of real estate. The rules also limit dividend distributions by certain banking organizations as well as discretionary bonus payments if the banking organization does not hold a "capital conservation buffer", consisting of a specified amount of common equity tier 1 capital in addition to the amount necessary to meet its minimum risk-based capital requirements. The capital conservation buffer will come into effect only in 2016. The Basel III Capital Rules became effective on January 1, 2015, subject to a phase-in period. The minimum capital ratios as of January 1, 2015 are as follows:

- 4.5% CET1 to risk assets;
- 6.0% Tier 1 capital to risk assets;
- 8.0% Total capital to risk assets; and
- 4.0% Leverage ratio.

For further details regarding the "International Operations", see the 2014 Annual Report (pp. 124-127).

## EXPOSURE TO RISKS AND RISK MANAGEMENT

### RISK PROFILE OF THE DISCOUNT GROUP

For details regarding the risk profile of the Discount Group, see the 2014 Annual Report (pp. 127-131).

For details regarding Risk Management Principles and Tools, and Corporate Governance for risk management, see the 2014 Annual Report (pp. 131-137).

### BASEL AND THE REGULATORY CAPITAL REQUIREMENTS

#### DISCLOSURE IN ACCORDANCE WITH THE THIRD PILLAR OF BASEL

It should be noted, that a part of the data, the disclosure of which is required according to the third pillar of Basel, is presented in part "C" of the "Additional disclosure according to the third pillar of Basel" document. The document is available for perusal on the Bank's website together with the Bank's report for the second quarter of 2015 (this report), on the MAGNA site of the Israel Securities Authority, and on the MAYA site of the Tel Aviv Stock Exchange Ltd. (hereinafter: "the Internet document in the matter of Basel"). The data presented in part "C" of the document is presented herewith and hereunder by way of reference. Furthermore, the Annex to the Report of the Board of Directors, comprising an integral part thereof (Part "B"), includes a table relating the disclosure requirements according to the third Pillar to the data presented in the Report.

For details regarding Basel III, see the 2014 Annual Report (pp. 140-142).

### REGULATORY FRAMEWORK FOR RISK MANAGEMENT

#### DRAFTS AND INSTRUCTIONS PUBLISHED DURING THE FIRST SIX MONTHS OF 2015

**Publication of Directives and Amendments to Directives following the recommendations of the committee for examining procedures for performing debt restructurings in Israel**, including Amendment of the Directive in the matter of "Credit risk management" (311); Amendment of the Directive in the matter of "restrictions on the financing of capital transactions" (323); determination of a Directive in the matter of "Management of leveraged loans" (327); determination of a Reporting to the Supervision Department Directive in the matter of "Report of Troubled debt restructurings" (811) – see below.

**Instructions with respect to the "liquidity coverage ratio" and the "leverage ratio"** – see below.

**Amendment of Banking Business Directive No. 308 in the matter of compliance** – see below.

**Publication of Proper Conduct of Banking Business Directive No. 361 in the matter of cyber protection management** – see below "Information technology risk management".

**Publication of an instruction regarding risk management in the cloud computing environment** – see below "Information technology risk management".

**Draft amendment of Proper Conduct of Banking Business Directives Nos. 203 and 204 in the matter of allocation of capital in respect of a central counterparty** – see below.

For details regarding the amendment of Proper Conduct of Banking Business Directive No. 313 in the matter of "Limitations on the Indebtedness of a Borrower and a Group of Borrowers", see above under "Corporate banking segment"

## CREDIT RISK MANAGEMENT

Credit risk is the risk of losses being sustained as a result of the inability of a borrower or counterparty to honor their obligations, in whole or in part. For general details and for qualitative disclosure regarding credit risk management, see the 2014 Annual Report (pp. 142-149).

### CREDIT RISK MITIGATION

For details regarding qualitative disclosure regarding credit risk mitigation, see the 2014 Annual Report (pp. 149-150).

A quantitative disclosure in this matter is presented in the Internet document regarding Basel (as defined above), in part "C", item 4, the information included therein is presented herewith by way of reference.

### ADDITIONAL DISCLOSURES

#### QUANTITATIVE DISCLOSURE REGARDING CREDIT RISK

##### Segmentation of credit risk exposure according to main credit exposure types – gross credit risk exposure

	June 30, 2015	Average for the period <sup>(1)</sup>	June 30, 2014	Average for the period <sup>(1)</sup>	December 31, 2014	Average for the period <sup>(1)</sup>
in NIS millions						
Credit	155,306	158,164	149,214	150,517	161,935	152,877
Bonds	35,074	33,955	32,743	35,930	31,741	33,263
Others <sup>(2)</sup>	8,755	8,897	<sup>(5)</sup> 9,260	<sup>(5)</sup> 8,592	<sup>(5)</sup> 8,632	<sup>(5)</sup> 8,835
Guarantees and other liabilities on account of clients <sup>(3)</sup>	66,765	64,305	59,086	58,319	63,076	59,820
Transactions in derivative financial instruments <sup>(4)</sup>	2,141	2,852	2,055	2,017	3,018	2,412
<b>Total</b>	<b>268,041</b>	<b>268,173</b>	<b>252,358</b>	<b>255,375</b>	<b>268,402</b>	<b>257,207</b>

Footnotes:

- (1) The average is computed on a quarterly basis.
- (2) Primarily: cash, shares, fixed assets.
- (3) Off balance sheet credit risk is stated prior to conversion to credit equivalent (before multiplication by the CCF coefficient).
- (4) Credit risk in respect of transactions in derivative financial instruments is presented in terms of credit equivalent (after netting effect and after multiplication by the "add-on" coefficient).
- (5) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of capitalization of software development costs, see Note 1 E (2) to the condensed financial statements.

A quantitative disclosure in this matter is presented in the Internet document regarding Basel (as defined above), in part "C", items 1-3, and the information included therein is presented herewith by way of reference.

## GENERAL DISCLOSURE REGARDING EXPOSURE RELATED TO CREDIT RISK OF A COUNTERPARTY

Counterparty credit risk is the risk that the counterparty to the transaction will be in default before the final settlement of the cash flows in respect of the transaction. For further details see the 2014 Annual Report (pp. 151-153). A quantitative disclosure in this matter is presented in the Internet document regarding Basel (as defined above), in part "C", item 5, and the information included therein is presented herewith by way of reference.

**Draft amendment of Proper Conduct of Banking Business Directives Nos. 203 and 204 in the matter of allocation of capital in respect of a central counterparty.** The draft was published on May 19, 2015, with the intension to match the measurement rules of banking corporations in this respect to the standards determined by the Basel Committee in the document published by it in July 2012. The draft includes a detailed framework with respect to capital requirements regarding exposure of banking corporations to central counterparties, which differentiates between an unqualified central counterparty and a qualified central counterparty, in respect of which reduced capital requirements were set.

According to the proposed rules, banking corporations would be required to average out their credit exposure in respect of qualified central counterparties, at the rate of 2% (in contrast to the present zero exposure value). Exposure of banking corporations to other central counterparties would be averaged out in accordance with the category of the counterparty.

According to the draft, it would become effective on January 1, 2016.

## ACTIVITY IN DERIVATIVE FINANCIAL INSTRUMENTS

The Bank's activity in derivative financial instruments involves special risk factors including credit risks. The uniqueness of the credit risk in such transactions stems from the fact that the stated amount of the transaction does not necessarily reflect its entailed credit risk. For further details see the 2014 Annual Report (p. 153).

Note 9 to the condensed financial statements presents details of operations in derivative instruments - scope, credit risk and maturities. Part B of the aforementioned Note presents details of credit risk with respect to derivatives by counter party, on a consolidated basis. The Annex to the Report of the Board of Directors, forming an integral part thereof (Part C, Item 1), contains further details of the data presented in the said Part B of the Note.

## SECURITIZATION EXPOSURE

IDB New York invests in several types of securitized securities, in marketable mortgage backed securities (CMBS), in securities of the "Trust Preferred CDO" type and residential mortgage backed securities (RMBS). For additional details, see the 2014 Annual Report (p. 153), Note 2 to the condensed financial statements and "Investment in asset backed securities" under "Developments of assets and liabilities" above. A quantitative disclosure in this matter is presented in the Internet document regarding Basel (as defined above), in part "C", item 6, and the information included therein is presented herewith by way of reference.

## CREDIT EXPOSURE TO FOREIGN FINANCIAL INSTITUTIONS

**General.** Foreign financial institutions include: banks, investment banks, brokers/dealers, insurance companies, institutional entities and entities controlled by the said entities. As opposed to the definition of the "financial services" economic sector for the purpose of disclosure in the Management Review concerning the "Overall credit risk according to economic sectors", the exposure in respect of foreign financial institutions presented in the table hereunder includes exposure to foreign banks and to foreign investment banks, which, on the one hand, are not included in credit to the public, and on the other hand, does not include exposure in respect of investment in asset backed securities and in respect of potential off-balance sheet exposure.

**Developments in world markets.** The economic recovery in the Eurozone continues and covers most member countries. The purchase manager indices indicate expansion of the economies concurrently with improvement in the consumer confidence indices. Concurrently, a moderate increase to an annual rate of 0.2% took place in the inflationary environment.

The crisis between Greece and the heads of the Eurozone intensified during the quarter, on the background of difficulties in the negotiations regarding the third bailout plan. As a result thereof, banks in Greece closed down and restrictions were declared of the withdrawal of funds. In the course of July, Greece reached an agreement with the Eurozone regarding the third bailout plan in an amount of €85 billion, subject to structural reforms and budget cuts being applied.

The recovery in the Eurozone economies and the decline in deflationary concerns brought about a steep increase in long-term returns on German government bonds, which was moderated by the crisis in Greece. Furthermore, in view of the crisis the spreads on government bonds of peripheral countries have increased, over and above those of German government bonds, though at lower rates as compared with earlier crisis.

The Bank maintains a careful credit policy and is monitoring developments and volume of exposure to key markets and to markets of the countries at risk. This is performed on an ongoing basis and at the Group level, within the framework of an inter-division forum. The Bank's dealing room monitors these markets in order to obtain a comprehensive picture and to react in real time to currency risks in accordance with the risk profile of each customer and the approved credit facilities.

For details regarding the manner of managing credit risk applying to foreign financial institutions, see the 2014 Annual Report (pp. 154-155).

**Credit exposure to foreign financial institutions.** The Bank's exposure to foreign financial institutions comprises mostly of exposure to banks and investment banks. As seen from the data presented hereunder, about 90% of the exposure as of June 30, 2015, is to financial institutions rated "A-" rating or higher.

The states in respect of which the Bank has exposure as stated above as of June 30, 2015, include, inter-alia, the United States, Great Britain, Germany and France.

No losses in respect of impairment of securities have been included in respect of the exposure to financial institutions in the reported period.

In 2014, an amount of NIS 105 million was included as loss on the sale of securities and a provision for a loss with respect to the impairment of securities of foreign financial institutions. The loss and provision are with respect to TRUPS bonds, and result from their sale, as part of its preparations for the implementation of the Basel III instructions in the United States, as from January 1, 2015 (see Note 3 m to the financial statements as of December 31, 2014, p. 394).

**Following are details of present credit exposure to foreign financial institutions<sup>(1)</sup>, on a consolidated basis:**

	Balance sheet credit risk <sup>(2)(4)(5)</sup>	Present off balance sheet credit risk <sup>(3)(4)</sup>	Present credit exposure <sup>(4)</sup>
In NIS millions			
As at June 30, 2015			
Present credit exposure to foreign financial institutions <sup>(6)</sup>			
External credit rating <sup>(7)</sup>			
AAA to AA-	4,444	555	4,999
A+ to A-	4,485	137	4,622
BBB+ to BBB-	748	11	759
BB+ to B-	85	2	87
Not rated <sup>(8)</sup>	101	90	191
<b>Total present credit exposure to foreign financial institutions</b>	<b>9,863</b>	<b>795</b>	<b>10,658</b>
Of which credit exposure to foreign financial institutions:			
In the United Kingdom	2,838	31	2,869
Balance of problematic bonds	176	-	176
As at December 31, 2014			
Present credit exposure to foreign financial institutions <sup>(6)</sup>			
External credit rating <sup>(7)</sup>			
AAA to AA-	2,433	518	2,951
A+ to A-	5,511	182	5,693
BBB+ to BBB-	1,316	22	1,338
BB+ to B-	193	2	195
Not rated <sup>(8)</sup>	126	108	234
<b>Total present credit exposure to foreign financial institutions</b>	<b>9,579</b>	<b>832</b>	<b>10,411</b>
Of which credit exposure to foreign financial institutions:			
In the United Kingdom	2,536	22	2,558
Balance of problematic bonds	122	-	122

Notes:

- (1) Foreign financial institutions include: banks, investment banks, brokers/dealers, insurance companies, institutional entities and entities controlled by the said entities.
- (2) Deposits with banks, credit to the public, investment in bonds, securities borrowed or purchased under resale agreements and other assets in respect of derivative instruments.
- (3) Mainly guarantees, including guarantees securing third party indebtedness.
- (4) Credit exposures and problematic credit risk are presented before the effect of allowance for credit losses and before deductions as defined in Section 5 of Proper Conduct of Banking Business Directive No. 313.
- (5) For further information regarding the composition of the credit exposure reflected in the table showing derivative instruments in relation to banks/dealers/brokers, see Note 9 to the condensed financial statements.
- (6) Credit exposure does not include exposure to financial institutions that have explicit and full government guarantees, and does not include investment in assets backed securities (for additional details regarding assets backed securities, see Note 2 to the condensed financial statements).
- (7) According to Moody's rating, and in its absence, the Fitch rating or S&P.
- (8) Most of the off-balance sheet credit risk which has no rating is in respect of guarantees by private Swiss banks and Swiss banks owned by banks in Western Europe that are rated A1 and above.

In addition to the exposure presented in the above table, as of June 30, 2015 and December 31, 2014 a potential off-balance sheet exposure exists in respect of derivative instruments of foreign banks (as defined in Section (4)(a) to the definition of indebtedness in Proper Conduct of Banking Business Directive No. 313 regarding "Restrictions in indebtedness of a single borrower and of a group of borrowers", namely, variable percentage of the outstanding balance of a future transaction) in the amount of NIS 64 million and NIS 160 million respectively.

## CREDIT RISK IN HOUSING LOANS

**General.** The activity of granting housing loans by the Group, is mostly done by the Bank and by Mercantile Discount Bank (hereinafter named together as "the Group").

**Developments in the field of housing loans.** A growth was recorded in recent years in the demand and in the volume housing loans granted. This stemmed from increasing demand in the housing market and from rising prices resulting from the shortage in the supply in residential units in relation to the said demands and the negative real term interest. For details regarding measures taken by the Group, in order to tighten the control over credit in this area, see the 2014 Annual Report (p. 157).

The volume of the Group's housing loan portfolio as of June 30, 2015, amounted to NIS 21,086 million (December 31, 2014 - NIS 20,729 million).

**Following are data regarding certain risk characteristics of the Group's housing loans portfolio:**

	June 30, 2015	December 31, 2014
	%	%
Rate of housing loans financing over 75% of the value of the property	6.9	7.9
Rate of housing loans, the monthly repayment amount of each exceeds 35% of the income of the borrower	15.9	18.1
Rate of housing loans carrying variable interest rate of the total amount of the housing loan portfolio <sup>(1)</sup>	63.0	64.8

Footnote:

(1) Loans in which the interest rate change frequency exceeds five years were also included in computing the ratio.

## ADDITIONAL DISCLOSURE REGARDING CREDIT RISK IN RESPECT OF SIGNIFICANT EXPOSURE TO BORROWER GROUPS

The banking corporations are required to include in their reports, information regarding the existing credit risk at the reporting date with respect to groups of borrowers, the net indebtedness of whom, on a consolidated basis, after the permitted deductions according to Section 5 of Proper Conduct of Banking Business Directive No. 313, exceeds 15% of the equity of the banking corporation, as defined in the aforesaid Directive.

As of June 30, 2015, the Bank has no borrower group the indebtedness of which reaches the said level.

The Bank maintains a continuous monitoring process over the large borrowers groups, performs periodic reviews assessing the risk attributed to each group. The Bank complies with all regulatory restrictions relating to credit concentration aspects.

For details regarding the amendment to Proper Conduct of Banking Business Directive No. 313, with effect from January 1, 2016, see "Corporate banking Segment" above.

## CREDIT RISK IN RESPECT OF LEVERAGED FINANCE

**Definition of leveraged finance.** Leveraged finance is defined as credit granted to borrowers typified by a high leverage finance level which significantly exceeds accepted norms in this sector of operations.

**Credit risk in respect of leveraged finance.** The Bank has set a limitation on the scope of exposure to leveraged finance. In addition, developments in leveraged finance and compliance with the determined limitations are reported once in each quarter to the Bank's Management and the Board of Directors, this, in order to monitor the risks inherent in such financing.

For additional details regarding credit risks in respect of leveraged finance, see the 2014 Annual Report (p. 158). For additional details in respect of this matter, see Annex to the Report of the Board of Directors, comprising an integral part thereof (Part "C", item 2).

## THE COMMITTEE FOR THE EXAMINATION OF PROCEDURES FOR THE FORMATION OF DEBT ARRANGEMENTS IN ISRAEL ("THE ANDORN COMMITTEE")

The Supervisor of Banks published on April 28, 2015, instructions and amendments to instructions designed to implement the recommendations of the Andorn Committee with respect to credit risk management procedures, as detailed below:

**Amendment of Proper Conduct of Banking Business Directive No. 311 in the matter of "credit risk management".** The Amendment requires the establishment by banking corporations of internal limitations on leveraged loans and on credit to borrowers having a level of leverage higher than accepted in the market, as well as guidelines for the amendment of the credit policy regarding syndication transactions, the frequency of reviewing leveraged loans and the establishment in procedures of the manner in which a waiver of a debt is made.

**Amendment of Proper Conduct of Banking Business Directive No. 323 in the matter of "limitations on the financing of capital transactions".** The Amendment deals with limitations on capital transactions. The Directive was applied to any transaction involving the purchase of a capital right in another corporation, "treasury stock" transactions and capital distributions.

**Proper Conduct of Banking Business Directive No. 327 in the matter of "management of leveraged loans" (a new Directive).** The Directive deals with the management of leveraged loan risks. The Directives defines the management of credit risk relating to leveraged loans, when is a loan considered a leveraged loan, underwriting procedures, periodic discussion by the board of directors, classification of leveraged loans, credit analysis, credit control and stress tests regarding everything related to leveraged loans.

Amendments to Directives Nos. 311 and 323 and Directive No. 327 shall apply to loans granted as from January 1, 2016.

**Reporting to the Supervisor of Banks instruction No. 811 in the matter of "reporting the restructuring of a troubled debt" (new instruction).** Starting with the third quarter of 2015, banking corporations are required to report to the Supervisor of Banks any process involving the restructuring of a loan, the principal amount of which exceeds NIS 20 million.

The Bank is preparing for the implementation of the said instructions.

## MANAGEMENT OF MARKET RISKS

Market risk is the risk of impairment of the equity and profitability stemming from changes in financial markets which have an effect on the Group's assets or liabilities: interest rates, foreign exchange rates, inflation, prices of securities, product prices, the fluctuations in these parameters and in other economic indices.

The policy document regarding the management of market risks has been updated, with approved changes both in work procedures and principal restrictions. The changes took effect since May 2015 and thereafter.

For general details, see the 2014 Annual Report (pp. 159-161).

## QUANTITATIVE DISCLOSURE

### (1) BASE RISK EXPOSURE

The exposure to base risk is reflected in the loss which may incur as a result of changes in exchange rates or in the consumer price index, due to the difference between the value of assets and liabilities, including the effect of forward transactions and the effect of options embedded.

For details regarding base exposure, see the 2014 Annual Report (pp. 161-162).

Following is the distribution of the Bank's capital between the various linkage segments, compared with the restrictions (the data is presented in relation to capital):

Segment	Second quarter 2015					2014			
	Limitation	Range of exposure				Year end	Year end		
		Period end	from	to	average		from	to	average
CPI linked*	50%-(25%)	8.4%	5.7%	25.3%	16.1%	25.6%	6.8%	27.0%	18.3%
Foreign currency	15%-40%	28.7%	28.3%	29.9%	29.1%	25.6%	23.7%	29.8%	26.3%

Footnote:

\* The limits were changed to 20%-(40%) towards the end of the quarter for CPI linked.

**Capital sensitivity to changes in exchange rate.** The capital's sensitivity to changes in exchange rate is presented in the following table, which provides details regarding the impact of changes in exchange rates of the major currencies on the Bank's equity as of June 30, 2015.

Segment	The Bank's capital sensitivity of changes in exchange rates			
	in NIS millions			
	10%	5%	-5%	-10%
USD	215	106	(105)	(207)
EUR	(5)	(3)	1	1
Other Foreign Currencies	(7)	(3)	3	4

## (2) INTEREST RISK EXPOSURE

### A. General

Interest risk is the risk of impairment of the Bank's capital and earnings as a result of changes in market interest rates. The risk derives from the exposure to future changes in interest rates and their possible effect on the present value of assets and liabilities including certain economic amendments. For further details, see the 2014 Annual Report (pp. 162-166).

The data presented in item "B" hereunder, was computed on the basis of fair value, as required by the public reporting directives of the Supervisor of Banks and in accordance with the computation of Schedule "B" to the Management Review, hereunder.

The data presented in item "C" hereunder is used in the current management of exposure to interest rates applies to all of the Bank's operations, and takes into consideration additional data that represent the Bank's economic approach to the management of exposure of the economic value of the Bank's equity to changes in interest rates.

### B. Sensitivity analysis to the effect of changes in interest rate based on the fair value of financial instruments

**Fair value of financial instruments.** For details regarding the fair value of financial instruments, see the 2014 Annual Report (pp. 163-165). For details regarding the main methods and assumptions used in assessing the fair value of financial instruments, see Note 21 to the financial statements as of December 31, 2014 (pp. 486-488).

Following are certain updates as of June 30, 2015:

- The fair value of impaired debts - increasing the discount interest rate by 1 basis point would have reduced the fair value of the impaired debts by NIS 26 million. Increasing the discount interest rate by 0.1 basis point would have reduced the fair value of the impaired debts by NIS 1 million (compared to NIS 20 million and NIS 1 million, respectively, as of December 31, 2014);
- Cash flows in respect of mortgages have been evaluated on the basis of an early repayment forecast based on a statistical model. Discounting the said cash flows in accordance with expected repayment dates instead of the contractual repayment dates, reduced

the fair value of the mortgages, particularly in the CPI linked segment, by NIS 101 million (compared to NIS 158 million as at December 31, 2014);

- The average period to maturity of assets in the CPI-linked segment, based on the original cash flow, which does not take into consideration early redemptions, reached 3.64 years on June 30, 2015, compared to 3.21 years, taking into consideration the forecast for early redemptions (compared to 3.67 years and 3.26 years, respectively, as of December 31, 2014);
- Cash flows in respect of deposits were evaluated on the basis of an early withdrawal forecast based on a statistical model. Discounting the said cash flows in accordance with expected withdrawal dates instead of the contractual withdrawal dates, decreased the fair value of the deposits, particularly savings deposits in the CPI linked segment, by NIS 74 million (compared to NIS 52 million at December 31, 2014);
- The average period to maturity of liabilities in the CPI-linked segment, based on the original cash flow, which does not take into consideration early redemptions, reached 3.48 years on June 30, 2015, compared to 3.27 years, taking into consideration the forecast for early redemption (compared to 3.45 years and 3.24 years, respectively, as of December 31, 2014).

**Hybrid financial instruments.** For details regarding hybrid financial instruments, see the 2014 Annual Report (p. 163). As of June 30, 2015, the effect of treatment of the option and of the host instrument as two separate instruments was not material.

**Following are details regarding fair value of the Bank and its subsidiaries' financial instruments, excluding non-monetary items (before the effect of hypothetical changes in interest rate):**

	Israeli currency		Foreign currency <sup>(2)</sup>			Total
	Non linked	CPI linked	US dollar	Euro	Other	
In NIS millions						
June 30, 2015						
Financial assets <sup>(1)</sup>	120,209	20,197	48,546	3,621	3,007	195,580
Amounts receivable in respect of derivative and off balance sheet financial instruments <sup>(3)</sup>	83,627	4,427	69,241	16,187	6,979	180,461
Financial liabilities <sup>(1)</sup>	(103,060)	(16,520)	(54,853)	(7,284)	(3,965)	(185,682)
Amounts payable in respect of derivative and off balance sheet financial instruments <sup>(3)</sup>	(96,680)	(5,530)	(60,114)	(12,588)	(6,098)	(181,010)
<b>Net fair value of financial instruments</b>	<b>4,096</b>	<b>2,574</b>	<b>2,820</b>	<b>(64)</b>	<b>(77)</b>	<b>9,349</b>
December 31, 2014

<b>Net fair value of financial instruments</b>	<b>2,405</b>	<b>3,090</b>	<b>2,824</b>	<b>4</b>	<b>(31)</b>	<b>8,292</b>

For footnotes, see next page.

**Following are details regarding the effect of hypothetical changes in interest rate on the fair value of financial instruments of the Bank and its subsidiaries, excluding non-monetary items:**

Change in interest rate	Net fair value of financial instruments, after the effect of changes in interest rate <sup>(4)</sup>						Change in fair value		
	Israeli currency		Foreign currency <sup>(2)</sup>			Offsetting effects	Total	Total	Total
	Non-linked	CPI linked	US dollar	Euro	Other				
	in NIS millions								in %
	June 30, 2015								
Immediate parallel increase of 1%	3,872	2,499	2,272	(63)	(78)	(5)	8,497	(852)	(9%)
Immediate parallel increase of 0.1%	4,077	2,564	2,762	(63)	(79)	-	9,261	(88)	(1%)
Immediate parallel decrease of 1%	4,486	2,676	3,166	(54)	(76)	(5)	10,193	844	9%
	December 31, 2014								
Immediate parallel increase of 1%	2,273	3,004	2,323	10	(29)	-	7,581	(711)	(9%)
Immediate parallel increase of 0.1%	2,389	3,078	2,772	5	(31)	-	8,213	(79)	(1%)
Immediate parallel decrease of 1%	2,694	3,177	3,070	5	(29)	-	8,917	625	8%

Footnotes:

- (1) Not including balances of balance sheet derivative financial instruments and fair value of off-balance sheet financial instruments.
- (2) Including Israeli currency linked to foreign currency.
- (3) Amounts receivable (payable) in respect of derivative financial instruments, discounted at interest rates used to compute the fair value presented in Note 10 to the condensed financial statements.
- (4) The net fair value of financial instruments presented in each linkage segment, is the net fair value in the segment, under the assumption that the change noted in all interest rates applying to the segment has in fact occurred. The total fair value of financial instruments is the net fair value of all financial instruments (excluding non-monetary items) under the assumption that the change noted in all interest rates applying to all segments has in fact occurred.

**C. Data used for the management of interest rate risk**

The data presented in item "B" above, was computed on the basis of fair value, as required by the public reporting directives of the Supervisor of Banks and in accordance with the computation of Schedule "B" to the Management Review, hereunder.

The current management of exposure to interest rates applies to all of the Bank's operations, and takes into consideration additional data that represent the economic approach to the management of exposure of the economic value of the Bank's equity to changes in interest rates (for additional details, see 2014 Annual Report, p. 165).

**Following are details of the effect of hypothetical changes in interest rates of 100 basis points on the Group's economic value:**

The change in interest rates	Non-linked	CPI linked	US dollar	Other foreign currency	Total
	In NIS millions				
	June 30, 2015				
An increase of 100BP in interest rates	(83)	87	(172)	(2)	(170)
A decrease of 100BP in interest rates	153	(98)	8	1	64
	December 31, 2014				
An increase of 100BP in interest rates	51	(13)	23	-	61
A decrease of 100BP in interest rates	28	4	(317)	(2)	(287)

The limitations determined by the Board for interest risk exposure in the various linkage segments are expressed in terms of maximum damage to economic capital resulting from concurrent movements in the yield curve of 1% in each segment. The group restriction on the total impact in the scenario of falling interest rates is 5% of the capital, and in the scenario of rising interest rates is 6% of the capital. This, in addition to the limits determined by the Bank and banking subsidiaries on this risk assessor. In the second quarter of 2015, the Bank and the Group complied with the determined exposure limits.

In addition to the scenario of a parallel shift in the interest graphs, the effect of non-parallel changes in the various interest graphs is also being examined. No deviation was recorded in the second quarter of 2015 from these limitations.

#### D. The characteristics of interest rate risk in the banking book

For details regarding the risks inherent in the banking book, see the 2014 Annual Report (p. 166).

**Following is the effect of a hypothetical change of 100 basis points in the interest rate applying to the banking book:**

The change in interest rates	Non-linked	CPI linked	US dollar	Other foreign currency	Total
In NIS millions					
June 30, 2015					
An increase of 100BP in interest rates	(86)	118	(168)	(3)	(138)
A decrease of 100BP in interest rates	157	(133)	11	-	35
December 31, 2014					
An increase of 100BP in interest rates	49	21	26	16	112
A decrease of 100BP in interest rates	18	(31)	(318)	(14)	(345)

Significant changes occurred in the first half of 2015, in exposure to interest risk in the banking book, due to the inclusion of additional exposures (mostly with respect to employee rights exposed to CPI linkage), as well as changes in conduct models of the subsidiary IDB New York – the spreading of deposits with no due date (which had a significant impact, in particular as regards exposure to the dollar interest rate).

### (3) THE VALUE AT RISK (VAR)

For details regarding the VaR model, see the 2014 Annual Report (p. 167).

The Board of Directors determined a limitation according to which the VaR of the Group (at a parametric method, for a range of ten days and at a confidence level of 99%) should not exceed 3.5% of the equity. No deviations from this limitation were recorded in the second quarter of 2015. The Board of Directors has recently determined restrictions also on the trading operation VaR assessment and no deviations there from were recorded.

As from the middle of 2014, the Bank has begun computing also the trading operation VaR assessment.

### (4) LOSS ANALYSIS IN STRESS SCENARIOS (STRESS TESTS)

The analysis of stress tests regarding market risks is based on macro-economic stress tests determined by the Bank as well as scenarios defined by the Supervisor of Banks. With respect to such scenarios, the Board of Directors has determined a number of restrictions on the erosion of value.

In the second quarter of 2015 no deviations from these limitations were recorded.

For further details, see the 2014 Annual Report (p. 167).

## (5) THE STANDARD APPROACH TO THE ALLOCATION OF CAPITAL TO MARKET RISKS

The Bank computes the capital allocation required in respect of the exposure to market risks in accordance with the standard approach, as prescribed by Proper Conduct of Banking Business Directive No. 208. For further details, see the 2014 Annual Report (p. 167).

Following are details of capital allocation to market risks according to the standard approach, in NIS millions:

	Capital allocation as of	
	June 30, 2015	December 31, 2014
<b>The Bank:</b>		
Interest rate risk*	275	280
Foreign exchange rate risk	37	35
Share risk	2	3
Option risk	21	11
<b>Total for the Banking Group</b>	<b>335</b>	<b>329</b>
Allocation in risk asset terms	2,677	2,629

\* Including the specific risk in the amount of NIS 12.8 million and NIS 8.1 million in Second Quarter 2015 and Year 2014, respectively.

## (6) OPTION RISKS

Option risks relate to the loss that might be incurred as a result of changes in base assets and the volatility thereof, which affect the value of such options, including standard deviations. The Bank is active in a variety of types of options– regular options and "exotic" options of certain types as well as on a variety of base assets (foreign currency and interest rates).

The Bank's Board of Directors has set out guidelines regarding the permitted activity in options both as regards overall volume and in terms of the maximum impairment in value under stress tests and in cases of moderate scenarios. The scenarios relate to simultaneous changes in underlying assets (exchange rates, CPI and interest rates) and in the fluctuations in these underlying assets. The boards of directors of the principal banking subsidiaries have also set limitations on the activity in options. No deviations were recorded in the second quarter of 2015 from the limitations set by the Board of Directors.

## (7) ACTIVITY IN DERIVATIVE FINANCIAL INSTRUMENTS

The Bank's Board of Directors has determined the mode of operation in derivative financial instruments, maximum volume of activity and the range of financial instruments in which the Bank may engage (whether on behalf of its customers or of its own account).

The exposure created by this operation, both in respect to linkage base and to interest, is included in the framework of limitations set by the Board of Directors with respect to exposure to linkage base, the interest and the options. In addition, limitations have been set on the nominal volume and for instruments of certain types also a limitation on the number of open transactions at any given moment. No deviations from the said limitations were recorded in the second quarter of 2015.

Following are data as to the volume of operation in derivative financial instruments (par value) of the Bank and its consolidated subsidiaries, in NIS millions:

	June 30, 2015	December 31, 2014
Hedging derivatives	1,986	2,129
ALM derivatives	191,454	191,612
Other derivatives	22,809	29,942
SPOT foreign currency swap contracts	3,391	2,942
<b>Total</b>	<b>219,640</b>	<b>226,625</b>

For further details regarding management and measurement of market risks, see the 2014 Annual Report (pp. 159-170).

## MANAGEMENT OF THE LIQUIDITY RISK

A liquidity risk is the risk of the Bank finding it difficult to meet its liabilities due to unforeseen developments, and being forced to raise funds in a way that would cause it a material loss. Whereas this is a situation of uncertainty in which a liquidity risk always exists, the Bank has determined maximum exposure limitations as regards the liquidity risk. In addition, the regulatory coverage ratio is being examined and managed on a current basis, as required by Proper Conduct of Banking Business Directive No. 221.

No deviation from the said restrictions was recorded in the second quarter of 2015.

For further details regarding the management of the liquidity risk, see the 2014 Annual Report (pp. 171-172). For additional details see "Liquidity and the raising of resources in the Bank".

## INSTRUCTIONS WITH RESPECT TO THE "LIQUIDITY COVERAGE RATIO" AND THE "LEVERAGE RATIO"

### PROPER CONDUCT OF BANKING BUSINESS DIRECTIVE NO. 221 IN THE MATTER OF "LIQUIDITY COVERAGE RATIO"

On October 2, 2014, the Supervisor of Banks published a new Proper Conduct of Banking Business Directive No. 221 in the matter of "liquidity coverage ratio" ("LCR"), which implements the principles prescribed by the Basel Committee.

The Directive took effect on April 1, 2015, but the minimum requirement amounts to 60%, rising to 80% on January 1, 2016 and to 100% on January 1, 2017.

The Bank's liquidity coverage ratio amounts to 164.6%, and the Group's amounts to 140.4%, higher than the minimum requirements according to the new instructions.

It is noted, that the instruction in question is a complex one, which as regards no few issues required interpretations as to the intention of the instruction and the implementation derived there from. In arriving at these interpretations, the Bank has adopted a guarded approach, to the extent possible. Notwithstanding this, it is possible that in continuation, in view of the experience gained, or in view of clarifications issued by the Supervisor of Banks, it would be required to change the adopted treatment.

For additional details regarding the instruction, see the 2014 Annual Report (p. 172).

### PROVISIONAL INSTRUCTION IN THE MATTER OF "IMPLEMENTATION OF THE REQUIREMENTS ACCORDING TO THE THIRD PILLAR OF BASEL- DISCLOSURE REGARDING THE LIQUIDITY COVERAGE RATIO"

In continuation of the publication of the instruction regarding: "liquidity coverage ratio" (see above), the Supervisor of Banks published on October 2, 2014, a provisional instruction enlarging the disclosure requirements stated in the third pillar, and which include new disclosure requirements as to the "liquidity coverage ratio".

The provisional instruction became effective on April 1, 2015.

For additional details regarding the instruction, see the 2014 Annual Report (pp. 172-173).

In view of the agreement for the sale of the DBLA operations, the Supervisor of Banks granted the Bank a relief, whereby the data for DBLA shall be excluded from the consolidated reporting to the public. Instead the report to the public shall include other quantitative and qualitative information used by DBLA in order to measure the liquidity coverage.

As of June 30, 2015, DBLA's liquidity coverage ratio stood at 558%. DBLA consistently has significantly higher liquidity ratios than most of the Group companies due to its unique balance sheet structure, as presented below:

	As of June 30, 2015
	% of balance sheet
<b>Assets</b>	
Cash and cash equivalents	40
Securities portfolio	44
Loans	15
<b>Liabilities</b>	
Deposits	93

For additional details, see Note 5 to the condensed financial statements. Furthermore, see Table No. 16 "Liquidity coverage ratio", in the Internet document regarding Basel.

### DETERMINATION OF A "LEVERAGE RATIO"

The Basel Committee issued on January 14, 2014, guidelines determining the "leverage ratio", including reference to a future process for the monitoring of the results received in respect of this ratio, until binding restrictions are determined. Following the said publication of the Basel Committee guidelines, the Supervisor of Bank has begun preparations for the implementation of the said ratio in the banking industry in Israel.

The Supervisor of Banks issued on May 3, 2015, a new Proper Conduct of Banking Business Directive No.218, in the matter of "leverage ratio", intended to adopt the Basel III recommendations regarding the leverage ratio, determined in January 2014. The Directive was formed, among other things, following a quantitative impact Study assessing the impact on the banking industry in Israel. The Directive establishes a minimum leverage ratio for banking corporations, of not less than 5% on a consolidated basis (6% in the case of a banking corporation, the total consolidated balance sheet assets of which comprise 20% or more of the total balance sheet assets of the banking industry as a whole).

The leverage ratio, is defined in the Directive as the "capital measure" (tier 1 capital as defined in Proper Conduct of Banking Business Directive No. 202, subject to determined transitional provisions) divided by the "exposure measure" (total amount of balance sheet exposure, exposure to derivatives and to securities financing transactions and off-balance sheet items).

The Directive takes effect on January 1, 2018. Notwithstanding the above, a banking corporation, which on date of publication of the Directive matched the minimum leverage ratio, shall not fall below the minimum determined by the Directive, while a banking corporation that did not match the ratio, as stated, would be required to increase the ratio by fixed quarterly installments until the effective date of the Directive.

Concurrently, an amendment of the Reporting to the Public Directives was published on the same date, which regulates the disclosure aspect of the leverage ratio. According to this amendment, disclosure of the leverage ratio applies as from April 1, 2015 onwards, with no need for disclosure of comparative data initially required as a result of the implementation of the Directive.

For additional details, see the 2014 Annual Report (p. 173).

The leverage ratio as of June 30, 2015, computed according to the rules detailed in the instruction, was 6.6%, higher than the minimum leverage ratio required according to the new instructions. For additional details, see Note 5 to the condensed financial statements. Furthermore, see Table No. 17 "Comparison between Balance sheet assets and the measurement of exposure for the purpose of the leverage ratio" and Table No. 18 "Disclosure of the leverage ratio" in the Internet document regarding Basel.

## COMPLIANCE RISKS

**Audit report in the matter of money laundering prohibition.** The Bank has completed dealing with most of the findings of the audit report. The Bank is requested to prepare an audit report, by means of an independent outside factor, the object of which, among other things, is to verify the appropriateness of the rectification of deficiencies indicated by the audit report of the Bank of Israel and by additional audit reports relating to the Bank. The said audit report had been completed, discussed on April 28, 2015, by the Audit Committee of the Board of Directors and submitted to the Bank of Israel. For additional details, see the 2014 Annual Report (p.185).

**Amendment of Proper Conduct of Banking Business Directive No. 308 in the matter of "compliance and the compliance function at a banking corporation".** The amendment was published on June 3, 2015. The changes are based on the guidelines of the Basel Committee, relevant international source and instructions stemming from the risk management and corporate governance fields. Among the material changes are: extending the definition of compliance instructions to all regulatory instructions, which apply to a banking corporation, procedures and the code of ethics; emphasizing the responsibility of the board of directors for the supervision of compliance risk management and the responsibility of senior management to its effective management; establishment of the duty to carry out focused sample controls as well as controls subsequent to the rectification of deficiencies; decision that a chief compliance officer, not fulfilling any other duties at the banking corporation, would stand at the head of the compliance function.

The effective date of the amendment would be January 1, 2016.

For additional details regarding compliance risks, see the 2014 Annual Report (pp. 183-185).

## IT RISKS

**Directive regarding "cyber protection management".** On March 16, 2015, the Supervisor of Banks published Proper Conduct of Banking Business Directive No. 361 to take effect on September 1, 2015. For additional details, see the 2014 Annual Report (p.180; "Draft Proper Conduct of Banking Business Directive in the matter of management of cybernetic protection"). The Bank is preparing for the implementation of the instruction.

**Instruction in the matter of "risk management in the cloud computing environment".** On June 30, 2015, the Supervisor of Banks published a letter in the matter of "risk management in the cloud computing environment". The guidelines contained in the letter took effect upon its publication. For additional details, see the 2014 Annual Report (p.180).

For additional details regarding IT risks see the 2014 Annual Report (pp. 178-181).

For details regarding Operational risks, including preparations by the Bank for continued business operations, see the 2014 Annual Report (p. 179).

For details regarding environmental risks, see the 2014 Annual Report (p. 173-178).

For details regarding legal risks and regulation risks, see the 2014 Annual Report (pp. 181-183).

## EFFECT OF EXTERNAL FACTORS

### MAIN DEVELOPMENTS IN THE ISRAELI ECONOMY AND AROUND THE WORLD IN THE FIRST HALF OF 2015

#### DEVELOPMENTS IN THE GLOBAL ECONOMY

**General.** A recovery in the global economy was noted in the second quarter of 2015, mainly on the background of the recovery in the U.S., following a slow growth in the first quarter. Concurrently, stability was recorded in the developing countries (with a focus on China) and in the Eurozone economy.

The U.S. economy grew in the second quarter by the rate of 2.3%, a recovery following a slow growth at the rate of 0.6% in the first quarter. The accelerated growth in private consumption continues to drive the U.S. economy, following the improvement in the employment market, the moderate inflation and the rise in prices of property.

The growth rate in the Eurozone slowed down to 1.2% in the second quarter (compared with 1.6% in the first quarter of 2015). The economy in Germany grew at an annualized rate of 1.6% and in France at a rate of approx. 1%. Private consumption remained as a growth engine also in the second quarter and led to an acceleration in activity also in the peripheral countries headed by Spain.

Concurrently, the rate of unemployment dropped slightly to a level of 11.1% in June 2015. It is noted that during most of the period, economic and financial activity in the Eurozone was conducted in the shadow of the intensified crisis in Greece and concerns regarding its withdrawal from the Eurozone (with the fear of "contamination" of other peripheral countries). In July, Greece reached an agreement with its creditors regarding the outline of a new bailout plan, and as a result concerns for its withdrawal from the Eurozone have diminished.

Stability in the economic growth of the BRIC countries is noted in the second quarter, led by the stability (7%) in China. It is noted that the growth target in China for 2015 was lowered to 7% in view of the wish to balance the economy and reduce the dependency of economic growth on investments.

In the meanwhile, stability was recorded in the second quarter of the year in the global inflationary environment, which was supported by the rise in prices of oil. As a result thereof deflationary concerns have diminished. A low though positive rate of inflation was recorded in the U.S. and in the Eurozone. The slow economic recovery together with moderate inflation supported the continuing expansionary monetary policy in most developed economies around the world and in certain of the developing countries. In the U.S., uncertainty increased as to the starting date of the rise in the interest rate and its expected route. The Governor of the FED noted that the interest rate will rise during 2015, following an additional improvement in the employment market and the inflationary forecasts indicating a return to a level of 2% in the medium term. In the Eurozone, The ECB continues to apply the program for the purchase of government bonds and backed bonds to the tune of €60 billion per month. In China, the central bank reduced the interest rate by 0.25%, the third reduction in the present cycle, and in addition reduced the reserve ratio. Concurrently, the government intervened in the equities market with the aim of halting the steep decline in the prices of shares.

**Financial markets.** Trading in equities around the world was conducted in the reviewed period, mostly on the background of the high level of liquidity (due to the expansionary policy) and assumptions as to the date of beginning of the rise in interest rates in the U.S.. In addition, trading was impacted by the macro-economic data in the leading economies, the low level of oil prices, developments in the crisis in Greece and the decline in the share market in China.

**Following are the changes in selected share indices recorded during the first half of the years 2015 and 2014:**

Index	Change in the first half of	
	2015	2014
S&P 500	0.2%	6.0%
DAX	11.6%	2.9%
MSCI Emerging Markets	1.6%	4.8%

In the U.S., the uncertainty regarding the date of beginning of the rise in the interest rate and the expected route, led to fluctuations in returns on government bonds. In total for the first half the returns on bonds for ten years increased to a level of 2.4%. In the Eurozone, the quantitative expansionary plan had a significant impact on the markets, which was reflected in falling returns on German government bonds and in the narrowing of the spread of government bonds during the first quarter. However, improved data and the expectation for higher inflation, led to a steep increase in returns all along the second quarter.

**Following are the returns on government bonds:**

Return on bonds for 10 years	June 30, 2015	December 31, 2014
U.S.A.	2.4%	2.2%
Germany	0.76%	0.54%

The Euro continued to lose ground in the reviewed period as against most of the currencies around the world. This, in view of the start of the monetary expansion policy of the ECB and estimates that at least until 2016, a considerable interest gap will exist between the interest rate of the FED and that of the Eurozone.

**Following are the changes in the U.S. dollar against selected currencies:**

Exchange rate	Change in the first half of	
	2015	2014
EUR	7.8%	0.7%
JPY	2.0%	(3.7%)
GBP	(1.0%)	(3.0%)

The global commodities index, the GSCI, recorded in the first half an increase of 5%, mainly in view of the rise in energy prices. Considerable fluctuations were recorded during the reviewed period in the prices of energy, which increased by 10% in view of reports regarding the shutting down of oil wells due to non-rentability and the slowdown in the growth rate of oil production, mostly in the United States. On the other hand, prices of metals continued to decline in view of the slowdown in demand, and so did the prices of agricultural products due to estimates for impressive harvests also in the current year.

**Following are changes in selected commodities indexes:**

	Change in the first half of	
	2015	2014
The commodities index - GSCI	5.4%	4.1%
The oil price (BRENT)	10.9%	1.4%
The oil price (WTI)	11.0%	7.0%
Gold	(1.2%)	9.5%

## MAIN DEVELOPMENTS IN THE ISRAELI ECONOMY

### GENERAL

In the first half of the year, the product grew at an annualized rate of 2.6%, similarly to the first and second half of last year (2.4%-2.5%). However, while in the first quarter the growth rate was 2%, in the second quarter it slowed down to 0.3%. Moreover, while private consumption continued to demonstrate strength with a growth of 4.8% in the first half, investments in fixed assets shrunk by approx. 4% (excluding ships and airplanes) and the export of goods and services diminished by 6.4% (excluding diamonds and startup companies).

The unemployment rate in the second quarter continued to decline to a new low level of 5% (compared to 5.4% in the previous quarter and 6.1% in the corresponding quarter last year). Moreover, the rate of engaging new employees accelerated in the second quarter with an increase in the rate of participants.

### DEVELOPMENTS IN ECONOMIC SECTORS

Industrial production recorded a standstill in the period from January to May 2015<sup>1</sup>, compared with the monthly average in the second half of 2014. Notwithstanding, with the exclusion of the hi-tech industries, industrial production regressed by 2.4%. Turnover of the wholesale and retail trade rose in January-May of 2015 by 1.4%, compared with the monthly average in the second half of 2014. The said growth stemmed mostly from a rise of 1.6% in turnover of the wholesale trading.

### DEVELOPMENTS IN FOREIGN ACTIVITIES OF THE ISRAELI ECONOMY

The direct investments in Israel (through banks) by foreign residents during the first half of the year were at an amount of approx. US\$4.5 billion of which 3 billion was in the first quarter. The financial investments in the Tel Aviv Stock Exchange made by foreign residents amounted in the reviewed period to US\$350 million, compared to US\$1.1 billion in the first half of 2014. The said decline stemmed from the realization of government bonds and short-term loans (MAKAM) in the amount of US\$700 million, as compared with an investment of US\$700 million in the first half of 2014.

Financial investments abroad by Israeli residents amounted in the first half to US\$7.4 billion, of which, approx. US\$5 billion were invested in the first quarter of the year. Approx. 81% of the investments were directed to bonds and the balance to equities. It is noted that the weight of households in financial investments abroad was 45% in the reviewed period, similar to the weight of institutional investors.

#### Following are the changes recorded in investments of the Israeli economy abroad:

Investments in Israel by foreign residents (through banks)	2015	2014	Change
	US\$ million		
Total direct investments	4,502	5,016	(10.2%)
Total financial investments in the Tel-Aviv Stock Exchange	1,124	4,746	(76.3%)
Of which: Government bonds and MAKAM	(700)	703	
Shares	1,010	542	86.3%
Investments abroad by Israeli residents	2015	2014	Change
	US\$ million		
Total direct investments through banks	1,132	402	
Total financial investments (excluding banks)	7,389	6,327	16.8%

<sup>1</sup> The most updated data available at the time of submitting the report to print.

## DEVELOPMENTS IN INFLATION AND FOREIGN EXCHANGE RATES

During the first half the Shekel appreciated by 6.3% in terms of effective exchange rate (the exchange rate of the shekel as against the trading currencies array of Israel). Moreover, the Shekel appreciated by 3% against the U.S. dollar and by 10.7% against the Euro. The non-financial factors supporting the appreciation of the Shekel gained ground during the reviewed period, while the measures adopted by the Bank of Israel, such as the lowering of the interest rate to a level of 0.1% and the continuing purchases of U.S. dollars, had a temporary effect only.

The inflationary environment remained negative throughout the reviewed period at a level of -0.4% in the twelve months ended in June 2015. During the first half, the CPI fell by 0.2%, however the reduction relates to the first quarter while in the second quarter, the CPI rose by 1.1%

## FISCAL AND MONETARY POLICY

**Fiscal policy.** A budgetary deficit of NIS 3.4 billion was recorded in the first half of the year, compared to a budgetary deficit of NIS 4.7 billion recorded in the corresponding period last year. The cumulative deficit for the period of twelve months ended in June 2015 was 2.6% of the product. During the reviewed period, surplus revenues of NIS 3.6 billion was recorded (compared with the forecast), and total revenues recorded a nominal increase of 5.6% as compared with the corresponding period last year. It is noted that in the reviewed period, the Government was operating without an approved budgetary framework. The monthly Government spending was therefore limited to one-twelfth of the budget amount for 2014.

**Monetary policy.** The monetary policy of the Bank of Israel in the reviewed period continued to be very expansionary, with the interest rate for the month of March being lowered by 0.15% to a new low of 0.1%. The lowering of the interest rate was mostly the result of the appreciation of the shekel (from the beginning of the year and until date of the lowering), occurring as part of the "currency war" conducted around the world. During the second quarter of the year, no changes were made in the Bank of Israel's interest rate, however the Bank of Israel intensified its purchases of foreign currency in order to weaken the Shekel.

## CAPITAL MARKET

The reviewed period has mainly been typified by a rising trend in the leading share indices on the Tel Aviv Stock Exchange, this on the background of the low interest rate environment in Israel and an increase in the rate of deposits made with mutual funds.

**Following are the changes recorded in selected share indices during the first half of 2014 and 2015:**

Index	Change in the first half of	
	2015	2014
General share index	8.7%	7.6%
TA 25	12.3%	3.4%
TA 100	9.3%	3.5%
TA banks	15.6%	(3.6%)
Blutech 50	12.0%	(4.8%)
Real-estate 15	9.2%	3.9%

On the background of the said developments, the market value of equities and convertibles (excluding indices products) rose by 9% compared with the end of 2014.

Trading in government bonds in Israel was characterized by a mixed trend, with a decline of returns of up to 100 base points in the long-term returns in the first quarter and with a nearly identical rise during the second quarter. In total for the reviewed period, the return for ten years remained nearly unchanged at a level of 2.4%. The said trend was mostly affected by the difference in the monetary policies of the Bank of Israel compared with the U.S. FED and the considerable uncertainty as to the first rise in interest in the U.S..

Trading in corporate bonds stemmed to a large extent from the trading trend in government bonds and was affected by the trends in mutual funds (deposits and withdrawals of funds of the public). It is noted that in total for the reviewed period the spreads were reduced.

Index	Change in the first half of	
	2015	2014
General bonds	0.6%	3.7%
General Government bonds	0.4%	4.2%
Shekel Government bonds	0.7%	4.2%
Linked Government bonds	-	4.3%
General Corporate bonds	0.9%	2.9%
Linked Corporate bonds	0.5%	3.0%
Shekel Tel-Bond	0.8%	2.9%

The raising of capital through the issue of corporate bonds amounted in the first half of 2015 to NIS 32.4 billion, twice the value of the amount raised in the first half of last year. Of this amount, NIS 13 billion was issued by the banks, compared to NIS 10 billion issued during the whole of 2014

## THE ASSET PORTFOLIO HELD BY THE PUBLIC

The value of the financial assets portfolio held by the public grew by 2.6% in the first half of 2015 to a total of NIS 2.5 trillion at the end of June. The said growth in value engulfed all classes of assets, though it mostly reflected a growth in the value of equities in Israel. However, while the first quarter was characterized by increases in all the channels, fallbacks were recorded in the second quarter, except in the shekel channel, which remained stable. As a result, the value of the portfolio held by the public fell by 2% in the second quarter, after an increase of 5% in the first quarter.

**Following is the distribution of the asset portfolio held by the public:**

	June 30, 2015	December 31, 2014
Shares	24.6%	24.0%
Non-linked assets	33.8%	33.8%
CPI linked assets	29.6%	29.9%
Foreign currency assets	12.0%	12.4%

## PRINCIPAL ECONOMIC DEVELOPMENTS IN JULY AND AUGUST 2015<sup>1</sup>

The global inflation environment continued to be moderate and a steep decline in inflation expectations was recorded, among other things, in view of the fall in commodity prices. Data in the United States continues to indicate an improvement in the employment market and provide the basis for assessments that the Fed is likely to raise interest as early as this coming September. In Europe, an accord has been reached regarding a third bailout plan for Greece, and preliminary data indicate a positive start to the third quarter.

In Israel, slight improvement was recorded in export data in July, however, this being still a 7% decrease compared to July last year.

The monetary policy continued to be expansionary, with the interest rate for August remaining unchanged at a rate of 0.1%. Inflation rate for July amounted to 0.2% and the cumulative inflation for the twelve months ended in July amounted to -0.3%. Residential units prices (which are not included in the CPI) continued to rise at an annual rate of 4.4%.

<sup>1</sup> All data relate to the period from July 1, 2015 and until August 16, 2015.

The fiscal current state continues to be positive and a surplus of NIS 2.6 billion was even recorded, mainly due to a specific increase in the collection of property taxes. The deficit for the 12 months ended in July 2015 fell to a level of 2.1% of GDP. It is noted, that in the reviewed period, the Government continued to operate without an approved budget framework, despite the Government having approved the budget for the years 2015 and 2016.

During the reviewed period, the shekel further appreciated by 1.4% in relation to the effective currencies basket. Against the major currencies, the shekel weakened by 0.5% against the Dollar and remained stable against the Euro.

Equities prices on the Tel Aviv Stock Exchange recorded a steep rise, when in total for the period the TA 100 Index rose by approx. 4% each. Returns on government bonds recorded a decrease, mostly with respect to medium to long-term of the shekel graph. Linked bonds recorded relative weakness in the course of July, with the fall in the inflationary expectations.

## LEGISLATION AND SUPERVISION

In view of the dissolution of the 19th Knesset, it is not possible to evaluate whether the continuity rule will apply to various proposed Bills as described in the 2014 Annual Report.

Following is a summary of legislation changes and relevant legislation initiatives during the reviewed period, which affect or might have a significant effect on the Bank's operations.

It should be noted, that many private Bills have recently been tabled before the Knesset, which may have an impact on the banking industry, including the Bank. Among the issues involved are: restrictions on compensation to senior officers; the collection of debts – amendments to the Debt Execution Act; interest payment on credit balances; commissions, including the cancellation of commissions for basic current account services; unclaimed funds, including the establishment of a data base in respect of unclaimed funds; amendment of the Uniform Contract Act – enforced standing order as a discriminating condition; the issue of bonds by a non-banking corporation; postponement of a payment due to quarterly arrears in the repayment of a loan.

## THE COALITION AGREEMENT FOR THE ESTABLISHMENT OF THE 34TH GOVERNMENT OF THE STATE OF ISRAEL – POSSIBLE IMPLICATIONS ON THE BANKING INDUSTRY

A coalition agreement was signed on April 29, 2015, which contains several sections relating to the banking industry and its operation, as detailed below: The Government shall act to increase competition in the financial and banking fields, reduce costs of long-term savings, increase accessibility to credit for consumers and owners of small and medium businesses; the Government shall support the establishment of a supreme council for financial stability or any other supervisory structure; the separation of credit card companies from banks shall be promoted; promote the legislation of a credit data services act and regulation of off-banking loans act; With a view of reducing "black money" the Government shall support the legislation of the following acts: reduction in the use of cash act and an amendment of the Prohibition of Money Laundering Act which would recognize a serious tax evasion as a predicate offence; The Ministry of Finance shall establish a team for the promotion of a bill memorandum increasing competition in the credit market for consumers and owners of small and medium businesses; The Government shall act to establish IT infrastructure required by new banks in order to increase competition; a team will be formed to examine the manner of implementing deposit insurance, its scope and effect; The Government shall support a reform applying to the reduction in long-term savings costs; the parties shall act to form a special committee of the Knesset for the promotion of the subject.

**The Strum Committee.** On June 3, 2015 the Minister of Finance and the Governor of the Bank of Israel appointed a committee to increase competition in banking and financial services ("the Strum Committee") headed by former Antitrust Commissioner Mr. Dror Strum. The committee was asked, among other things, to recommend ways of introducing new players to compete for the supply of widespread banking services, including by separating ownership of credit card companies from the banks. In accordance with the letter of appointment, the Committee's recommendations shall be submitted within 100 days from date of appointment.

The abovementioned subjects may have a material impact on the banking industry, including the Bank. Notwithstanding, at this early stage, prior to the clarification of the substance, nature, scope and timing of the intended actions, if at all, it is not possible to assess the said implications, neither in terms of substance nor in terms of quantity.

## **MONEY LAUNDERING AND TERROR FINANCING PROHIBITION**

### **THE SECURITIES REGULATIONS (TRADING PLATFORM TO THEIR OWN ACCOUNT), 2014**

In May 2015 the regulations came into effect, with their primary purpose being regulating the activities of foreign companies administering trading platform to their own accounts and subjecting them to the Israel Securities Authority supervision. The regulations complete Amendment No.42 to the Securities Law, 1968, which deals with trading platform to their own account, which came into effect upon the coming in to effect of the regulations.

In addition, in June 2015 the Israel Securities Authority published the Draft Money Laundering Prohibition Ordinance (Trading Platform to Their Own Account Identification, Reporting and Bookkeeping Obligations for the Prohibition of Money Laundering and Terror Financing), 2015.

## **VARIOUS LEGISLATION MATTERS**

### **ECONOMIC PLAN FOR THE YEARS 2015-2016 (LEGISLATIVE AMENDMENTS), 2015 – TAXATION CHAPTER, BILL MEMORANDUM**

The principal of the tax legislation included amendments, including:

- An extensive amendment expanding the authority of the Tax Authorities to obtain information regarding taxpayers from financial institutions, including banks. Among other things, the determination of an instruction requiring the online transfer of information with respect to customer activities. This would allow comparison between reports submitted to the Tax Authorities by taxpayers and their economic activity as reflected by their accounts with financial institutions;
- Amendment of the Money Laundering Prohibition Act – addition of severe tax offences to the list of predicate offences contained in the First Addendum to the Act; Regularizing the direct transfer of information from the Israel Money Laundering Prohibition Authority to the Tax Authorities; Authorizing the Minister of Finance to appoint a committee for the imposition of monetary sanctions according to the law, with respect to entities under his responsibility; Authorizing investigative powers also with respect to tax offences that are proposed to be added as predicate offences;
- Amendments authorizing the Tax Authorities to demand information from new immigrants/returning expatriates, following a request for information, made by a foreign authority in accordance with an international treaty, required by it for the enforcement of its tax laws.

The memorandum is intended to be placed on the agenda of the meeting, to be held on August 19, 2015, of the Special Ministerial Committee regarding the economic plan for the years 2015-2016.

### **INSOLVENCY AND ECONOMIC RECOVERY BILL MEMORANDUM, 2015**

The above Memorandum was published on August 3, 2015, for public comment. The Memorandum contains a comprehensive reform in the matter of insolvency and a full and complete regularization of all laws regarding insolvency of individuals and corporations, by means of a single law that will bring together all the directives on this topic.

The principal items and innovations of the Memorandum, are: an insolvent entity is whoever is unable to pay his debts on their due dates (a test focusing on the repayment ability of the debtor and not on the value of his assets at a given point in time); The Court authorized to deal with matters of insolvency proceedings of an individual would be the Magistrate Court (at present – the District

Court); Insolvency proceedings of a corporation will remain with the District Court; The memorandum emphasizes the need to rehabilitate the individual debtor. The insolvency process of an individual will be divided into two periods. During the first period, the economic position of the debtor will be examined, subsequently, a report of the examination's findings will be submitted to the court, together with a proposed plan for the debtor's rehabilitation. At the conclusion of the plan, the individual will be released from his debts. In addition, a fast-track will be provided for impecunious debtors owing small amounts, whereby their affairs will be discussed with an administrative party who will be authorized to release them from their debts without having to turn to the court. An additional track will make it possible for individuals owing small amounts to reach an out-of-court, administrative debt arrangement; a petition to instigate proceedings will be filed in a uniform manner and the court will rule whether the corporation or individual is insolvent and only subsequently will a decision be taken regarding the track for dealing with the corporation. Where creditors are involved - it is proposed that most of the preferential debts be canceled. The right of secured creditors to be paid in full from the collateral that they hold will be restricted; it is clarified that the status of the creditors is purely advisory and that control of the proceedings will be in the hands of the trustee and the court; The Act would take effect one year after its publication and it would apply to insolvency proceedings instituted as from that date and thereafter.

## THE PLEDGE BILL

The Bill has been approved by the Ministers Committee on Legislation Matters. The Bill has been on the agenda for several years with the intention of replacing the existing Pledge Act as well as other legislation in the matter of pledges. The main proposed changes are: the pledging of future assets – recognizing the right of an individual to pledge an asset not yet at his disposal, and even an asset not yet created; abolition of the concept of a floating pledge – the debtor company shall be entitled to create a fixed pledge on the future assets of the company; abolition of the prohibition on an additional pledge – allowing the debtor to effect transactions in the pledged asset; changes regarding the order of preference of creditors; changes regarding the registration of pledges, including: effective date of the pledge – since date of registration; the manner of "improvement" of a pledge; deposits – recognizing the right of a depositor to create a pledge in favor of a third party; acquisition of a pledged asset – negation of the "market rule".

## THE REDUCTION IN THE USE OF CASH BILL, 2015

The Ministers Committee on Legislation Matters approved the Bill in May 2015. For the principal provisions of the Bill, see the 2014 annual report (p. 204). For details as to the arrangement regarding immediate debit cards, see above "Legislation and Regulations" under "Credit card operations".

## ELECTRONIC CLEARING OF CHECKS BILL, 2015

On July 6, 2015, the Bill passed its first reading and was passed on to the Finance Committee for preparation for the second and third readings. For the main points of the Bill, see the 2014 annual report (p.204).

## DEBT EXECUTION (AMENDMENT NO. 47) (PROVISIONAL INSTRUCTION) ACT, 2015

On August 3, 2015, an amendment to the Debt Execution Law was published in the Official Gazette, which regulates the granting of an exemption from debts to debtors under debt execution proceedings, which are defined as debtors having limited resources. According to the amendment, a debtor having limited resources in the period of five years prior to the date of application for exemption, shall be entitled to submit an application for exemption from his debts, as long as his debt to a single creditor does not exceed NIS 400 thousand, and his total debts to all his creditors do not exceed NIS 800 thousand, he complies with the payments under a compulsory payments Order, he does not have any assets that may be realized and he is not under bankruptcy proceedings. The Debt Execution Registrar shall have the authority to grant an exemption to the debtor even if he did not comply with a compulsory payments Order due to a material adverse change in his economic condition or due to exceptional circumstances. The date of coming into effect has been set for September 6, 2015.

## PUBLIC COMMITTEES

### REPORT OF THE COMMITTEE FOR IMPROVEMENT OF THE SYSTEM FOR PARTICIPATION IN THE CREDIT DATA BASE

The Committee for improvement of the system for participation in the credit data base ("Dorfman Committee") published the final report in August 2015. The report is intended to regularize a central credit data base in Israel, with a view of increasing competition in the retail credit market. The interim report contains recommendations for changes in the financing field due to the information revolution, this in relation to the reporting format, the sources of information, data protection, length of period for maintaining data, data gathering, providing credit reports, positive information, transparency and accessibility to information, correction of data and also credit rating. The Committee recommended two major changes to the Credit Data Act. The one, the inclusion of positive information in addition to the negative information already gathered. The other, a change in the default option regarding the transfer of information – a determination that the default option applying in connection with the participation in the credit data base, is that the information will be gathered, unless a certain person requests otherwise. The recommendations included the extension of the array of suppliers of data under obligation to communicate data to the data base to the banking and/or financial industry as a whole

### CREDIT DATA SERVICES (ESTABLISHMENT OF A CREDIT DATA PARTICIPATION SYSTEM AND APPOINTMENT OF AN OFFICER IN CHARGE OF THE SYSTEM) BILL MEMORANDUM, 2015

The Bill Memorandum was published on August 4, 2015, for public comment, further to the recommendations of the Dorfman Committee. The principal subject of the Bill Memorandum is the amendment of the Credit Data Services Act, and it contains a proposal for the establishment of a central credit data base owned by the Bank of Israel, as well as: the gathering of any relevant information for the purpose of assessing the prospects of a borrower honoring his obligations, including positive information; expansion of the list of sources for the gathering of credit information. Banking corporations and credit card companies shall be obliged to provide information to the central credit data base; as the default option, the data base will maintain credit information regarding a customer, unless that customer requests that no information should be gathered in his respect; the holder of a credit data services license would be authorized to provide a credit report to the credit provider, subject to the consent of the borrower and to the principle of mutuality (namely, on condition that the provider of the credit also provides information to the central data base); a customer would be entitled to receive the information stored in his respect by the data base, as well as request deleting, supplementing or amending the data.

## THE DIRECTIVES OF THE SUPERVISOR OF BANKS

---

### UPDATING THE FORMAT OF THE ANNUAL REPORT TO THE PUBLIC OF A BANKING CORPORATION

The Supervisor of Banks issued on May 3, 2015, an amendment to the Reporting to the Public Directives, intended to improve the quality of reporting to the public, by making the information in the report to the public more usable and accessible to the reader of the report; increase uniformity in the manner of presentation of the annual reports by the banking industry; the formation of a format for the annual report to the public that would be based upon leading presentation practices of leading banks in Europe and the United States.

The main changes are:

- Determining a uniform structure for the order of presentation of subjects in the annual report;
- Abolishing the Management's Review integrating it with the Directors' Report and in other parts of the Annual Report. Changing the name of the Directors' Report to "Directors' and Management's Report";
- Addition of words from the Chairman of the Board of Directors prior to the Directors' and Management's Report, which will include in a summarized reference to the principal focuses in the reporting year, to the goals and strategy and to other matters, considered by the Chairman of the Board as requiring emphasis;
- Publication of a report on risks on the Internet website of the banking corporation, which is to include detailed quantitative information and qualitative information as to the risk review and manner of their management, in accordance with the disclosure requirements of Basel, the FSB and other sources;
- The Basel disclosure requirements, at instrument level, in respect of characteristics of specific capital instruments, are to be included in a separate report – Additional regulatory information – to be included on the Internet website of the banking corporation;
- A significant reduction in the disclosure requirements in the chapter on the description of the business of the banking corporation. The transfer of the information regarding corporate governance and description of the business of the corporation to a separate chapter to be included after the financial report;
- Adoption of the disclosure requirements included in the recommendations for the improvement of the disclosure regarding risks of banking corporations, published by the Enhanced Disclosure Task Force (EDTF), principally on the Internet, within the framework of a separate report to include the disclosure requirements of the third Pillar and additional information regarding risks;
- Changing the order of presentation of the financial report: the presentation of the statement of income before the balance sheet, the presentation of the notes to the statement of income before the notes to the balance sheet, splitting Note 4 regarding "Credit risk, credit to the public and allowance for credit losses" to a condensed Note and to a separate, extensive Note.

The Reporting to the Public Directives regarding the interim report of a banking corporation and Reporting to the Public Directives regarding the annual and interim report of credit cards corporation have been updated accordingly with the stated above.

The new instructions will take effect starting with the financial report for 2015. Bank is preparing for the implementation of the new instruction.

### DRAFT PROPER CONDUCT OF BANKING BUSINESS DIRECTIVE NO. 450 – DEBT COLLECTION PROCEDURES

The Supervisor of Banks and the Enforcement and Collection Authority have formed principles, the aim of which is to ensure efficiency and transparency as regards debt collection procedures with respect to the household and small businesses segments. Accordingly, the Supervisor of Banks issued on May 4, 2015 a draft of Proper Conduct of Banking Business Directive No. 450.

According to the draft, banking corporations would be required to: establish a designated function for coordination the handling of

debt collection; determine a policy and procedures for the handling of debt collection, with the involvement of the board of directors and management; determine a maximum rate for arrears interest in a loan and include in the loan agreement disclosure as to the calculation thereof. In addition, the draft contains instructions regarding disclosure and information to the customer by electronic means also after the creation of the debt, and the mailing of warning letters proximate to the date of default. As regards referring the case to the Debt Execution Office – a uniform format has been established, according to which banking corporations shall deliver to the Debt Execution Office tables showing interest on arrears; payments reducing/settling the debt shall be made directly to the debtor's account at the Debt Execution Office. A payment made as above, shall have the date value of the payment to the Debt Execution Office, and shall be recognized accordingly in the books of the lending banking corporation.

The draft includes also instructions relating to supervision and control by the banking corporation over outside lawyers appointed with respect to debt collection; According to the draft, the Directive shall apply also to loans granted prior to the effective date of the Directive. As regards the item dealing with the maximum rate of interest on arrears – the Directive would apply subject to the maximum rate of interest on arrears according to the Directive, not exceeding the contractual rate of interest on arrears.

### LETTER OF THE DEPUTY SUPERVISOR OF BANKS – INITIATED APPROACH FOR THE GRANTING OF CREDIT TO RETAIL CUSTOMERS

The letter was distributed on June 23, 2015, according to which, in view of the considerable growth in the volume of retail credit, and in order to verify that the credit offered agrees with the needs of the customer, the banking corporations and credit card companies are required to adopt a number of actions, among other, to determine a policy, procedures and processes relating to an initiated approach; to define specific target populations; to determine conversation scenarios; to determine the manner of approach to the customer in line with the characteristics of the target population; to document the approach to the customer; to verify the implementation of the provisions contained in the letter, among other things, by integrating this subject into the work plans of the compliance officer, the legal advisory group and the internal audit. The policy and procedure documents have to be submitted to the Supervisor of Banks by September 1, 2015. The letter clarifies that an offer for the granting of credit made while dealing with other matters of the customer, is regarded as an initiated approach for the granting of credit.

Details regarding Bills and additional new Proper Conduct of Banking Business Directives (or draft Directives) were also provided in the chapters "Description of the Activity of the Group According to Segments of Operation", "Exposure to Risks and Risk Management" above, and "Exposure to cross-border risks in respect of the activities of foreign resident customers" and Note 1 to the condensed financial statements below.

For further details regarding "Legislation and Supervision", see the 2014 Annual Report (pp. 193-208).

## ADDITIONAL ISSUES IN THE DESCRIPTION OF THE GROUP

### MAIN INVESTEE COMPANIES

The total contribution of both domestic and overseas investee companies to the Bank's business results amounted to earnings of NIS 336 million in the first half of 2015, compared to NIS 249 million in the corresponding period last year, and an income of NIS 451 million in all of 2014.

Following are the major developments in the Bank's main investee companies.

#### DISCOUNT BANCORP, INC.

Discount Bancorp, Inc. ("Bancorp") is a wholly owned subsidiary of the Bank, which is a bank holding company, incorporated in accordance with the law of the State of Delaware. Bancorp has full ownership and control of Israel Discount Bank of New York (IDB New York). IDB New York is the largest Israeli bank operating overseas. The data presented hereunder in this section have been taken from Bancorp's financial statements.

	In US\$ millions		Change in %

Footnote:

(1) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of employee rights and in the matter of capitalization of software development costs, see Note 1E(1) and (2) to the condensed financial statements, respectively.

The increase in income in the first half of 2015 was affected, inter alia, from an increase of NIS 36 million in interest income; by an increase in the amount of NIS 33 million in non-interest financing income, stemming mainly from an increase in the amount of NIS 17 million in the gains on realization of bonds, and from a decrease in the amount of NIS 11 million in the losses on fair value adjustments of derivative financial instruments; and from a decrease of NIS 25 million in operating and other expenses which resulted, mainly, from a decrease in expenses for Salaries and related expenses, at a rate of 10.7%, derived from the implementation of a wage agreement signed at MDB in April 29, 2015.

**Replacement of the CEO.** Mr. Uri Baruch, CEO of Mercantile Discount Bank, announced on May 11, 2015, his decision to terminate his office as CEO of MDB. Mr. Baruch terminated his service on August 16, 2015. The Board of Directors of MDB decided on June 30, 2015, to appoint Mr. Shuki Burstein as CEO. Mr. Burstein commenced his duties on August 17, 2015.

For details regarding an appeal filed against the decision in the motion for a declaratory judgment in the matter of charging the debtor's account with violation interest, see Note 19 C item 12.6 to the financial statements as of December 31, 2014 (p. 469). For details regarding lawsuits and motions for approval of the lawsuits as class action suits, in the matter of: the format for granting loans guaranteed by the State (a proceeding in respect of which a removal arrangement was approved in February 2015), commission regarding the handling of credit and collateral, the charging of a commission with respect to operations of conversion and transfer of foreign currency, a unilateral increase in the interest rate on credit taken within an approved credit facility, the charging of commission with respect to the transfer and handling of foreign currency, see Note 19 C, items 12.11, 12.12, 12.14, 12.16, 13.2 and 13.4, to the financial statements as of December 31, 2014 (pp. 471-475) and Note 8 to the condensed financial statements, items 4.7, 4.8, 4.9 and 4.13.

## ISRAEL CREDIT CARDS LTD.

Israel Credit Cards Ltd. ("ICC") is a subsidiary of the Bank. As of June 30, 2015, the Bank owned 71.8% of the equity and 79.0% of the voting rights in ICC, the remainder of the shares held by FIBI.

Footnote:

(1) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of capitalization of software development costs, see Note 1E(2) to the condensed financial statements.

The business results of ICC for the reported period were mostly affected by an increase in sales and marketing expenses, which mostly stemmed from an increase in benefits to Flycard card holders.

For details regarding the police investigation and the seizure of documents and computer material of ICC, the transfer of the investigation file to the State Attorney Office and the notice by the State Attorney that it considers to indict ICC, subject to a prior hearing, see Note 16 b (2) to the condensed financial statements.

For details regarding the negotiations for the acquisition of the minority interest in Diners, see above in "Credit card operations".

For details regarding lawsuits and motions to approve them as class action suits filed against ICC, with respect of the following matters: the marketing of gift cards and the charging of excess amounts in respect of refueling of vehicles (a proceeding in respect of which a removal arrangement was approved in February 2015), the granting of credit by means of the "Active" credit card, allegation of two binding arrangements in the field of immediate debit cards ("debit") and pre paid cards ("pre-paid") (proceedings in respect of which a motion for withdrawal has been submitted), see Note 19 C to the financial statements as of December 31, 2014, items 12.9, 12.13, 12.15, 13.5 and 12.17 respectively (pp. 470-473) and Note 8 to the condensed financial statements, items 4.10 and 4.12.

For details regarding activity in the credit card field in Israel, see "Credit card operations" under "Further details as to activity in certain products" above, Note 34 to the financial statements as of December 31, 2014 (pp. 525-528) and Note 16 to the condensed financial statements.

## ISRAEL DISCOUNT CAPITAL MARKETS AND INVESTMENTS LTD.

Israel Discount Capital Market and Investments Ltd. ("DCMI"), a wholly owned and controlled subsidiary of the Bank, is engaged in investment in companies, in private investment funds and venture capital funds, investment banking in the field of securities distribution and in the underwriting and management of public offerings of securities (through a subsidiary).

Balance sheet items	In NIS millions		Change in %
	June 30, 2015	December 31, 2014

<b>Income statement items for the six months ended June 30</b>			
	2015	2014	
Net income attributed to the shareholders	31.4	62.9	(50.1)
The contribution to the Bank's business results <sup>(1)</sup>	43.1	59.6	(27.7)

Footnote:

<sup>(1)</sup> Differences between net income and the contribution to the Bank's results is derived from differences in the implementation of generally accepted accounting principles

In the first half of 2015, DCMI participated, via its subsidiary, Discount Underwriting and Issuing Ltd., in 23 public offerings and 2 private offerings (of which one private placement on behalf of the Bank), amounting in total to NIS 11.2 billion and in 3 brokerage transactions. This, compared with 31 public offerings and 4 private offering, amounting to NIS 9.3 billion and 4 brokerage transactions, in the corresponding period last year.

**The merger of Discount Underwriting and Issuing Ltd.** Negotiations are being held with respect to a merger transaction of Clal Finance Underwriting Ltd. with and into Discount Underwriting and Issuing Ltd. There is no certainty at this stage that the negotiations will be concluded and result in a transaction. The signing of an agreement is, among other things, subject to completion of the negotiations and conclusion of the transaction details as well as obtaining approvals of the authorized organs of the companies. To the extent that the transaction is concluded, its consummation would be subject to obtaining various regulatory and legal approvals, as required. At this stage, there is no certainty as to the signing of the merger agreement and the realization of the transaction.

## FIXED ASSETS AND INSTALLATIONS

### BUILDINGS AND EQUIPMENT

As of June 30, 2015, the investment in buildings and equipment amounted to NIS 2,261 million, compared with NIS 2,354 million at the end of 2014, a decrease of 4.0%.

**Focus points for 2015.** Within the strategic program of the Discount Group, it has been decided to reduce real estate areas held by the Bank and the Group, among other things, in view of the reduction of the labor force. An extensive project was put into operation in the last quarter of 2014, which continued in 2015, within the framework of which, examinations are being performed, intended to ensure the efficient and effective utilization of the real estate assets. The lines of action being examined are the reduction in the number of branches, reduction in the floor area of branches, merger of branches, improvement in terms of rental agreements or the exchange of rented locations, etc.

As revealed by the data presented below, a downward trend is evident in the amount of real estate space used by the Bank.

**Following are details regarding the floor area at the disposal of Bank branches:**

As of	Sq. meters	Number of branches	Average Sq. meters per branch
June 30, 2015	72,817	137	531.5
December 31, 2014	74,068	138	536.7
December 31, 2013	80,257	145	553.5

**Following are details regarding the distribution of all floor area at the disposal of the Bank:**

	As of June 30 2015	As of December 31 2014	2013
	In Sq. meters		
Freehold	111.6	112.4	115.7
Leasehold	53.1	54.2	56.6
<b>Total</b>	<b>164.7</b>	<b>166.6</b>	<b>172.3</b>

**Mercantile Discount Bank – sale of a section of the building used by the bank's management.** As part of the efficiency measures adopted by MDB, it has been decided to relocate certain of its Head Office units, from the building that serves the Management offices in Tel Aviv to the office compound in Holon, which serves, among other things, the back office units. An agreement for the sale of that part of the office building that served the said units was signed on July 16, 2015.

## ACCESSIBILITY

The Bank has completed the accessibility to 40% of its properties in accordance with the determining date according to the Regulations (June 22, 2015). At the present time, the Bank is preparing for the continuation of accessibility modifications to its properties (both from the aspect of accessibility to services and from the aspect of accessibility to buildings, infrastructure and the environment), towards the third stage of accessibility, the due date of which is June 22, 2016. At the end of this stage, accessibility would be completed at 65% of the Bank's properties, as required by law.

Moreover, the Bank has completed accessibility modifications to service information, and is in the advanced stages of completing the accessibility modifications to the Internet website.

For additional details, see the 2014 Annual Report (pp. 215-216).

## GLOBAL LEGISLATION REGARDING THE PREVENTION OF TAX OFFENCES

### CHANGES IN THE U.S. TAX LEGISLATION

Following the publication in March 2010, of the FATCA legislation (Foreign Account Tax Compliance Act) in the United States, the Bank, with the assistance of a U.S. law firm, has formed a policy and procedures required in this matter. Furthermore, the Bank and the relevant subsidiaries in the Group, with the assistance of external consultants, have begun extensive preparations and implementation activity of the instructions of FATCA. This work is in advanced stages towards its completion, in accordance with milestones defined by FATCA. In accordance with the above, as from February 2012, new U.S. customers (U.S. persons) are required to sign a W-9 Form as well as sign a declaration of compliance with reporting requirements and a letter waiving confidentiality in this respect. At the same time, the process of identifying and obtaining the signature of existing U.S. customers on the said documents continues.

The registration of the Bank and of the relevant companies in the Discount Group in the designated on-line portal of the U.S. Internal Revenue Services was completed in March 2014.

On April 6, 2014, towards the entry into effect of the FATCA instructions, the Supervisor of Banks issued a letter in the matter of the preparations for the implementation of the FATCA instructions, which required the banking corporations to continue and prepare for the implementation of the instructions, including the appointment of an officer in charge, the establishment of a designated work team coordinating the implementation of the instructions, directly responsible to a member of Management, and the determination of policy, including procedures, regarding the manner of implementation of the FATCA instructions, which should be approved by the Board of Directors, while taking into consideration the Bank's duties towards its customers and following a careful examination of the circumstances. It was further noted that the refusal to open a new account and/or provide banking services in the case of an existing account, which expose the banking corporation to the risk of being considered a collaborator of the customer for the purpose of evading the FATCA instructions, shall be considered a reasonable refusal for the purpose of the instructions of the Banking Act (Customer service). It was also recommended to adopt measures that increase awareness to the FATCA instructions and their possible implications on customers, in particular customers being financial institutions to which the FATCA instructions apply.

An interstate agreement was signed on June 30, 2014, between the Government of Israel and the Government of the United States, regarding the implementation of the FATCA instructions. On that date, the Supervisor of Banks issued a guideline in the matter of the opening of new accounts in view of the FATCA instructions, according to which, bank accounts that would be opened as from July 1, 2014, would be prima facie subject to the account opening procedures stated in the instructions, subject to the implementation of alternative procedures as detailed in the interstate agreement.

**Preparations of the Group for implementation of the instructions.** As stated, the Bank and the relevant subsidiaries in the Group are acting according to the FATCA instructions, in line with the time schedule detailed in the inter-state agreement, including the determination of policy and procedures, preparation of computer systems and devising guidelines for activity with customers.

## EXCHANGE OF INFORMATION BETWEEN COUNTRIES

On January 29, 2014, the Official Gazette published a Government Income Tax Ordinance Amendment Bill, proposing the addition of a fourth Chapter in the matter of exchange of information according to an international agreement, authorizing the State to forward information to the tax authorities of another country, whether at the request of that tax authority or at the initiative of the Israel Tax Authority.

The Ministry of Finance published on April 13, 2014, a Memorandum for the Income Tax Ordinance Amendment Bill (which was amended on May 19, 2014), which proposes that financial institution will have the duty to obtain details of entities holding the rights to accounts opened with them, and as regards U.S. entities, the fact of them being a "U.S. person" in accordance with the FATCA agreement. It is also proposed, that the Regulations will include the requirement of identifying details of whoever holds rights to an account with a financial institution, as well as the manner of forwarding information from the financial institutions to the Israel Tax Authority. The Memorandum proposes to impose monetary sanctions in respect of the non-identification of details of account holders and/or failure to forward the information to the Commissioner, in accordance with the instruction of the Act. It is also proposed in the Memorandum to authorize the inclusion in Regulations to be enacted under the Act, reference to the clarification of the tax liability country of customers of the financial institution and the forwarding of such information to the Tax Authority.

On May 6, 2014, a multilateral declaration regarding tax evasion was published, including the bilateral exchange of information between OECD countries. According to an announcement of the Ministry of Finance, Israel is expected to sign agreements with respect to the automatic exchange of information with OECD countries and other countries, and everything subject to the Act that will be passed in the matter.

The Ministry of Finance announced on October 27, 2014, the adoption of the OECD procedure for the automatic exchange of information regarding financial accounts, until the end of 2018.

A Bill memorandum for the amendment of the Income Tax Ordinance was published on June 26, 2015. The Bill lays out the legal

infrastructure in Israel for the implementation of the FATCA provisions and the Inter-State Treaty between Israel and the U.S. and for the implementation of the CRS requirements of the OECD in the matter of automatic exchange of information. The aim of the Bill Memorandum is to regularize, through Regulations to be enacted further on, the operations required from Israeli financial institutions for the purpose of the said implementation, as well as allow for monetary sanctions and individual criminal responsibility in respect of the violation of different provisions. The Bill Memorandum contains an amendment of the Money Laundering Prohibition Act, which enables the use of identity details obtained under the Money Laundering Prohibition Act also for the purpose of maintaining the Inter-State Treaty between Israel and the U.S., or for the purpose of maintaining an international agreement for the exchange of information.

On August 12, 2015, the Memorandum of the Economic Efficiency Bill for the years 2015 and 2016 (Legislation amendments), 2015 – Taxation Chapter was published. The Memorandum is intended to be included in the agenda of the meeting of the special Ministers committee for the economic plan for the years 2015 and 2016, to be held on August 19, 2015. The aim of the Memorandum is to determine instructions for the prevention of tax planning, the abolition of tax loopholes, and improving the gathering of information and of reporting. Among other things, included in the Memorandum are amendments to the Income Tax Ordinance, which are intended to allow exchange of information in accordance with international treaties, which would assist the enforcement of the Israeli tax laws or tax laws of another country.

## EXPOSURE TO CROSS-BORDER RISKS IN RESPECT OF THE ACTIVITIES OF FOREIGN RESIDENT CUSTOMERS

### GENERAL

The Bank operates in an environment of changing global regulation. As part of these changes, and among other things, an increase occurred in the extraterritorial enforcement operations with respect to reporting duties and the payment of taxes of taxable persons who manage their accounts outside their country of residence.

In view of this global trend, the Bank is preparing for the management of the risks involved in maintaining accounts of foreign residents, generally, with a focus on the risk involved in tax evasion, in particular.

As of the present time, the principal enforcement actions are conducted by the U.S. authorities, however, the possibility exists that tax authorities and regulators in additional countries will take action of a similar nature.

### THE BANK'S POLICY WITH RESPECT TO ACCOUNTS OF FOREIGN RESIDENTS

With the aim of managing the said risk, and in accordance with that stated above, and among other things, in continuation of the Bank's actions regarding the implementation of the FATCA instructions, the Bank's Board of Directors has adopted a policy with respect to compliance of foreign residents with the provisions of foreign legislation regarding the payment of taxes and the reporting of accounts. Further to the adoption of the policy, rules have been determined is designed to establish rules for the opening of bank accounts of foreign residents and for the acceptance of monies and securities in favor of foreign resident accounts, in a manner that would satisfy the Bank as regards fulfillment of the duties applying to the relevant foreign resident customers with respect to the payment of taxes and reporting their accounts, as required by the provisions of foreign legislation applying to them. The policy also states that, to the extent that the regulation in Israel and abroad with respect to foreign residents and their accounts would be updated, the Bank shall act accordingly.

The said policy document is under an updating process, in order to adjust it to the circular of the Supervisor of Banks dated March 16, 2015, mentioned above.

In July 2014, the Board of Directors of MDB adopted a policy based on the Bank's policy.

## AUDIT IN THE MATTER OF EXPOSURE TO RISKS INVOLVED IN THE ACTIVITY OF FOREIGN RESIDENTS

On September 28, 2014, the Supervisor of Banks approached the Bank with a demand that the Bank will perform an audit that would evaluate the level of exposure of the Bank and the Bank Group to cross border risks relating to activities of foreign resident customers, and would examine the manner in which these are being managed. The audit should include the gathering of quantitative data regarding foreign resident customers as well as an examination of the risk management appropriateness, the procedures, the policy, the controls and the performance of the corporate governance in everything relating to the activities of foreign resident customers. The principle findings were presented on May 4, 2015, for discussion by the Audit Committee. On May 17, 2015, the Bank submitted to the Supervisor of Banks the audit report and the Bank's response to the report. Subsequently to the said date, certain supplementary material has been submitted to the Supervisor of Banks. The Bank has prepared a plan for the treatment of the findings of the report and is acting towards its implementation.

## CIRCULAR OF THE SUPERVISOR OF BANKS IN THE MATTER OF "BANKING OPERATIONS BY FOREIGN RESIDENTS"

The Supervisor of Bank issued on March 16, 2015, a circular in the matter of "management of risks arising from cross-border operations of customers". The circular contains various guidelines to banking corporations with respect to the handling of foreign residents and details of actions that banks have to take in order to reduce exposure to compliance risks stemming from cross-border transactions. In accordance with the circular, it is among other things, required to obtain a declaration as to the lawfully payment of taxes in respect of funds held in the account and as to the countries in which the declarer is a resident for tax purposes, as well as obtaining a waiver of confidentiality with respect to the foreign authorities. According to the circular, the actions required by it have to be completed by the end of 2015, with respect to customers classified as constituting high risk, and until the end of 2016 in respect of the remaining accounts. The Bank is acting for the implementation of the guidelines of the circular within the time schedules contained therein.

## EXPOSURE TO CROSS BORDER RISKS RELATING TO ACTIVITIES OF U.S. CUSTOMERS

Changes in enforcement actions of the U.S. authorities have taken place in recent years with respect to enforcement of tax liabilities of U.S. customers maintaining accounts with foreign banks outside the U.S.. Such changes are, among other things, expressed in the publication of several programs for voluntary disclosure by taxable U.S. citizens, in intensified enforcement actions against foreign banks conducting accounts for U.S. customers, which are suspected of collaboration with such customers in hiding their assets from the U.S. tax authorities, and in the imposition of different sanctions, including fines in high amounts imposed on such banks. These changes have an effect on the operating environment of the Bank, being a provider of services, among others, also to U.S. customers. According to publications and reports, certain Israeli banks are under different stages of examination and investigation on the part of the U.S. authorities.

It was published on December 22, 2014, that the Bank Leumi Group had reached an arrangement of the "Deferred Prosecution Agreement" type with the U.S. Department of Justice, and also reached an additional arrangement with the Financial Services Authority of the State of New York (hereinafter – "the Leumi arrangement"). According to the arrangement, Bank Leumi admitted conducting a series of operations, the aim of which, according to the publication, was assisting tax evasion by its U.S. customers. According to the arrangement, the U.S. Department of Justice agreed to defer the filing of an indictment against the Bank Leumi Group for a period of twenty-four months, during which Bank Leumi is required to abide by the commitments detailed in the agreement. Moreover, various sanctions have been imposed on the Bank Leumi Group, including the payment of a fine in the amount of US\$400 million.

The Bank Leumi arrangement has been presented and discussed at the Bank following its publication. This arrangement is based on specific facts dealing with many and continuous operations attributed to different companies in the Leumi Group and as far as can be

discerned from the publications, the agreement had been prepared and formed over a long period of time, with considerable investment of resources and of work time of consultants, the data itself remaining undisclosed. The agreement does not detail the formula for the fine, which determines the amounts that the Leumi Group has agreed to pay, except with respect to the operations of Leumi in Switzerland. It would seem that in part, the amount of the fine had been based on agreements as to the amounts of tax evasion by customers, deriving from and in respect of activities attributed to the Bank Leumi Group.

The Bank has no knowledge of investigative actions taken against the Bank or against any of its extensions by the U.S. authorities, as regards U.S. customers who had not complied with their obligations according to U.S. tax laws. Furthermore, as published, IDB (Swiss) Bank is not one of the corporations included in the category No. 1 of the Swiss program (namely, banks under investigation, which, therefore, may not participate in the Swiss program).

As detailed below, the Bank is adopting a series of measures for the management of the risk involved in its operations with its U.S. customers. However, in view of the said enforcement actions and due to the uncertainty existing in this matter, it is not possible to assess to assess the risk involved in these operations.

### **ACTION TAKEN BY THE BANK IN RESPECT OF OPERATIONS BY U.S. CUSTOMERS**

In the ordinary course of business, the Bank is involved with many customers, including customers who are U.S. citizens and/or U.S. residents. As part of its activity, the Bank manages the risks and exposure deriving from operations of the Bank's foreign customers, including customers who are U.S. citizens and U.S. residents, as well as risks deriving from the application of foreign legislation to the Bank's operations. Management of the exposures and risks is conducted by means of policy, procedures and controls.

The Bank's policy and procedures prohibit Bank employees to conduct transactions with respect to accounts of U.S. customers, which might expose the Bank to regulatory risks. In this respect, the Bank does not permit its employees to hold meetings with customers in the U.S., prohibits the providing of tax advisory services to U.S. customers and advising customers on how to evade the payment of taxes, prohibits referring customers for the purpose of obtaining advice the aim of which is tax evasion and does not permit any assistance leading to the violation of any law.

As detailed in the Item "Operations in the capital market", the Bank adopted in March 2010, a policy terminating the provision of securities services to customers (whether new or existing) having affinity to the U.S., and which also forbids use of U.S. communication means for the purpose of providing securities services to persons staying in the U.S..

As discussed above, the Bank implements the FATCA legislation in accordance with the milestones stated therein. In consequence of the implementation of the FATCA legislation, new U.S. customers (U.S. persons) are required, as from February 2012, to sign a W-9 Form as well as a declaration of their compliance with reporting requirements and also a waiver of confidentiality letter in respect thereof. At the same time, the Bank is in the midst of a process of identification of existing U.S. customers and obtaining their signature on the said documents.

The full implementation of these procedures will lead to a situation whereby U.S. customers, as defined by the FATCA provisions, would be identified and reported as required by this legislation. According to the requirements, all details of U.S. customers would be reported periodically to the Ministry of Finance in accordance with FATCA. The first report is to be conducted as of September 30, 2015.

It is further noted that, as stated in the financial statements for the relevant years, IDB New York reached an agreement on December 15, 2005, with the prosecution authorities in the U.S., terminating the investigation proceedings conducted against it in matters relating to money laundering prohibition. According to the arrangement, IDB New York paid a fine. Furthermore, instruction briefs have been issued, in which IDB New York was required to rectify the deficiencies that had been found, strengthen control and supervision procedures, determine enforcement plans and improve the procedures relating to these matters, and everything in the manner and according to dates determined by the U.S. authorities. IDB New York had operated under instruction briefs for a period of about three and a half years, until June 2009.

Operations under these instruction briefs and the process rectifying the deficiencies have resulted in the improvement of work procedures at IDB New York, including work with additional factors in the Group, and in the investment of considerable resources in the compliance field.

Concurrently, as detailed above, and in accordance with the requirements of the Supervisor of Banks, an audit was performed at the Bank aimed at assessing the level of exposure of the Bank and the Bank Group to cross border risks relating to the activity of foreign resident customers, and to examine the manner in which such activity is being conducted.

On April 20, 2015, the Supervisor of Banks approached the Bank with a demand to perform an audit, in the matter of its U.S. customers, that would evaluate the level of exposure of the Bank to "cross border" compliance and reputation risks in everything relating to U.S. customers for the period since 2011, as well as evaluate the Bank's preparations for the implementation of the FATCA provisions. The audit report should be submitted to the Supervisor of Banks by October 20, 2015. The audit work, as stated, is in its midst.

## IDB (SWISS) BANK

As stated in Note 19 C (15) to the financial statements as of December 31, 2014 (pp. 475-476), IDB (Swiss) Bank has elected not to participate in the Swiss program. Notwithstanding the above, the bank reviewed in the first quarter of 2014, towards the publication of its financial statements for the year 2013, the above mentioned theoretical exposure in accordance with Category No. 2 of the Swiss program. The review was performed with the assistance of an external consultant. During March 2015 IDB (Swiss) Bank completed an additional comprehensive review verifying the completeness of the identification of accounts of U.S. persons, and the collection and safe keeping of the data.

Had IDB (Swiss) Bank joined the program under Category No. 2, than the maximum fine computed in accordance with the approach detailed in the Swiss program with respect to all accounts of U.S. persons held by it, would have been reduced in relation to accounts that would have been recognized under the program as tax compliant, or as such which joined the voluntary disclosure program with the encouragement of IDB (Swiss) Bank, or as such that are out of scope of the program.

In accordance with an examination made by IDB (Swiss), with the assistance of external consultants, and considering the deductions detailed above, the worst case scenario does not amount to a material sum to the Bank, this according to the Bank's disclosure policy with respect to contingent liabilities (less than 1% of the Bank's equity capital; see Note 1 D 17 to the financial statements as of December 31, 2014, p.373).

It is emphasized that in any event, the result of the said review is considered a crude assessment only, due to the fact that the formula in question is not a simple one but a formula requiring specific and complex discussions with the U.S. Justice Department, mostly due to the fact that different reliefs exist under the program, the effect of which is difficult to assess beforehand.

## HUMAN RESOURCES

### LABOR RELATIONS

**Labor dispute.** On July 23, 2015 a notice was delivered to the Bank from the Union of Clerks, Administrative Public Service Employees ("Histadrut HAMAOF") on the deceleration of a labor dispute at Discount Bank, in accordance with Section 5a and 5b of the Settlement of Labor Disputes Law, 1957 and resulting regulations. In accordance with the notice, a strike could have been called as from August 9, 2015, and thereafter.

**Signing a wage agreement at MDB.** Following the signing of the agreement in Bank Leumi, and were as in the wage agreements in MDB a linkage of the labor terms of employees of MDB to those of employees of Bank Leumi has been determined, a wage agreement has been signed on April 28, 2015 between MDB and the employee representative, which constitutes an update to the former agreement with effect for four years starting January 1, 2015. The updated wage agreement adopts relevant understandings for MDB determined in the wage agreements of Bank Leumi, and adjusts other components to the labor charter prevailing in MDB.

The financial statement included appropriate provisions derived from the updating of the wage agreement, as stated. Accordingly, the Bank recorded in the first half of 2015, a nonrecurring decrease in payroll expenses, in the amount of NIS 30 million (stemming from the expected decrease in liabilities for the payment of jubilee awards on the one hand, and the recording of provisions for non-utilized sick leave and the payment of a one-off award on the other hand). Notwithstanding the above, the application of all components included in the new wage agreement, is expected to increase the current payroll expenses of MDB in the future, by an amount of approx. NIS 5 million per annum.

**The signing of a collective labor agreement at ICC.** On March 23, 2015, ICC signed a collective labor agreement with the new Federation of Labor and the national representative committee of ICC employees ("the agreement"). The agreement extends by one additional year the validity of the previous agreement signed by the parties. According to the agreement, the parties shall continue negotiations, starting August 2015, in respect of a collective agreement for the years 2015-2017.

The agreement establishes the rate for the wage addition in respect of the year 2015, determines the rate of "seniority increment" payable to permanent status employees of ICC, and establishes amounts and rates of additional benefits to which ICC employees are entitled.

In terms of the agreement, the parties are bound to maintain industrial peace at ICC until February 29, 2016, with respect to the understandings to which the agreement relates, except for certain matters as defined in the agreement.

**Minimum wage (Increasing the minimum wage amounts – provisional instruction), 2015.** Three stages have been determined in the provisional instruction: in April 2015, in June 2016 and in January 2017. With respect to its temporary employees, the Bank has advanced the third stage to the date of the first stage. For further details regarding the provisional instruction, see the 2014 annual report (p. 236).

## IMPROVEMENT OF SERVICE

**Quality of service index.** In 2015 the multichannel customer experience is measured through a recommendation of the unit index (NPS - Net Promoter Score). This index represents the level of "Promoters" or "Detractors" of the customers with respect to the service they received, and found to be the best predictor of customer loyalty. The measurement data are conveyed on a current basis to managers of the business units at the branches, the investment centers and at TeleBank, and comprise an infrastructure for drawing of conclusions and analyzing the strengths and weakness of providing the service.

With the aim of providing managers with the tools to improve, new analysis reports have been developed, which provide for a view of the branch's status in the service field and of subject for improvement in which efforts need to be focused.

**Internal services survey –** The survey was published in March 2015, for the first time at Discount Bank, in a cross-organization format. The results of the survey constitute a "base line" for a continuous process of measurement and improvement.

The survey had measured 333 services provided by the various divisions. The rate of respondents reached 85%.

The following measures have been adopted within the framework of feedback and improvement procedures: The findings and results had been presented to all heads of divisions and departments at designated meetings; Each service manager received a detailed report of the findings and an analysis of the results; improvement targets have been defined for each head of department at a KPI level; Units requesting assistance in structuring their improvement plans and establishing a dialogue with users of the service, have been provided with professional assistance.

A convention has been held in honor of outstanding service managers and managers of outstanding units with the participation of the President & CEO as well as members of Management.

A date for the next survey was fixed for the first quarter of 2016. The mapping and improvement of services and respondents is due to begin at the end of the year, as well as the structuring of the methodology for the next survey.

## TREATING COMPLAINTS

In July 2015 the Bank-Customer Relations Department at the Supervision of Banks at the Bank of Israel published data on complaints filed against Israeli banks in 2014. The number of complaints received by the Bank via the Bank of Israel increased from 278 complaints in 2013 to 346 complaints in 2014, a 24% increase. The number of complaints found to be justified in 2014 decreased compared to 2013 – 26 justified complaints compared to 27 in 2013. The rate of complaints found to be justified was identical to its rate in 2013 – 15.1%. The grade the Bank received from the Supervisor of Banks on the quality of its treatment of complaints was 98.7% in 2014, compared to 99.3% in 2013.

## REMUNERATION POLICY IN A BANKING CORPORATION

**Amendment to Proper Conduct of Banking Business Directive No. 301A in the matter of the Remuneration Policy.** On August 13, 2015 the Supervisor of Banks published a circular for the amendment of Proper Conduct of Banking Business Directive No. 301A regarding "Remuneration Policy in a Banking Corporation" ("the amendment to the directive"), in the framework of which the following Directives were established:

- Recovery of variable remunerations paid to a key employee – a repayment obligation applicable to variable remuneration paid to a key employee was established, under circumstances in which the key employee was an accomplice in behavior that caused unusual damage to the corporation, including: illegal activity, breach of confidence, intentional violation or severe neglect disregard of the banking corporation's policies and procedures. Furthermore, it has been determined that the obligation to repay variable remuneration will apply in circumstances of fraud or deliberate, inappropriate conduct, the data with respect to which have been revealed as being erroneous and have been restated in the financial statements. The repayment period is within 5 years of granting the remuneration, and regarding officers it may be extended by 2 additional years in the event of an internal investigation or in the event of notice from a regulatory authority that an investigation has been opened, which may lead to the activation of the recovery mechanism;
- Fixed remuneration for directors and for the chairman of the board of directors – it has been prescribed that the members of the board of directors including the chairman, are to receive only fixed remuneration. The remuneration of the chairman of the board of directors will be set relative to the manner of remuneration of the Board members, taking the size of the banking corporation, the complexity of its activity and the scope of the Chairman's employment into consideration;
- The remuneration of all the directors, except for the chairman, will be determined identically and in accordance with the way that the remuneration of an external director is determined pursuant to the Companies Regulations regarding the remuneration of an external director;
- Additional instructions pertaining to remuneration – It has been prescribed that every corporation in the banking group will bear the employment costs of its senior officer or its employee, in accordance with the scope of their position, their authority and their responsibilities in this position. In addition, key employees are forbidden from accepting any form of remuneration directly from the holders of the control permit or of a material holder in the banking corporation, including their relatives or corporations under these people's control. This prohibition shall not apply to non-external directors, but shall apply to the Chairman of the Board of Directors.

According to the transitional instructions, these requirements will apply to remuneration agreements approved subsequent to the publication of the amendment to the directive (including the extension or alteration of an existing agreement). Regarding a remuneration agreement approved before the publishing of the amendment, it was decided that the requirements shall apply no later than December 31, 2017.

**Senior Executives Salary Cap Bill.** On July 19, 2015 the Ministerial Committee on Legislative Affairs decided to apply continuity to the Bill submitted by the Minister of Finance to the previous Knesset, on the subject of Remuneration of Officers of Financial Corporations (Special approval and the non-deductibility tax wise of exceptional remuneration), 2014. For details regarding the Bill, see the 2014 Annual Report (p. 203). Following the decision of the Ministerial Committee on the application of continuity, the Bill shall be prepared for its second and third Knesset readings.

## CRITICAL ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES

The Bank's financial statements are prepared according to generally accepted accounting principles (summarized in Note 1 to the financial statements as of December 31, 2014, pp. 353-381) and according to instructions and guidelines of the Supervisor of Banks. The level of regulation regarding the financial reporting of banking corporations is among the highest in the financial reporting fields in Israel. The instructions and guidelines of the Supervisor of Banks are comprehensive, detailed and at times even dictate the wording to be used by banking corporations. Nonetheless, there are areas where implementation of the accounting policy involves a high level of evaluation and assessment performed by management of the banking corporation in the course of the preparation of the financial statements.

Implementation by management of the accounting principles and the instructions and guidelines of the Supervisor of Banks, sometimes requires various assumptions, evaluations and assessments that affect the reported amounts of assets and liabilities, including contingent liabilities, as well as the financial results reported by the Bank. It is possible that when the evaluations and assessments materialize in the future, their results may be different than those anticipated at the time the financial statements were prepared. Certain of the evaluations and assessments applied involve uncertainty or sensitivity to various variables to a large extent. Such evaluations and assessments, changes in which might have a considerable effect on the reported financial results, are considered evaluations and assessments of "critical" matters. The Bank's Management believes that the evaluations and assessments used in the preparation of the financial statements are fair and were made in accordance with the best of its knowledge and professional judgment. A summary review of evaluations and assessments made regarding "critical" matters is included in the 2014 Annual Report (pp. 250-259).

## MEASUREMENT OF FINANCIAL INSTRUMENTS ACCORDING TO THEIR FAIR VALUE

**The credit risk.** The adjustment of credit risk relating to assets and liabilities in respect of derivative instruments led, in the first half of 2015, to a loss of NIS 5 million, similar to 2014.

**Following are details regarding the adjustments made to assets and liabilities in respect of derivative instruments, as stated above:**

	June 30, 2015	December 31, 2014
	in NIS millions	
Assets in respect of derivative instruments	3,552	4,623
Adjustment in respect of credit risk regarding assets relating to derivative instruments	(18)	(11)
Liabilities in respect of derivative instruments	4,099	4,510
Adjustment in respect of credit risk regarding liabilities relating to derivative instruments	(8)	(6)

For additional details regarding the measurement of financial instruments according to their fair value, see the 2014 Annual Report (pp. 253-256).

## EMPLOYEE RIGHTS

As from January 1, 2015, the Bank implements the U.S. GAAP in the matter of employee rights. For additional details, see the 2014 Annual Report (pp. 257-259) and Note 1 E 1 to the condensed financial statements.

**Updated actuarial opinion.** In view of the material changes in capitalization rates, the Bank has ordered an updated actuarial assessment as of June 30, 2015.

**Presenting the actuary's opinion for perusal.** The opinion of the Actuary<sup>1</sup> is available for perusal on the MAGNA website of the Israeli Securities Authority and on the MAYA website of the Tel Aviv Stock Exchange Ltd. together with the 2015 Second Quarter Report (This Report).

## RATING THE LIABILITIES OF THE BANK AND SOME OF ITS SUBSIDIARIES

On May 8, 2015, the international rating agency S&P ratified the existing rating of DBLA.

Moody's international rating agency ratified on June 30, 2015, the rating of deposits of the Bank, and increased the horizon rating from "negative" to "stable". In addition, Moody's determined for the Bank for the first time, a "Counterparties Risk Assessments" rating at a level of A3.

For additional details regarding the rating determined for the Bank and some of its subsidiaries by different rating agencies, see the 2014 Annual Report (p. 260).

## DIVIDENDS

For details as to limitations on the distribution of dividends, see Note 13 E to the financial statements as of December 31, 2014 (p. 429). The Bank's Management believes that it would not be possible to distribute a dividend in 2015. For further details see the 2014 Annual Report (p. 214).

## LEGAL PROCEEDINGS

As for details regarding "Outstanding claims against the Bank" and "Debt recoveries procedures" see the 2014 Annual Report (p. 261), Note 19 C, items 12-14, to the financial statements as of December 31, 2014 (pp. 467-475) and Note 8 to the condensed financial statements.

## ADDITIONAL LEGAL PROCEEDINGS

**Approaches according to Section 194 of the Companies Law.** Two approaches were received at the Bank on April 26, 2015, under Section 194 of the Companies Act. The one was directed at the Chairman of the Board of the Bank and at the Chairman of the Board of ICC, while the other was directed only at the Chairman of the Board of the Bank. According to these approaches, the Bank and ICC are required to submit a claim against different entities, including Officers, Directors and others at ICC and at the Bank, in the relevant period, arguing that due to their negligence and/or violation of their duties towards ICC, enabled, as alleged by the Appellants, the existence of illegal activity, in which ICC was prima facie engaged, causing direct or indirect damage to ICC and the Bank as a result thereof.

The Bank and ICC refuted the demands.

<sup>1</sup> The English translation of the Opinion is available for perusal at the Bank's website.

For details of an approach received in June 2014, according to which, the Bank and ICC were required to file a claim against Officers and employees in respect of the damage caused to ICC as a result of the operations of ICC International, and the Bank's response to the approach, see the 2014 Annual Report (p.262).

**Motion for approval of a derivative claim.** For details regarding a claim together with a motion for approval of the claim as a derivative action (numerous), which was filed on May 7, 2015, see Note 16 B (3) to the condensed financial statements.

**Proceedings against IDB (Swiss) Bank.** The 2014 annual report (p. 261) contains a description of the proceedings instituted against IDB (Swiss) Bank and the Bank by a former Vice President and Risk Manager of IDB (Swiss) Bank. On July 2, 2015, an additional claim was filed against the Bank by the same Claimant, who demands compensation in the amount of NIS 360 thousands, with respect to the damage allegedly caused to him by what he claims to be slanderous material against him published by the Bank in its Annual financial statements.

## SIGNIFICANT LEGAL PROCEEDINGS SETTLED IN THE SECOND QUARTER OF 2015

1. On May 12, 2009, an action was filed against the Bank, Bank Leumi, Bank Hapoalim, Mizrahi-Tefahot Bank and the First International Bank together with a motion to approve the action as a class action suit.

The Plaintiffs' claim was that binding arrangements regarding the communication of information with respect to commissions had existed between the defendant banks. The Claimants argue that a binding arrangement had existed between the said banks with respect to commission rates charged by these banks and that the banks established a coordinated policy, which, as alleged by the claimants, was typified by prohibited cooperation and exchange of information.

The total damage for all the defendant banks was assessed for the purpose of the action at approx. NIS 1 billion, with no allocation between them.

The District Court approved a compromise agreement in the case on May 31, 2015.

The payment to be made in accordance with the compromise arrangement shall be made out of funds transferred in accordance with the agreed Order (see Note 8 B, item 6, to the condensed financial statements).

2. On June 30, 2008, a motion for the approval of an action as a class action suit against the Bank, Bank Hapoalim and Bank Leumi, was submitted to the Tel Aviv District Court. The Plaintiffs' claim was that, since the end of the 1990's and possibly even earlier, the three defendant banks created a cartel coordinating the prices of commissions charged to their customers. The Plaintiffs further claimed that the banks have created an unlawful restrictive business practice regarding the rates of the various commissions charged to customers. As alleged by the Plaintiffs, as a result of the cartel, the price paid by the public is higher than the price that would have been paid had competition not been prevented by the cartel.

An overall damage for all members of the group was estimated at NIS 3.5 billion. The Bank's share in the claimed amount was 22% (namely an amount of approx. NIS 770 million).

The District Court approved a compromise agreement in the case on May 31, 2015.

The payment to be made in accordance with the compromise arrangement shall be made out of funds deposited in accordance with the agreed Order (see Note 8 B, item 6, to the condensed financial statements).

For details regarding the Court ruling of March 5, 2015, according to which the motion for approval of a class action against the Bank and against MDB had been dismissed, regarding an appeal submitted against the said ruling, and a verdict, with consent of the parties, given by the Supreme Court on June 24, 2015, which dismissed the appeal see Note 8 B, item 4.8 to the condensed financial statements.

For details regarding a motion for approval of a suit as a class action suit, in respect of which the Court had ruled that the Claimant has to provide a financial guarantee (not yet deposited), otherwise, the motion for approval would be dismissed, see Note 8 B, item 4.13 to the condensed financial statements.

## PROCEEDINGS REGARDING AUTHORITIES

1. For details regarding various proceedings conducted by the Antitrust Commissioner and the Antitrust Tribunal concerning the Group's activities in the credit card field, see Note 34 B 1 and 2, to the financial statements as of December 31, 2014 (pp. 525-527) and Note 16 to the condensed financial statements.
2. For details regarding the decision of the Antitrust Commissioner, given under Section 43(a)(1) of the Antitrust Law, 1988, according to which the Commissioner states that binding arrangements had existed between the Bank, Bank Hapoalim, Bank Leumi, Mizrahi-Tefahot Bank and the First International Bank ("FIBI") regarding the communication of information, and for details regarding an agreed Order, for the conclusion of the process, that had been approved by the Antitrust Tribunal, see Note 19 C 14 to the financial statements as of December 31, 2014 (p. 475), and Note 8 B item 6 to the condensed financial statements.
3. For details regarding the terms determined by the Supervisor of Banks and the Antitrust Commissioner in their approval granted to the agreement between the Bank and FIBI Holdings in the matter of the Bank's holdings in FIBI, see Note 6 D (1) to the financial statements as of December 31, 2014 (pp. 416-417).
4. For details regarding the transfer of the investigation file to the State Attorney Office and the notice by the State Attorney according to which it is considering the filing of an indictment against ICC, subject to a prior hearing, see Note 34 C to the financial statements as of December 31, 2014 (p. 528) and Note 16 B (2) to the condensed financial statements.
5. For details regarding the agreement between the Government of Switzerland and the U.S. Department of Justice and its possible implications on IDB (Swiss) Bank, see Note 8 b to the condensed financial statements, item 7.
6. For details regarding the audit in the matter of exposure to risks involved in the activity of foreign residents, and in the matter of the audit in respect of U.S. customers in accordance with the requirements of the Supervisor of Banks, see "Exposure to cross-border risks in respect of the activities of foreign resident costumers".
7. For details regarding an audit by the Bank of Israel in Discount Bank in the matter of prohibition of money laundering, see "Compliance risks" under "Exposure to risks and risk management", above.

For additional details, see the 2014 Annual Report (p. 265).

## ISSUES REGARDING CORPORATE GOVERNANCE

### THE INTERNAL AUDIT IN THE GROUP

Details regarding the internal audit in the Group, including the professional standards according to which the internal audit operates, the annual audit work programs and the considerations at its basis were included in the 2014 Annual Report (pp. 269-272).

**Updates.** During the second quarter of 2015 the following periodic reports were submitted and discussed:

- The annual report on the activities of the internal audit in 2014 was submitted on March 9, 2015, and discussed by the Audit Committee on March 15, 2015 and by the Board of Directors on May 4, 2015;
- The quarterly report on the activities of the internal audit in the first quarter of 2015 was submitted on April 13, 2015, and discussed by the Audit Committee on April 28, 2015;
- The report on the activities of the internal audit in the first half of 2015 was submitted on August 6, 2015 and not yet discussed in the Audit Committee.

## INVOLVEMENT WITH AND CONTRIBUTION TO THE COMMUNITY

Since its formation, Israel Discount Bank has been active in community affairs, having an overall management philosophy, according to which activities beneficial to the community form part of a business, social and cultural obligation. The social work and involvement in the community was carried out by the Bank through "Lema'an" Project, donations and sponsorships.

### "LEMA'AN" PROJECT – DISCOUNT EMPLOYEES FOR THE COMMUNITY

The varied activity continued in the second quarter of 2015, while focusing on voluntary activities within the framework of various associations active among a wide range of populations in risk and distress situations. The following projects conducted in the second quarter of 2015 deserve special mention:

**Activity towards to the coming holidays.** Voluntary activity has taken place at the various volunteer centers around the country, focusing on the coming Passover Holiday, Israel's Independence day and the Shavuot Holiday.

**Volunteering of the Bank's senior forum at the food distribution center** at Tel Giborim in Tel Aviv, operating within the framework of the Association for Advancement of Education in Jaffa. As part of this activity, forum members packed some 150 food parcels for families in need, towards the coming Passover Holiday.

### ARTS

**Guided tours.** Guided tours of the Bank's art collection, are conducted on Friday mornings at the Discount Tower. Some 10 guided tours of the Bank's art collection were conducted in the second quarter, in which some 250 visitors participated, guests of Private banking, branch customers and art-lover groups.

**Stage for the Artist.** On April 1, 2015, within the framework of "Stage for the Artist", an exhibition of the works of Clem\$, a pop art artist, was opened at the Dizengoff North Branch. The Head of the Banking Division and many other guests participated in the event.

**Lending of works from the collection of the Bank.** A work by the artist Ron Amir, belonging to the Discount Bank collection, was lent to the exhibition "With us it is not like with them" at the David Yellin College in Jerusalem. Five works of art of the artists: Assaf Evron, Igaël Tumarkin, Talia Keinan, Asher Yossi and Pavel Wolberg, all of the Discount Bank collection, were given on loan to the "Coverage" exhibition at the Kupferman House in Kibbutz Lohamei HaGetaot. The video-art installation "Dancing for Maya" of the artist Sigalit Landau, and the work "Tel Aviv" of the artist David Reeb, were given on loan to the "The Last Sea – Israeli Art and the Sea" exhibition at the Ashdod Museum.

### SPONSORSHIPS

Sponsorships were granted during the second quarter of 2015 to activities in various fields. Especially noted are the following sponsorships:

**The Fourth Commercial Real Estate Convention.** Sponsorship of the convention held at the Habima Theatre on April 29, and which, among other things, discussed the situation in the commercial real estate market, sources of finance, "green" construction, etc.

**The Seventh National Energy Convention.** Sponsorship of the convention held on May 26, in Tel Aviv, in the presence of the Minister for National Infrastructure, Energy and Water Resources, and heads of the gas and energy sector in Israel.

**Gala event of the Educating for Excellence Association.** The Association acts towards reducing social gaps in Israeli society. The event was held on May 29, at the Habima Theatre with the purpose of raising funds for the activities of the Association.

**The Economic Convention for French Jews in Israel.** Sponsorship of the "Blanc Blue TLV 2015" Convention, held on May 31, at the Tel Aviv Harbor.

**Coverage Exhibition.** Sponsorship of the Exhibition held at the Kupferman Collection at the Kibbutz Lohamei HaGetaot, in which were presented works of art from the Discount Bank collection.

**"Credit Point" Exhibition. Sponsorship of the Exhibition, the income of which was intended to support the activities of "The Spirit of Israel " .** The Exhibition was opened at the Herzlilnblum Museum, in the presence of the Bank's President & CEO and other senior figures in the Israeli economy.

**A Night of Philosophy and Art.** Sponsorship of events held at several centers in Tel Aviv within the framework of "A Night of Philosophy and Art" initiated by the Institut Francais on the night of May 28, with the participation of French speaking public and admirers of Francophone culture.

## "HERZELILINBLUM" – BANKING AND TEL AVIV NOSTALGIA MUSEUM

**Tours.** About 3,040 visitors toured the Museum during the second quarter, within the framework of some 155 tours and seminars conducted in the Museum for children, students, servicemen and adults. Out of the total tours, 70 tours were conducted for 1,500 students, and 61 tours were conducted for some 900 senior citizens.

**Various events at the Museum.** During the second quarter, 14 events for commercial companies and for the Bank's customers were held at the museum as well as organized tours for groups from business entities and work places. The following events may be mentioned, among others:

**Seminar in the matter of the common swift,** which nestle in the widow shutters of the Museum. 120 persons took part in the seminar, which included a direct broadcast from the nests of the common swifts.

**Holocaust remembrance day event.** Noting the work of Ms. Didi Ross, who was one of the adorned women in the exhibition "Adorned".

**Philosophy and Art Evening.** Event held by the French Cultural Attaché.

**Convention of the "Jasmine" Association,** for promoting entrepreneurship and business for Jewish and Arab women, in which some thirty women participated.

**The Spirit of Israel Association.** A sales event within the framework of the "Credit point" Exhibition.

**Excelling students.** An event for Excelling students "Excel-60", with the participation of the Bank's President & CEO.

**"Heroics – Breaking through for 80 years" Exhibition.** The exhibition presents the activity of Discount Bank since its establishment in 1935, a period during which the Bank was a central partner in the development of the economy and contributed a great deal to its shaping.

Over an axis of eight decades, the exhibition presents break through events in many fields, in which the Bank left its marking on the national economy and on Israeli society. The contribution of Discount Bank to society and the country was reflected in events, such as: the establishment of settlements in Galilee, the transportation of food and arms during the War of Independence through ships, bringing new immigrants from Egypt (among whom was Eli Cohen – our man in Damascus), realization of the Israeli hi-tech vision and unique technological developments.

By means of photographs, rare documents and unique artifacts, some of which have never been exposed until now, the exhibition presents to the visitor a succession of events as individuals and as a society.

The opening event of the exhibition was held at the Museum on July 2, 2015, with the participation of over 200 guests. Honoring the event were the founding family, Recanati, the Bank's Management, the President & CEO and the Chairman of the Bank, former members of Management and senior retirees, Mrs. Nadia Cohen, widow of Eli Cohen, and many others.

## "THE MARCH OF THE LIVING"

In April 2015, a delegation of Discount Bank employees participated, for the thirteenth time, in the "March of the Living" from Auschwitz to Birkenau that takes place every year on the Memorial Day for the Holocaust and Heroism. The delegation numbered 50 of the Bank's staff and ICC's staff. This continued a tradition started on 2003, of participation of a Discount Group delegation in the "March of the Living", the Bank and the Employee Union participating in the cost thereof.

## "MAALA" RATING FOR 2015

In June 2015, "Maala" published its rating for 2015. The Bank has been rated in the Platinum Plus category (distinguish companies with an absolute score of over 90). The rating is based on criteria detailed in six central areas of corporate responsibility: environmental protection, business ethics, human rights and work environment, involvement with the community, corporate governance and social environmental reporting. The rating by Maala covers the largest public and private corporations operating in the market, and allows them to be included in the Maala rating and in the Maala Index on the Tel Aviv Stock Exchange.

## TRANSACTIONS WITH INTERESTED PARTIES

The general meeting of shareholders held on March 31, 2015, approved the engagement of the Bank for the purchase of an insurance policy covering Directors' and other Officers' liability, including the President & CEO and the Internal Auditor, all as detailed in the immediate reports dated February 23, and March 31, 2015 (Ref Nos. 2015-01-036967 and 2015-01-070051, respectively) the information included therein regarding this matter is presented herein by way of reference. See also Note 19C (6) (k) to the financial statements as of December 31, 2014, (p. 464) and Note 19 to the condensed financial statements, below.

## CONTROLS AND PROCEDURES

### DISCLOSURE CONTROLS AND PROCEDURES

The Bank's President & CEO and its Chief Accounting Officer have evaluated in conjunction with the Bank's Management, the efficiency of the controls and procedures relating to disclosure at the Bank as of the end of the reporting period. Based on this evaluation, the President & CEO and Chief Accounting Officer have reached the conclusion that as of the end this period, the controls and procedures relating to disclosure at the Bank operate efficiently in order to record, process, summarize and report the information that the Bank is required to disclose in its quarterly report, in accordance with the directives of the Supervisor of Banks in the matter of reporting to the public and at such date indicated therein.

### CHANGES IN INTERNAL CONTROL

During the second quarter of 2015, no change has occurred in the Bank's internal control over financial reporting, which materially affected, or is reasonably expected to materially affect, the Bank's internal control over financial reporting

## MISCALENIOUS

### REVIEW BY THE INDEPENDENT AUDITORS

In their review report of the interim consolidated condensed unaudited financial statements for the three and six months period ended on June 30, 2015, the independent auditors drew attention to Note 8 B items 4.10 and 5 regarding requests to approve certain actions and with regard to other claims as a class action suits against the Bank and investee companies and to that stated in Note 16 b (2) with respect to the notice given by the State Attorney Office, according to which the State Attorney is considering the filing of an indictment against ICC. The said Note stated, inter alia, that at this stage it is not possible to assess the results of the proceedings that would be instituted, if at all, and their consequences on ICC.

## BOARD OF DIRECTORS AND MANAGEMENT

### MEETINGS OF THE BOARD OF DIRECTORS AND ITS COMMITTEES

In the first half of 2015, the Board of Directors held 11 meetings. In addition, 41 meetings of committees of the Board of Directors were held.

August 19, 2015

Dr. Yossi Bachar  
Chairman of  
the Board of Directors

Lilach Asher-Topilsky  
President &  
Chief Executive Officer

## ANNEX TO THE REPORT OF THE BOARD OF DIRECTORS

### PART "A": ADDITIONAL DETAILS - SECURITIES PORTFOLIO

#### 1. AVAILABLE FOR SALE BONDS - DATA ACCORDING TO ECONOMIC SECTORS

Netherlands	171	175	4	-
Other*	152	149	-	3
<b>Total</b>	<b>1,496</b>	<b>1,508</b>	<b>19</b>	<b>7</b>

\* Fair value amounts lower than NIS 100 million per country.

## 2. HELD-TO-MATURITY BONDS - DATA ACCORDING TO ECONOMIC SECTORS

Following are details regarding the distribution of bonds in the held-to-maturity bonds portfolio according to economic sectors:

	June 30, 2015			
	Amortized cost	Fair value	Unrecognized gains from adjustment to fair value	Unrecognized losses from adjustment to fair value
In NIS millions				
<b>Non government bonds</b>				
Various sectors	66	66	-	-
Public and community services	*1,816	1,895	86	7
Financial services <sup>(1)</sup>	1,264	1,276	23	11
<b>Total non government bonds</b>	<b>3,146</b>	<b>3,237</b>	<b>109</b>	<b>18</b>
<b>Total Government bonds</b>	<b>3,768</b>	<b>4,126</b>	<b>358</b>	<b>-</b>
<b>Total bonds in the held-to-maturity portfolio</b>	<b>6,914</b>	<b>7,363</b>	<b>467</b>	<b>18</b>

(1) Following are details of Held-to-maturity bonds in the financial services sector:

Ginnie Mae	370	374	7	3
Freddie Mac	513	513	3	3
Fannie Mae	175	171	-	4
Other**	206	218	13	1
<b>Total financial services</b>	<b>1,264</b>	<b>1,276</b>	<b>23</b>	<b>11</b>

\*Most of this amount represents the investment of IDB New York in the U.S.A. municipal bonds. Of which, the three largest investments are in the amount of NIS 217-166 million, each, in municipal bonds of New York City, in bonds of the water corporation of New York city and in bonds of the state of New York.

\*\*In the said group there is no bond whose fair value exceeds NIS 91 million.

### 3. TRADING BONDS – DATA ACCORDING TO ECONOMIC SECTORS

Following are details regarding the distribution of bonds in the trading portfolio according to economic sectors:

	June 30, 2015			
	Amortized cost	Fair value	Unrecognized gains from adjustment to fair value	Unrecognized losses from adjustment to fair value
In NIS millions				
<b>Non government bonds</b>				
Various sectors <sup>(1)</sup>	89	87	-	2
Financial services	66	67	1	-
<b>Total non government bonds</b>	<b>155</b>	<b>154</b>	<b>1</b>	<b>2</b>
<b>Total government bonds</b>	<b>1,436</b>	<b>1,434</b>	<b>1</b>	<b>3</b>
<b>Total government Sponsored Enterprises (GSE) Agencies</b>	<b>792</b>	<b>792</b>	<b>-</b>	<b>-</b>
<b>Total bonds in the trading portfolio</b>	<b>2,383</b>	<b>2,380</b>	<b>2</b>	<b>5</b>

(1) There is no sector in the said group the fair value of investments in its related bonds exceeds NIS 34 million.

### 4. EXPOSURE TO COMMERCIAL MORTGAGE BACKED SECURITIES (CMBS)

IDB New York holds commercial mortgage backed securities (CMBS) with a total balance sheet exposure of NIS 57 million as of June 30, 2015, compared with NIS 64 million as of December 31, 2014, a decrease of 10.9%. These securities are classified to the financial services economic sector. The collateral pertaining to these securities is all located in the United States (for further details see the 2014 Annual Report, p. 305).

As of June 30, 2015, there was no impairment as regards the said securities.

## PART "B": TABLE RELATING THE DISCLOSURE REQUIREMENTS ACCORDING TO THE THIRD PILLAR TO THE DATA PRESENTED IN THE REPORT

With a view of grouping together the information required by the provisional instruction, banking corporations are required to include in the report a table relating the disclosure requirements stated in the instruction to the sections in the Directors' report or to the Notes to the financial statements in which the information required to be presented is included. The required information as above is reflected in the following table.

Table No.	Topic	Location*	Page No. in 2014 Annual Report	Page No. in this Report
Table 1	Scope of implementation	Basel II - The implementation in Israel of the Basel committee recommendations	138-142	69
Table 2	Capital structure – qualitative and quantitative disclosure	Capital resources Note 14(4) to the financial statements Internet document – parts "A" and "B"	41 423	
Table 3a	Capital adequacy - qualitative disclosure	Capital resources	37-41	22-24

## 2. CREDIT RISK IN RESPECT OF LEVERAGED FINANCE

Following are data regarding credit risk in respect of leveraged finance. The disclosure is focused on exposures, each of which exceeds NIS 50 million.

### The Bank's exposure to leveraged finance according to the economic sector:

Sector	Balance sheet credit as of	
	June 30, 2015	December 31, 2014
	In NIS millions	
Industry	340	919
Construction and real estate	820	806
Electricity and water	-	-
Commerce	362	349
Transportation and storage	214	134
Communications and computer services	89	282
Financial services	128	137
<b>Total</b>	<b>1,953</b>	<b>2,627</b>

Exposure to leveraged finance as of June 30, 2015 amounted to NIS 1,953 million, compared to NIS 2,627 million for December 31, 2014, a decrease of 25.7%.

The balance of exposure presented in the table above, is net of accounting write-offs in accordance with the directive regarding impaired debts. The off-balance sheet exposure in respect of leverage finance transactions as of June 30, 2015, amounted to NIS 473 million (December 31, 2014 – NIS 499 million).

## 3. DETAILS OF THE INVESTMENT IN GOVERNMENT BONDS

Note 2 A to the condensed financial statements includes, among other things, details regarding investments in government bonds included in the held to maturity portfolio, the available-for-sale portfolio and the trading portfolio, divided into bonds and loans of the Government of Israel and bonds and loans of foreign governments.

### Following are details divided by governments with respect to the total securities portfolio:

	June 30, 2015		December 31, 2014	
	Book value	Fair value <sup>(1)</sup>	Book value	Fair value <sup>(1)</sup>
	In NIS millions			
Of the Israeli Government	19,785	20,143	19,391	19,755
U.S. government	1,572	1,572	1,166	1,166
Other governments	315	<sup>(2)</sup> 315	391	<sup>(2)</sup> 391
<b>Total</b>	<b>21,672</b>	<b>22,030</b>	<b>20,948</b>	<b>21,312</b>

Footnotes:

(1) Fair value data based on market prices, does not necessarily reflect the price that may be obtained on the sale of securities in large volumes.

(2) Among the other governments, there is not one government the investment in bonds and loans thereof exceeds NIS 76 million as of June 31, 2015 (NIS 115 million as of December 31, 2014).

Footnotes:

- (1) The data is presented after the effect of hedge derivative instruments.
- (2) Based on monthly opening balances, except for the non-linked shekels segment in respect of which the average balances are based on daily data.
- (3) Before deduction of the average stated balance of allowances for credit losses. Including impaired debts that do not accrue interest income.
- (4) From the average balance of trading bonds and of available-for-sale bonds was deducted (added) the average balance of non-realized gains (losses) from adjustment to fair value of trading bonds as well as gains (losses) in respect of available-for-sale bonds included in shareholders' equity as part of accumulated other comprehensive income, in the item "Adjustments in respect of available-for-sale securities according to fair value" in the amount of NIS 5 million and NIS 592 million, respectively; 2014 – NIS 6 million and NIS 362 million respectively.
- (5) Including derivative instruments and other assets that do not carry interest and net of allowance for credit losses.
- (6) Including derivative instruments.
- (7) Net return – net interest income divided by total interest bearing assets.
- (8) The quantitative impact has been computed by multiplying the interest margin by the change in the average balance between the periods. The price impact has been calculated by multiplying the average balance for the corresponding period last year by the change in the interest margin between the periods.
- (9) Interest income on other assets and interest expenses on other liabilities include income tax interest income and expenses, respectively.
- (10) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of employee rights, See Note 1 E (1) and (2) to the condensed financial statements.
- (11) An amount lower than NIS 1 million.

General notes:

- Data by period in this table represent the present value of future cash flows for each financial instrument, discounted at such interest rate as to discount them to the fair value included in the financial instrument, in a manner consistent with assumptions used in calculation of the fair value of said financial instrument. For details regarding the assumptions used in calculating the fair value of financial instruments, see "Management and measurement of market risks" under "Exposure to risks and risk management".
- The internal rate of return is the interest rate used to discount the expected cash flows from a financial instrument to its fair value, as included in Note 10 a.
- The average effective duration of a group of financial instruments is an approximation of the change, in percentage, in fair value of said group of financial instruments resulting from a small change (0.1% increase) in the internal rate of return of each of the financial instruments.
- Full data as the exposure to changes in interest rates in each segment according to the various balance sheet items, is available on request.

General notes:

- Data by period in this table represent the present value of future cash flows for each financial instrument, discounted at such interest rate as to discount them to the fair value included in the financial instrument, in a manner consistent with assumptions used in calculation of the fair value of said financial instrument. For details regarding the assumptions used in calculating the fair value of financial instruments, see "Management and measurement of market risks" under "Exposure to risks and risk management".
- The internal rate of return is the interest rate used to discount the expected cash flows from a financial instrument to its fair value, as included in Note 10 a.
- The average effective duration of a group of financial instruments is an approximation of the change, in percentage, in fair value of said group of financial instruments resulting from a small change (0.1% increase) in the internal rate of return of each of the financial instruments.
- Full data as the exposure to changes in interest rates in each segment according to the various balance sheet items, is available on request.

## SCHEDULE "C" – EXPOSURE TO FOREIGN COUNTRIES – CONSOLIDATED<sup>(1)</sup>

### A. Information regarding the total exposure to foreign countries and to countries where the total exposure to each country amounts to over 1% of total consolidated assets or over 20% of the Bank's equity, the lower of the two

Jun 30, 2015

Balance sheet exposure<sup>(2)</sup>

Across the border balance sheet exposure

The Country	To governments <sup>(4)</sup>	To banks	To others
	In NIS millions		
United States	2,782	3,498	444

- (3) Credit risk in respect of off-balance sheet financial instruments, as calculated for single borrower liability limitation, excluding in respect of derivative instruments.
- (4) Including in respect of off-balance sheet credit instruments (stated in the balance sheet under "Other liabilities").
- (5) Balance sheet and off-balance sheet credit risk, which is impaired, substandard or under special mention, including in respect of housing loans, in respect of which an allowance is made according to the extent of arrears, and housing loans in respect of which no allowance is made according to the extent of arrears, and are in arrears of 90 days or more.
- (6) Including acquisition groups in an amount of NIS 480 millions.
- (7) Including mortgage backed securities in the amount of NIS 3,976 millions, issued by GNMA and in the amount of NIS 4,636 millions, issued by FNMA and FHLMC.
- (8) Including mainly municipal bonds and bonds of states in the U.S.
- (9) Including credit facilities guaranteed by banks outside the Group in the amount of NIS 4,798 million.
- (10) Credit risk, the credit rating thereof at date of reporting matches the credit rating for the granting of new credit in accordance with the Bank's policy of the Bank.
- (11) Reclassified – improving classification in different sectors.

## CERTIFICATION

I, Lilach Asher-Topilsky, certify that:

1. I have reviewed the quarterly report of Israel Discount Bank Ltd. (hereinafter: "the Bank") as of June 30, 2015 (hereinafter: "the Report").
2. Based on my knowledge, the Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made therein, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the Report.
3. Based on my knowledge, the interim financial statements, and other financial information included in the Report, fairly present in all material respects the financial condition, results of operations (including the comprehensive income), changes in equity and cash flows of the Bank as of, and for, the periods presented in this report.
4. Other officers of the Bank providing this certification and I are responsible for establishing and maintaining disclosure controls and procedures and to the internal control of the Bank over financial reporting (as defined in the public reporting instructions regarding "Directors' Report"), and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Bank, including its consolidated subsidiaries, is made known to us by others within the Bank and those entities, particularly during the period of preparing this report;
  - (b) We established such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accepted accounting principles and directives and guidelines of the Supervisor of Banks;
  - (c) Evaluated the effectiveness of the Bank's disclosure controls and procedures and presented in the Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the Report based on such evaluation;
  - (d) Disclosed in the Report any change in the Bank's internal control over financial reporting that occurred during this quarter that has materially affected, or is reasonably likely to materially affect, the Bank's internal control over financial reporting; and
5. The other officers of the Bank providing this certification and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Bank's Auditors, to the Board of Directors and to the Audit Committee of the Board of Directors:
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Bank's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Bank's internal control over financial reporting.

Nothing in that stated above derogates my responsibility or the responsibility of any other person under any law.

Ms. Lilach Asher-Topilsky  
President & Chief Executive Officer

August 19, 2015

## CERTIFICATION

I, Joseph Beressi, certify that:

1. I have reviewed the quarterly report of Israel Discount Bank Ltd. (hereinafter: "the Bank") as of June 30, 2015 (hereinafter: "the Report").
2. Based on my knowledge, the Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made therein, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the Report.
3. Based on my knowledge, the interim financial statements, and other financial information included in the Report, fairly present in all material respects the financial condition, results of operations (including the comprehensive income), changes in equity and cash flows of the Bank as of, and for, the periods presented in this report.
4. Other officers of the Bank providing this certification and I are responsible for establishing and maintaining disclosure controls and procedures and to the internal control of the Bank over financial reporting (as defined in the public reporting instructions regarding "Directors' Report"), and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Bank, including its consolidated subsidiaries, is made known to us by others within the Bank and those entities, particularly during the period of preparing this report;
  - (b) We established such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accepted accounting principles and directives and guidelines of the Supervisor of Banks;
  - (c) Evaluated the effectiveness of the Bank's disclosure controls and procedures and presented in the Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the Report based on such evaluation;
  - (d) Disclosed in the Report any change in the Bank's internal control over financial reporting that occurred during this quarter that has materially affected, or is reasonably likely to materially affect, the Bank's internal control over financial reporting; and
5. The other officers of the Bank providing this certification and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Bank's Auditors, to the Board of Directors and to the Audit Committee of the Board of Directors:
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Bank's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Bank's internal control over financial reporting.

Nothing in that stated above derogates my responsibility or the responsibility of any other person under any law.

Joseph Beressi  
Senior Executive Vice President  
Chief Accountant

## REVIEW REPORT OF THE INDEPENDENT AUDITORS TO THE SHAREHOLDERS OF ISRAEL DISCOUNT BANK LTD.

### INTRODUCTION

We have reviewed the accompanying financial information of Israel Discount Bank Ltd. and its subsidiaries (hereinafter: "the Bank") comprising of the condensed consolidated interim balance sheet as at June 30, 2015 and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the three and six months periods then ended. The Board of Directors and management are responsible for the preparation and presentation of the financial data for these interim periods in accordance with Israeli GAAP regarding financial reporting for this interim period and in accordance with the guidelines and directives of the Supervisor of Banks. Our responsibility is to express a conclusion on the financial information for these interim periods based on our review.

### SCOPE OF REVIEW

We have conducted our review in accordance with Standard on Review Engagements 1, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" of the Institute of Certified Public Accountants in Israel, and a review standard applied in the review of banking institutions according to the guidelines and directives of the Supervisor of Banks. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in Israel and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial information was not prepared, in all material respects, in accordance with Israeli GAAP regarding financial reporting for interim periods and in accordance with the instructions and directives of the Supervisor of Banks.

### EMPHASIS OF A MATTER

Without qualifying our above conclusion, we call attention to the Note 8 B items 4.10 and 5 concerning motion to approve certain lawsuits as class action suits and with regard to other claims against the Bank and investee companies and to that stated in Note 16 b (2) with respect to the notice given by the State Attorney Office, according to which the State Attorney is considering the filing of an indictment against ICC. The said Note stated, inter alia, that at this stage it is not possible to assess the results of the proceedings that would be instituted, if at all, and their consequences on ICC.

## 1. ACCOUNTING POLICIES

**A. GENERAL.** Israel Discount Bank Ltd. (hereinafter: "the Bank") is a banking corporation incorporated in Israel. The Bank's condensed consolidated interim financial statements (hereinafter: "the interim financial statements") as of June 30, 2015, include the financial statements of the Bank and of its subsidiaries (hereinafter: "the Group") as well as the rights of the Group in affiliated companies. The interim financial statements are prepared in accordance with Israeli GAAP regarding financial reporting for interim periods and in accordance with directives and guidelines of the Supervisor of Banks with respect to the "quarterly report of a banking corporation", and they do not include all the information required to be presented in full annual financial statements. These financial statements should be read in conjunction with the annual financial statements as of December 31, 2014 and the accompanying notes.

The interim financial statements have been prepared on the basis of the same accounting principles used for the preparation of the audited financial statements as of December 31, 2014 except as detailed in item E hereunder.

**B. APPROVAL OF THE FINANCIAL STATEMENTS**

The interim financial statements were approved for publication by the Bank's Board of Directors on August 19, 2015.

**C. PRINCIPLES OF FINANCIAL REPORTING**

The interim financial statements have been prepared according to the following principles:

- Issues within the core banking business - in accordance with the directives and guidelines of the Supervisor of Banks and in accordance with generally accepted accounting principles applying to banks in the United States that had been adopted within the framework of the public reporting directives of the Supervisor of Banks;
- Issues outside the core banking business - in accordance with generally accepted accounting principles in Israel and in accordance with certain International Financial Reporting Standards (IFRS) and the interpretations of the International Financial Reporting Interpretation Committee (IFRIC) relating thereto, all according to the directives and guidelines of the Supervisor of Banks on such matters.

The international standards are being applied in accordance with the principles detailed in the financial statements as of December 31, 2014.

**D. USE OF ASSESSMENTS AND DISCRETION**

In preparing the interim financial statements in accordance with Israeli GAAP and in accordance with directives and guidelines of the Supervisor of Banks, the Management of the Bank and of the investee companies are required to use discretion and apply assessments, evaluations and assumptions that affect the implementation of the accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from such assessments.

Discretion of Management in applying the accounting policy and the principal assumptions used in assessments involving uncertainty, are consistent with those applied in the preparation of the annual financial statements.

**E. INITIAL IMPLEMENTATION OF ACCOUNTING STANDARDS, UPDATES OF ACCOUNTING STANDARDS AND DIRECTIVES OF THE SUPERVISOR OF BANKS**

Starting with the period beginning January 1, 2015, the Bank implements accounting standards and instructions as detailed hereunder:

- (1) Reporting according to U.S. generally accepted accounting principles as regards employee rights (see item 1 below);
- (2) Guidelines in the matter of capitalization of in-house software development costs (see item 2 below);
- (3) Reporting according to U.S. generally accepted accounting principles in the matter of Distinguishing Liabilities from Equity (see item 4 below).

Following is a description of the changes in the accounting policy adopted in these interim financial statements and a description of the manner and effect of the initial implementation, if at all:

**1. Adoption of U.S. accounting principles as regards employee rights**

- (a) Essence of the new instructions.** The Supervisor of Banks issued on April 10, 2014, a circular in this matter. The circular updates the recognition, measurement and disclosure requirements in the matter of employee benefits, included in the reporting to public instructions, in accordance with accounting principles accepted by U.S. banks. The circular states that the amendments to the reporting to public instructions shall apply as from January 1, 2015, whereupon its initial implementation, a bank shall retroactively restate the comparative data for periods beginning on January 1, 2013 and thereafter, in order to comply with the provisions of the said principles.

## 1. ACCOUNTING POLICIES (CONTINUED)

A Q&A file on the subject was published on January 12, 2015, which, among other things, includes examples for the manner treatment of benefits prevalent in the banking industry, in accordance with generally accepted accounting principles in the U.S..

Furthermore, an amendment to the Reporting to the Public Directives was published on January 11, 2015, regarding "Employee rights – discount rate, disclosure format and transitional instructions for the initial implementation" ("the circular"). The circular updates the disclosure requirements in respect of employee rights and in respect of share based payments in accordance with Generally Accepted Accounting Principles at U.S. banks.

The circular notes that the Supervisor of Banks has reached the conclusion that a deep market for high quality corporate bonds does not exist in Israel. Accordingly, the discount rate in respect of employee benefits shall be computed on the basis of the return on Israeli government bonds with the addition of an average spread on AA and above (international) rating of corporate bonds at date of reporting. For practical reasons, it has been determined that the spread shall be fixed according to the average difference between the rates of return to maturity, according to periods to maturity, on corporate bonds in the U.S. with an AA and above (international) rating, and the rates of return to maturity, for the same periods to maturity, on U.S. government bonds, and all at date of reporting. A bank, which is of the opinion that changes in the spread computed as above in a certain period, derive from exceptional fluctuations in the market, in a manner that the resulting spreads based upon them are no longer suitable for use as the discount rate, as above, shall refer to the Supervisor of Banks for preliminary guidance. In accordance with the circular, examples of such situations may include, among other things, changes in respect of which, the resulting spread shall be higher than the spread on AA (local) rating of corporate bonds in Israel. As stated, a banking corporation is required to restate retroactively the comparative data for periods beginning on January 1, 2013 onwards. As to the accounting treatment of actuarial profits/losses recognized in other comprehensive income due to changes in the discount rates, it is determined that:

- The actuarial loss as of January 1, 2013, deriving from the difference between the discount rate used to compute the CPI-linked provisions for employee rights, determined in accordance with the provisional instruction of the Reporting to the Public Directives (4%), and the discount rates as of that date for CPI-linked liabilities to employees, as determined according to the new rules, as stated above (hereinafter: "the loss"), shall be included in accumulated other comprehensive income;
- Actuarial profits recognized as from January 1, 2013, and thereafter, derived from current changes in the discount rates during the reported year, shall be recognized in accumulated other comprehensive income, and shall reduce the above stated recorded balance of loss until its nullification;
- Actuarial losses derived from current changes in the discount rates during the reported year, and actuarial profits derived from current changes in the discount rates during the reported year, recognized after nullification of the recorded balance of loss, as above, shall be amortized by the "straight line" method over the remaining average period of service of the employees expected to enjoy benefits under the plan, except in certain exceptional cases;
- Other actuarial profits and losses (which are not the result of changes in the rate of discount) as at January 1, 2013, and for periods thereafter, shall be included in accumulated other comprehensive income and amortized by the "straight line" method over the remaining average period of service of the employees expected to enjoy benefits under the plan, except in certain exceptional cases;
- The effect of the initial implementation on other employee benefits, where all changes therein are recognized in the statement of income on a current basis (such as jubilee awards), shall be recognized in retained earnings.

- (b) Transitional instructions in the matter of the effect on capital adequacy.** Despite the material adverse effect on the Bank's equity capital, for the purpose of computing the equity requirements in accordance with the Basel III rules, in accordance with the transitional instructions determined in Proper Conduct of Banking Directive No. 299, the balance of accumulated other comprehensive income or loss stemming from adjustments in respect of employee benefits (including losses recognized directly in the balance of retained earnings as of January 1, 2013), is not taken immediately into account but is subject to the transitional instructions, so that its effect is spread by rates of 40% as from January 1, 2015, and by equal rates of 20% per year as from January 1, 2016 and until the implementation in full of the instruction as from January 1, 2018.

## 1. ACCOUNTING POLICIES (CONTINUED)

**(c) Implementation of the new policy at the Bank.** The following principal subjects were included in the said framework:

1. A process was defined for the determination of the discount rate on the basis of Israeli CPI linked government bonds, in accordance with the average period to maturity of the estimated indebtedness, with the addition of an average spread of U.S. corporate bonds having a rating of AA and above. The process includes aspects of control of the appropriateness of choosing the bonds, validation of the resultant discount rate and examination of the reasonableness of changes in the discount rate.
2. A mechanism was determined for defining the forecasted return on assets of the plan. The parameters used in determining the forecasted return are mostly the actual and past composition of the plan's assets, possible changes in the composition of the assets in accordance with the investment policy, as defined, past yields of the fund, the yield of the assets and its weight in the total portfolio, after deduction of operating expenses and commissions. The mechanism also includes examination of the need for the updating of the forecasted return during the reported period.
3. A change was made in the method of measurement of the Bank's liability in respect of benefits to retirees in relation to the population of active employees, and the transition to computing the liability on the date on which it became certain. This, instead of a computation assuming retirement rates prior to the age of 67 and a pro-rata charge in accordance therewith.
4. A work process was defined for the treatment of actuarial profits and losses, differentiating in the framework thereof between:
  - The actuarial loss arising from the change in the discount rate as of January 1, 2013;
  - Actuarial profits that would arise from changes in the discount rate subsequent to the date of initial implementation;
  - Actuarial losses arising from changes in the discount rate and from other components subsequent to the date of initial implementation;
  - Actuarial profits/losses arising from the difference between the forecasted return on the plan's assets and the return actually earned.

The process includes reference to reasonableness of the resultant actuarial profit/loss, the accounting records, the mechanism for the amortization of the profits/losses and the determination of the amortization period.

**(d) The Bank's updated accounting policy**

- **Post retirement benefits – pension, severance pay and other benefits – defined benefits plans**
  - The Bank recognizes amounts relating to pension and severance plans and other post retirement plans on the basis of computations that include actuarial and other assumptions, including: discount rates, mortality rates, early retirement rates, forecasted long-term return rates on assets of the plan, remuneration increases and employee turnover;
  - The Bank reviews its assumptions on a periodic basis and updates these assumptions where required. As a general rule, the actuarial estimates are made once a year, unless material changes occur in the actuarial assumptions in the interim period, which materially impact the actuarial liabilities or the assets of the plan;
  - Changes in assumptions are in general recognized, subject to the instructions stated above, firstly in accumulated other comprehensive income, and are amortized to the statement of income in following periods;
  - The liability is accumulated over the relevant period determined in accordance with the rules detailed in item 715 of the codification;
  - The Bank implements the guidelines issued by the Supervisor of Banks with respect to internal control over the financial reporting process in the matter of employee rights, including with respect to examining the "liability in substance" of the Bank to grant its employees benefits comprising increased severance pay and/or early pension.
- **Post retirement benefits – defined deposits plans**
  - A defined deposit plan is a plan according to which the Bank deposits fixed amounts with a third party, thereby avoiding any legal or inferred liability for additional payments. The Bank's commitment to deposit in the defined deposit plan, are recognized as an expense in the statement of income in the periods during which the employees have provided the relevant services.

## 1. ACCOUNTING POLICIES (CONTINUED)

- **Other long-term benefits to active employees: long-service (jubilee) awards**
  - The liability accrues over the period entitling to the benefit;
  - For the purpose of computing the liability, the rates of discount and actuarial assumptions are taken into consideration;
  - The whole cost component of the benefit for the period, including actuarial profits and losses, are recognized immediately in the statement of income.
- **Absence from work entitling compensation – vacation and sick leave**
  - The liability in respect of vacation pay is measured on a current basis, without the use of discount rates and actuarial assumptions;
  - The Bank does not accrue a liability for sick-leave that may materialize during the employee's current service.
- **Retirement plan 2014.** Within the Bank's strategic plan for the years 2015-2019, approved in August 2014, employees have been offered early retirement plan which, in view of its characteristics and circumstances, comprised a structural change. The costs that have been involved in its implementation were handled accordingly.

**(e) The accounting policy applied in the past**

- In accordance with instructions of the Supervisor of Banks, the rate of discount used in the actuarial computations was 4%;
- Actuarial profits and losses were immediately recognized in the statement of income;
- In accordance with guidelines of the Supervisor of Banks regarding internal control over financial reporting in the matter of employee rights, the liability for severance pay had been presented either in the amount of the liability as computed on an actuarial basis, taking into account the additional cost that might arise in respect of these benefits, as stated, or in the amount of the liability computed as a multiplication of the monthly salary of the employee by the number of years of service, in accordance with Opinion No. 20 of the Institute of Certified Public Accountants in Israel, which ever was the higher amount;
- Additional information regarding the accounting policy to be applied by the Bank in the matter of employee rights is presented in Notes 1 and 16 to the financial statements as of December 31, 2014.

**(f) Disclosure requirements in interim financial statements in the year 2015**

It is required to include in the report for the first quarter of 2015, extensive disclosure, in the format of the annual report, in addition to the disclosure required in a regular quarterly report, in respect of restated prior periods' data, mainly:

- Income statement amounts in respect of the years 2013 and 2014;
- Outstanding balance sheet amounts and assumptions used as of December 31, 2013 and December 31, 2014.

Notwithstanding the above, a bank is permitted not to include the required disclosure regarding the assets of a plan in accordance with the Reporting to the Public Directives as of December 31, 2013, and the required disclosure as to the "movement in fair value of assets of the plan, which are measured on the basis of significant unobservable inputs (level 3)" for the years 2013 and 2014.

Furthermore, for the purpose of presentation of the comparative data for the years 2013 and 2014, a bank is permitted, for practical reasons, to use the actual rates of return in those years instead of determining forecasted rates of return.

In accordance with the transitional provisions included in the circular, the said disclosure would not be updated in the reports for the second and third quarters of 2015. The disclosure required in these quarters is in accordance with the disclosure format of the quarterly report, together with a concise disclosure in the Note on accounting policy regarding the impact of the initial implementation of the new rules with reference to the first quarter report.

In this respect, the Supervisor of Banks clarified that that where a remeasurement is performed in the quarter (see below), it is required to present a disclosure in accordance with the annual format, mutatis mutandis.

Details regarding the effect of the initial implementation of the new rules are presented in item 3 below.

## 1. ACCOUNTING POLICIES (CONTINUED)

### (g) Remeasurement and actuarial report for interim periods

The Supervisor of Banks issued in January 2015, an FAQ file, according to which, among other things, in a quarter in which changes have occurred that materially affected the assets of the plan or the liability in respect of the benefit, it is required to remeasure the assets of the plan and/or the liability in respect of the benefit. Accordingly, in view of the material changes taking place in the discounting rates, the Bank performed in the second quarter such a remeasurement of the liability in respect of the benefit.

### 2. Guidelines in the matter of capitalization of in-house software development costs.

The Bank implements International Accounting Standard No. 38 "Intangible assets" and the guidelines determined by "SOP 98-1 - Accounting for the cost of Computer Software Developed or Obtained for Internal Use".

Due to the accounting complexity involved in the process of capitalizing in-house software development costs, and in view of the materiality of the amounts of software costs capitalized, the Supervisor of Banks has determined guidelines for the Bank in the matter of capitalization of software costs, as follows:

- A minimum materiality level of between NIS 450 thousand and NIS 600 thousand, shall be determined for each software development project, in respect of which software development costs are capitalized. Any software development project, the total cost of which is lower than the determined materiality level, shall be recognized as an expense in the statement of income (the materiality thresholds determined by the Bank: minimum costs per project – NIS 600 thousand, minimum improvements and upgrading costs – NIS 450 thousand);
- The period of amortization of software development costs shall not exceed five years;
- Capitalization coefficients of lower than 1, shall be determined for hours worked, taking into consideration the potential for deviation in computing the hours worked and the lack of economic efficiency;
- The grade of employees whose employment costs are capitalized to assets shall be restricted, so that the uppermost grade would be that of a manager, demonstrably occupied for most of his time in actual development, is responsible for a small number of employees, and it is possible to accurately measure the number of hours actually invested by him in each development project;
- Costs, which are not attributed to a project according to specific reported hours, where the employee declares, on the basis of a daily report, that the costs were specifically invested in the project, shall be recognized as an expense.

In addition, the Supervisor has determined that a comprehensive examination shall be made regarding a possible impairment of each of the assets, the development of which had been completed, as well as each of the assets under development, indicating any possible sign of the signs for impairment as stated in the instructions and whether a provision for impairment should be recorded.

The change in the accounting policy in accordance with the said guidelines was implemented starting with the interim financial statements as of June 30, 2015, by way of retroactive implementation, with a restatement of the comparative data.

It is noted, that to the Bank's best knowledge, similar guidelines have been determined for other banking corporations in Israel.

Implementation of the requirements included in the guidelines, affected in the amount of NIS 87 million after the tax effect, reduction of the equity (as of December 31, 2014).

It is noted that as from January 1, 2015, the Bank implements the contents of the guidelines with respect to current projects – as regards the materiality threshold with respect to capitalization coefficients and with respect to the level of employees whose costs are capitalized.

Details regarding the effect of the initial implementation of the new rules are presented in item 3 below.

## 1. ACCOUNTING POLICIES (CONTINUED)

### 3. Effect of the initial Implementation of new rules as of June 30, 2014 and December 31, 2014 and for periods ended thereof

Following are details regarding the effect of the retroactive implementation of the instruction in the matter of employee rights and the instruction in the matter of capitalization of software development costs:

Note 1 G and Note 6 to the financial statements as of March 31, 2015, include additional details pertaining to the effect of the implementation of the new Directive in the matter of Employee rights.

- 4. Reporting according to U.S. generally accepted accounting principles in the matter of Distinguishing Liabilities from Equity.** On October 6, 2014 the Supervisor of Banks published an instruction in the matter of reporting according to U.S. generally accepted accounting principles regarding distinguishing liabilities from equity. This, in continuation to the policy of the Supervisor of Banks adopting, in cases of material issues, the financial reporting layout applying to banks in the United States. According to the instruction, it is required to apply the U.S. generally accepted accounting principles in the matter of classification of financial instruments as equity or liabilities, including hybrid instruments. For this purpose, it would be required to apply, among other things the presentation, measurement and disclosure principles determined within the framework of the following topics in the codification:
- Topic 480 regarding "Distinguishing Liabilities From Equity";
  - Topic 470-20 regarding "Debt with Conversion and Other Options"; and
  - Topic 505-30 regarding "Treasury stock".

In addition, in applying the differentiation between liabilities and capital, it is required to refer to the reporting to the public instructions as regards embedded instruments.

## 1. ACCOUNTING POLICIES (CONTINUED)

Concurrently, the Supervisor of Banks published an FQA file in this matter, within the framework of which, it has been clarified that existing debt instruments having a conditional conversion component into shares (which under the Basel II instructions is included in Common equity tier I, and according to the transitional instructions agrees with the definition of a hybrid capital instrument, or which is included as a regulatory capital component under the Basel III Instructions) are to be classified as a liability measured according to amortized cost, without separating the embedded derivative.

The Bank implements the said rules as from January 1, 2015.

The implementation of the instruction did not have material effect.

### F. NEW ACCOUNTING STANDARDS AND NEW DIRECTIVES OF THE SUPERVISOR OF BANKS IN THE PERIOD PRIOR TO THEIR IMPLEMENTATION

#### 1. Regulatory operating segments. An amendment to the reporting to the public instructions in the matter of regulatory operating segments was published on November 6, 2014.

The circular is intended to allow a banking corporation to report operating segment data in accordance with a uniform and comparable format, as determined by the Supervisor of Banks.

The main changes are:

- Additional requirement for disclosure of "regulatory operating segments" was added, in accordance with the definition of the Supervisor of Banks. The format of disclosure regarding regulatory operating segments refers to the following segments: private banking, households, one-man and small businesses, medium businesses, large businesses, institutional bodies and financial management;
- New definitions were added clarifying which customers are to be included in each segment;
- A new requirement was added for a separate disclosure of the "financial management" segment.

In addition, a FAQ file in the matter was distributed November 6, 2014. A draft update of the said file was tabled on July 23, 2015, for discussion by the Advisory Committee of Bank of Israel.

The circular determines that the disclosure in the matter of "operating segments according to Management's approach" shall be provided in accordance with Generally Accepted Accounting Principles at U.S. banks in the matter of operating segments (included in ASC 280), to the extent that a difference exists between Management's approach and operating segments according to guidelines of the Supervisor of Banks.

The new rules apply as from the 2015 financial statements and thereafter, as follows:

- The disclosure requirement in the 2015 statements shall apply to balance sheet data regarding supervisory operating segments, as defined in the new instructions. According to the new instructions, it is permitted not to provide disclosure of balance sheet comparative data for the supervisory operating segments, but to include comparative data in accordance with the Reporting to the Public Directives in effect prior to the letter taking effect. Furthermore, no disclosure is required for the financial management segment;
- Full disclosure according to the new rules is required as from the financial report for the first quarter of 2016, excluding disclosure of the financial management segment. The comparative data are to be adjusted retroactively. It is permitted to present in the financial statements for 2016 comparative data for one year only in respect of the Note regarding the supervisory operating segments. For the purpose of presentation of the comparative data it would be possible to rely on the classification of customers to supervisory operating segments as of January 1, 2016;
- Implementation in full of the guidelines of the circular is required as from the financial statements for the first quarter of 2017.

The Bank is of the opinion that the new instructions are not expected to have a material effect, save for the manner of presentation and disclosure.

## 1. ACCOUNTING POLICIES (CONTINUED)

- 2. Recognition of income from contracts with customers.** A circular was published on January 14, 2015, in the matter of adoption of the update for accounting principles regarding income from contracts with customers. The circular updates the Reporting to the Public Directives in view of the publication of ASU 2014-09, which adopts in U.S. GAAP a new standard in the matter of income recognition. The Standard states that income shall be recognized by the implementation of a five stage model, which, among other things, include rules for the identification of the contract with the customer and for the determination of the transaction price, rules defining how the different components of the contract should be separated and the manner by which the total transaction price should be attributed to each separate and identified component. Furthermore, in accordance with the provisions of the Standard, income is to be recognized in respect of each identified component separately, and this in accordance with rules stated by the Standard with respect to the timing of recognition of the income – at a specific date or over a period of time.
- According to the circular, the amendments in the Directives will apply as from January 1, 2017. In accordance with the transitional instructions of the circular, upon initial implementation it would be possible to elect the retroactive application alternative by way of a restatement of the comparative data, or the alternative of retroactive application by way of recording the cumulative effect of the initial implementation of the Standard, while attributing the cumulative effect, to be recognized at date of the initial implementation, to the equity. The FASB decided on July 9, 2015, to postpone the effective date of the Standard to January 1, 2018.
- The new standard does not apply, among other things, to financial instruments and to contractual rights or liabilities under Chapter 310 of the Codification.
- The Bank has not yet examined the effect of the standard on its financial statements, and has not yet elected the alternative manner of implementation of the transitional instructions.
- 3. Business combinations, consolidation of financial statements and investments in investee companies.** The Supervisor of Banks published a circular on June 14, 2015, in the matter of "reporting by banking corporations and credit card companies in Israel in accordance with U.S. GAAP as regards business combinations, consolidation of financial statements and investments in investee companies". According to the circular, it is required to implement the U.S. GAAP in these matters in terms of the codification: Topic 805 regarding "business combinations"; Topic 810 regarding "consolidation"; Topic 350-20 regarding "intangibles – goodwill and other" as regards the accounting treatment of impairment of goodwill acquired in business combinations; and Topic 323 regarding "investments – equity method and joint ventures".
- The circular withdraws the transitional instruction that permitted not to make adjustments to the accounting policy relating to matters of core banking business, implemented by a non-financial affiliated company, these adjustments being required in order to adjust the accounting policy of such affiliated company to that of the banking corporation. Instead, the circular introduced a new transitional instruction which permits a banking corporation, in the years 2016-2017, to make no adjustments to the accounting policy implemented by a non-financial affiliated company, which prepares its financial statements in accordance with IFRS.
- The circular takes effect as from January 1, 2016. Upon its initial implementation, it is required to follow the transitional instructions determined with respect to the same matters by U.S. GAAP, mutatis mutandis, including the retroactive restatement of the comparative data, where required in accordance with these matters. The instruction with respect to "pushdown accounting" shall apply to business combinations effected as from January 1, 2016.
- At present, the Bank implements the international financial reporting standards (IFRS) as regards the said matters, subject to the instructions and guidelines of the Supervisor of Banks.
- The Bank is studying the instruction, and it estimates that the implementation of the instruction shall not have a material effect.
- 4. Disclosure regarding interested parties and related parties.** The Supervisor of Banks issued on June 14, 2015, a circular in the matter of "disclosure regarding interested parties and related parties". The circular updates the public reporting instructions dealing with the disclosure in this matter, to the changes included in Proper Conduct of Banking Business Directive No. 312 in the matter of "A banking corporation's business with related parties". Furthermore, in view of the importance of the disclosure regarding interested parties and related parties, it has been decided to adjust the disclosure in this matter to the U.S. GAAP, detailed in Topic 850 of the codification.

## 1. ACCOUNTING POLICIES (CONTINUED)

Following the amendment, the information regarding this matter contained in a report to the public, shall be presented in respect of all interested party in accordance with the Israeli Securities Regulations, a related party according to Directive No. 312, and any other related party according to accounting principles accepted by U.S. banks.

The data according to the new instruction shall be presented starting with the 2015 annual report. It is not required to present retroactive comparative data, if the banking corporation does not possess the relevant information.

Disclosure regarding related parties has hitherto been presented according to IAS 24.

The Bank is preparing for the implementation of the instruction. Implementation of the instruction will have a presentation effect, among other things, in view of the expected changes in the population defined as interested and related parties.

- 5. Draft in the matter of intangible assets.** A draft instruction in the matter of "reporting by banking corporations and credit card companies in Israel according to U.S. GAAP in the matter of intangible assets" was submitted on July 23, 2015, for discussion by the Advisory Committee at the Bank of Israel. According to the draft instruction, a banking corporation shall apply the accounting principles accepted by U.S. banks in the matter of intangible assets, including in-house development costs of computer software, and among other things, the presentation, measurement and disclosure rules determined in Topic 350 of the codification.

According to the draft, it will take effect as from January 1, 2016 and thereafter. Upon its initial implementation, a banking corporation shall act in accordance with the transitional instructions determined in these matters, *mutatis mutandis*, including the retroactive restatement of the comparative data, where required in respect to these matters.

At present, the Bank is implementing the international financial reporting standards (IFRS) as regards the said matter, combined with instructions taken from U.S. GAAP, subject to the instructions and guidelines of the Supervisor of Banks..

As estimated by the Bank, the adoption of the Amendment as stated will not have a material impact.

- 6. Draft document in the matter of Income Taxes.** A draft document in the matter of "reporting by banking corporations and credit card companies according to U.S. GAAP in the matter of Income Taxes" was tabled for discussion on July 23, 2015, before the Advisory Committee at the Bank of Israel. According to the draft document, a banking corporation shall apply the accounting principles accepted by U.S. banks in the matter of income taxes, and, among other things, the principles of presentation, measurement and disclosure stated in Topic 740 of the codification regarding "Income Taxes" and in Item 740-830 of the codification regarding "Foreign Currency Matters – Income Taxes".

According to the said draft, the instruction will take effect as from January 1, 2017, and thereafter. Upon its initial implementation, a banking corporation shall act in accordance with the transitional instructions determined with respect to such matters, *mutatis mutandis*, including the retroactive restatements of the comparative data, where required with respect to these matters.

At present, the Bank applies in these matters the international financial reporting standards (IFRS), subject to the instructions and guidelines of the Supervisor of Banks.

The Bank is studying the said draft document.

- 7. Draft document in the matter of repurchase transactions for redemption and financing repurchase transactions.** On July 23, 2015, a draft document regarding the adoption of Amendment No. 2014-11 of the Codification, published by the FASB on June 12, 2014, was tabled for discussion by the Advisory Committee at the Bank of Israel. The Amendment clarifies, among other things, that repurchase transactions for redemption shall be treated accounting wise as a secured debt, this being consistent with the accounting treatment of other repurchase transactions. Furthermore, the Amendment clarifies the accounting treatment of financing repurchase transactions, in which one party transfers to the counterparty a financial asset, and at the same time engages with the counterparty in an agreement for the repurchase or resale of the financial asset, and also includes certain disclosure requirements.

According to the draft document, the instruction will take effect as from January 1, 2016 and thereafter. Upon the initial implementation, a banking corporation shall act in accordance with the transitional instructions determined in the United States, *mutatis mutandis*.

As estimated by the Bank, the adoption of the Amendment as stated will not have a material impact.

- D.** The securities portfolio, as of June 30, 2015, includes investments in asset backed securities, primarily investment in mortgage - backed securities (MBS), which are held mainly by a consolidated subsidiary abroad. Details regarding the terms "Mortgage-backed Securities - MBS", "Mortgage Pass - Through" and "Collateralized Mortgage Obligation - CMO" were brought in Note 3 to the financial statements as of December 31, 2014.
- E.** Most of the unrealized losses at June 30, 2015 are attributed to certain factors, including changes in market interest rate subsequent to acquisition, an increase in margins occurring in the credit market concerning similar types of securities, the impact of inactive markets and changes in the rating of securities. For debt securities, there are no securities past due or securities for which the Bank and/or its relevant consolidated companies estimates that it is not probable that they will be able to collect all the amounts owed to them, pursuant to the investment contracts. Since the Bank and the relevant consolidated subsidiaries have the ability and intent to hold on to securities with unrealized losses until a market price recovery (which for debt securities, might not be until maturity), the Bank and the relevant consolidated subsidiaries do not view the impairment in value of these investments to be other than temporarily impaired at June 30, 2015.
- F.** The securities portfolio of the Discount Group as at December 31, 2014, included a direct investment in bonds of the Federal Home Loan Bank (FHLB), Fannie Mae and Freddie Mac (hereinafter: "the Federal Agencies"), which were held by IDB New York, in an amount of US\$25 million (NIS 97 million). The said bonds were redeemed in the course of the first quarter of 2015.
- G. Fair value presentation.** The balances of securities as of June 30, 2015, June 30, 2014 and December 31, 2014, include securities amounting to NIS 28,905 million, NIS 31,690 million and NIS 29,597 million, respectively, that are presented at fair value.

##### Footnotes:

- (1) Impaired, substandard or under special mention credit risk, including housing loans for which an allowance according to the extent of arrears exists and including housing loans in arrears for ninety days or over for which an allowance according to the extent of arrears does not exist.
- (2) As a general rule, interest income is not accrued in respect of impaired debts. For information regarding impaired debt restructured under problematic debt restructuring, see B.2.c. below.
- (3) Classified as unimpaired problematic debts. Accruing interest income.
- (4) Debts in arrears for between 30 and 89 days which accrue interest income, in an amount of NIS 87 million (June 30, 2014 - NIS 107 million, December 31, 2014 - NIS 119 million) are classified as unimpaired problematic debts.
- (5) Including housing loans in amount of NIS 10 million (June 30, 2014 - NIS 8 million, December 31, 2014 - NIS 10 million) with an allowance according to the extent of arrears, for which an arrangement was made for the repayment of overdue amounts, which included a change in the repayment schedule for the balance of the loan not yet due.

### 3. CREDIT RISK, CREDIT TO THE PUBLIC AND ALLOWANCE FOR CREDIT LOSSES (CONTINUED)

#### B. Debts (continued)

##### 3. Additional disclosure regarding the quality of credit

###### (A) Risk characteristics according to credit segments

###### (1) Business credit

- Sensitivity to the domestic economic cycle in Israel. In addition, in view of material overseas investments by large Israeli corporations, the level of exposure to global crises increased;
- Sensitivity to changes in private consumption;
- Exposure to foreign competition;
- In view of the high concentration of the ownership and control structure of corporations in the Israeli market – credit is typified by high concentration at the large borrower groups' level. Furthermore, the structure of the holding groups and their indebtedness at several levels within the holding corporations, increase the credit risk and the vulnerability of these corporations.

###### (2) Credit to private individuals – housing loans

- Loans involving a high finance ratio carry risk in the event of impairment in the value of collateral below the balance of the loan. The Bank's underwriting policy limits the ratio of finance when granting a loan.

###### (3) Credit to private individuals – other

- Exposure to retail credit is affected by macro-economic factors.
- Intensification of competition in the banking system in recent years may lead to erosion in margins, decline in quality of borrowers with a resultant increase in credit risk. The credit policy does not allow at the present time the granting of credit to customers having a low internal credit rating, thus moderating such risks.

###### (B) Indication of credit quality

	June 30, 2015				December 31, 2014			
	Commercial	Private Individuals		Total	Commercial	Private Individuals		Total
		Housing Loans	Other Loans			Housing Loans	Other Loans	
Ratio of the balance of non-problematic credit to the public to the balance of credit to the public	94.7%	98.2%	98.5%	96.0%	93.6%	97.7%	98.4%	95.1%
Ratio of the balance of problematic unimpaired credit to the public to the balance of credit to the public	1.4%	1.8%	1.2%	1.4%	3.0%	2.3%	1.2%	2.6%
Ratio of the balance of impaired credit to the public to the balance of credit to the public	3.9%	-	0.3%	2.6%	3.4%	-	0.4%	2.3%
Ratio of the balance of allowance to credit losses in respect of credit to the public to the balance of credit to the public	1.8%	0.8%	1.6%	1.6%	1.8%	1.3%	1.7%	1.7%
Ratio of the balance of allowance to credit losses in respect of credit to the public to the balance of problematic credit risk (excluding derivatives and bonds)	32.1%	45.1%	104.3%	37.9%	24.3%	56.0%	109.5%	30.9%

### 3. CREDIT RISK, CREDIT TO THE PUBLIC AND ALLOWANCE FOR CREDIT LOSSES (CONTINUED)

#### B. Debts (continued)

##### 3. Additional disclosure regarding the quality of credit (continued)

The period in arrears of debt is a central factor in determining the classification of the Bank's debts, and accordingly affects the allowance for credit losses and the accounting write-offs. A debt examined on a specific basis is classified as impaired when payments of principal or interest in respect thereof are in arrears of ninety days or over, except where the debt is well secured and is in the process of collection.

A principal indication for the quality of the Bank's credit portfolio is the ratio of problematic debts at the Bank. During the first six months of 2015, the rate of performing credit to the public increased, stemming mainly from the commercial sector. This increase was accompanied by a decline in unimpaired problematic credit.

##### 4. Additional information regarding housing loans - consolidated

#### 5. CAPITAL ADEQUACY, LIQUIDITY AND LEVERAGE IN ACCORDANCE WITH DIRECTIVES OF THE SUPERVISOR OF BANKS

**1. Capital adequacy according to Directives of the Supervisor of Banks** - Computed according to Proper Conduct of Banking Business Directives Nos. 201-211 in the matter of "measurement and capital adequacy".

**a. Adoption of Basel III instructions.** On June 3, 2013, the Supervisor of Banks issued amendments to Proper Conduct of Banking Business Directives, in order to modify them to the Basel III guidelines. The said amendments gradually entered into effect beginning with January 1, 2014, in accordance with the transitional instructions determined in Proper Conduct of Banking Business Directive No. 299 regarding "measurement and capital adequacy – the regulatory capital – transitional instructions". The data presented below reflects deductions, in accordance with the transitional instructions. Among other things, the Directives state more stringent requirements with respect to the components qualified for inclusion in regulatory capital and regulatory adjustments (deductions from capital).

According to the instructions, starting with January 1, 2015, the minimum total capital ratio, which the Bank is required to attain, is 12.5% (for details regarding the required addition in respect of housing loans, see below).

The Bank prepared a detailed plan for attaining the capital targets, being at least the level of capital prescribed by the directives of the Supervisor of Banks and according to the time schedules published by him, and the Bank is acting toward its implementation.

**b. Additional capital requirements in respect of housing loans.** On September 28, 2014 the Supervisor of Banks issued an amendment to Proper Conduct of Banking Business Directive No. 329, in the framework of which, a banking corporation is required to increase their Common equity tier 1 target by a rate which expresses 1% of the outstanding housing loans. This requirement is to be applied gradually in equal quarterly installments, over eight consecutive quarters, starting on April 1, 2015 and until January 1, 2017.

The said requirement will increase the total minimum equity capital requirement and the total capital by approx. 0.15% (for the whole period).

**c. Implementation of the instructions regarding employee rights.** It is noted that the Supervisor of Banks has stated in the transitional instructions that it is not required to restate the capital adequacy data for prior periods, with respect to the adoption of U.S. GAAP in the matter of employee benefits (see note 1 E 1 above). Accordingly, the comparative data presented below has not been restated.

Footnotes:

- (1) The data in this item was computed in accordance with the rules mandatory in the U.S.A.
- (2) Beginning on January 1, 2015, IDB Bank became subject to new Basle III capital rules based on the final rules published by the FRB. Capital ratios as of January 1, 2015 are as follows: 4.5% CET1 to risk-weighted assets; 6.0% Tier 1 capital to risk-weighted assets; and 8.0% Total capital to risk-weighted assets.
- (3) In view of the approach by the Supervisor of Banks, ICC is required to maintain a total capital ratio of not less than 15%, starting from December 31, 2010.
- (4) With an addition of 0.012% per quarter, in accordance with the additional capital requirements with respect to housing loans – see item 1(b) above.
- (5) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of capitalization of software development costs, See Note 1 (E) 2.

## 5. CAPITAL ADEQUACY, LIQUIDITY AND LEVERAGE IN ACCORDANCE WITH DIRECTIVES OF THE SUPERVISOR OF BANKS (CONTINUED)

### g. The effect of the transitional instructions on the ratio of common equity tier 1

	Unaudited		Audited
	June 30, 2015	2014	December 31, 2014
	In %		
Ratio of common equity tier 1 to risk assets before implementation of the effect of the provisional instructions in directive No.299.	9.2	(1)(3)7.4	(1)(3)8.4
Effect of the provisional instructions	0.3	(2)1.7	(2)1.0
Ratio of common equity tier 1 to risk assets after implementation of the effect of the provisional instructions in directive No.299.	9.5	(3)9.1	(3)9.4

Footnotes:

(1) Including the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of employee rights. The comparative data have been restated in order to reflect these guidelines.

(2) Reclassified in order to include the effect of the transitional instructions regarding employees rights

(3) Restated, in respect of the retroactive implementation of the guidelines of the Supervisor of Banks in the matter of capitalization of software development costs, See Note 1 (E) 2.

#### 2. Liquidity coverage ratio according to Directives of the Supervisor of Banks<sup>(1)</sup> - Computed according to Proper Conduct of Banking Business Directive No. 221 in the matter of liquidity coverage ratio.

**General.** Commencing from the report for the second quarter of 2015, banking corporations in Israel are required to include in their reports a disclosure regarding the liquidity coverage ratio. Concurrently, Proper Conduct of Banking Business Directive No. 221, regarding "Liquidity Coverage Ratio", entered into effect on April 1, 2015. In accordance with the directive, the minimum requirement stands at 60%, and will increase to 80% on January 1, 2016 and to 100% on January 1, 2017. The Supervisor of Banks states in the transitional instructions that it is expected that a banking corporation, which has attained a liquidity coverage ratio of 100% already at date of the implementation of the instruction, shall not fall from that ratio during the transition period.

The computation is based on the average of daily observations in the period of ninety days prior to the date of the report (with the exception of IDB (Swiss) Bank and ICC, where the computation is based on the average of monthly observations).

	Unaudited For the three months ended June 30 2015 In %
<b>A. Consolidated<sup>(3)</sup></b>	
Liquidity coverage ratio	140.4
Liquidity coverage ratio required by the Supervisor of Banks	60.0
<b>B. The Bank</b>	
Liquidity coverage ratio	164.6
Liquidity coverage ratio required by the Supervisor of Banks	60.0
<b>C. Significant subsidiaries<sup>(2)</sup></b>	
<b>1. Mercantile Discount Bank LTD. and its consolidated companies</b>	
Liquidity coverage ratio	135.6
Liquidity coverage ratio required by the Supervisor of Banks	60.0
<b>2. Discount Bakcorp Inc.<sup>(3)</sup></b>	
Liquidity coverage ratio	101.4
Liquidity coverage ratio required by the Supervisor of Banks	60.0

Footnotes:

(1) The data is presented according to the new instruction, in effect as from April 1, 2015, and therefore no comparative data is presented.

(2) The new directive does not apply to credit card companies and thus data relating to ICC are not presented.

(3) In accordance with a relief granted to the Bank by the Banking Supervision Department, the data do not include data relating to DBLA in light of the agreement for the sale of its activity. As of June 30, 2015, DBLA's liquidity coverage ratio stood at 558%.

## 5. CAPITAL ADEQUACY, LIQUIDITY AND LEVERAGE IN ACCORDANCE WITH DIRECTIVES OF THE SUPERVISOR OF BANKS (CONTINUED)

**3. Leverage ratio according to Directives of the Supervisor of Banks<sup>(1)</sup>** - Computed according to Proper Conduct of Banking Business Directive No. 218 in the matter of leverage ratio.

**General.** In accordance with an amendment to the Reporting to the Public Directives, commencing from the report for the second quarter of 2015, banking corporations and credit card companies in Israel are required to include in their reports a disclosure regarding the leverage ratio. Concurrently, Proper Conduct of Banking Business Directive No. 218, regarding "Leverage Ratio", entered into effect on April 1, 2015. The Directive takes effect on January 1, 2018. Notwithstanding the above, a banking corporation, which on date of publication of the Directive matched the minimum leverage ratio, shall not fall below the minimum determined by the Directive.

	Unaudited June 30, 2015 in NIS millions

(2) In accordance with rules published by the FRB.

## 6. EMPLOYEE BENEFITS – CONSOLIDATED

### A. General

The data for December 31, 2014 that are presented in this Note have been restated in respect of retroactive implementation of the Supervisor of Banks' guidelines regarding employee rights (see Note 1 E (1) above).

#### Following is a description of the main benefits granted to employees of the group:

- (1) The liability of the Bank and its subsidiaries for severance pay to their employees, based on the customary one month's salary for each year of employment, is fully covered by deposits with severance pay funds, by insurance policies and pension funds and by a provision recorded in the Bank's books.
- (2) Members of the Bank's Management are entitled to the customary severance payments, while several of whom are entitled also to an "adjustment" bonus of between 4 to 8 months' salary upon retirement, pursuant to individual agreements signed with them, and in respect of which adequate provisions have been included. The pension liability of foreign subsidiaries, based on actuarial computations, is covered by current deposits into a recognized foreign pension fund.
- (3) In certain consolidated banking subsidiaries, several officers are entitled to "adjustment" bonus" equal to 6 to 9 months' salaries, and in respect of which adequate provisions have been included.
- (4) The Bank and its subsidiaries are not permitted to withdraw these deposits except for the purpose of making severance payments.
- (5) A number of the Bank's employees and those of its consolidated banking subsidiaries in Israel are entitled to long-service bonuses equal to a certain number of monthly salaries, and to a certain number of additional vacation days, upon completing 20, 30 and 40 years of employment in the Bank. In accordance with instructions of the Supervisor of Banks the provision in respect of this liability is computed on an actuarial basis and stated at its present value. The future payroll increase used to compute the amount of the liabilities for employee rights, in respect of the Bank's employees, is 1.8% per year.

An agreement with the representatives of the employees was signed in 2007, regarding the "Jubilee vacation" days, according to which, among other things, the entitlement of new employees to "Jubilee vacation" was abolished. In 2011, the Bank signed with the representative committee of the employees a "grades and stages" agreement, according to which, among other things, new employees engaged or moved to the position of regular employees as from January 1, 2012, shall not be entitled to a "jubilee award".

- (6) Employees of the Bank and its consolidated subsidiaries in Israel are entitled to annual vacation as provided by labor agreements in force, and subject to the guidelines of the Annual Vacation Law - 1951. The liability for vacation pay is recognized over the period of employment in which the right to paid vacation accumulates. The liability is determined on the basis of the most recent salary in the reporting period with the addition of related payments.
- (7) Employees of the Bank and its subsidiaries are entitled to certain benefits after retirement. The said liability is computed on an actuarial basis and is recognized over the period of employment of the employee. In addition, some of the employees who accepted early retirement exchanged their retirement award with a pension for a determined period. This liability is presented at its discounted value.  
It should be noted that the agreement "Grades and stages" signed in 2011, reduced the benefits granted to retirees of the Bank who were engaged as or converted to the status of regular employees, subsequently to January 1, 2012. These benefits match now the terms applying to employees under this agreement, and consist of presents for the holidays and medical expenses.
- (8) Several of the subsidiaries have adopted employee remuneration plans, according to which the General Managers and/or other employees of these subsidiaries are entitled to a bonus, the amount of which is based upon their business results. The necessary provisions in respect of these bonuses are included in the financial statements.
- (9) **2011 retirement plan.** 124 employees from among the retirees within the framework of the 2011 retirement plan, have elected the monthly pension option.

The terms of the monthly pension are as follows:

- A CPI-linked monthly pension for the entire lifetime of the retiree, from the date of his/her retirement;
- The monthly pension amounts are determined on the retirement date in accordance with an economic computation performed by the Bank, which derives from the amount of the balance in the severance pay fund that was converted to the pension;

## 6. EMPLOYEE BENEFITS – CONSOLIDATED (CONTINUED)

- The employee can opt for a pension track with or without next of kin.
- The employee is given the option of choosing a guaranteed number of pension payments, based on his/her age.

In respect of pension payable to the retiree and/or his/her spouse upon reaching the age of 85 years (all according to the route chosen by the retiree), the Bank has purchased insurance coverage that would secure the payment of the said pension and which will be paid directly by the insurance company.

- (10) **2014 retirement plan.** A part of the retirees under the 2014 retirement plan, have elected the monthly pension option covering the life of the retiree and/or his/her spouse, or the option combining a monthly pension with a one-off capital payment.

With respect to pension payments due to a retiree who was sixty years of age or over at retirement date, or upon reaching the age of sixty, the Bank had purchased (or will purchase when the employee reaches the age of sixty) an insurance coverage that ensures the payment of the said pension, which would be payable directly by the insurance company. Pension payments due until the retiree reaches the age of sixty, are payable directly by the Bank.

The terms of the monthly pension are as follows:

- A monthly pension for the life of the retiree since date of retirement, linked to the CPI until the employee reaches sixty years of age, and linked to the terms of the policy after the age of sixty;
- The employee may elect a pension option with or without payment to kinsmen;
- The employee may elect a pension option with or without ensuring a minimum pension payment for 240 months, with the addition of the number of months up to the age of sixty (for employees who have not yet reached the age of sixty at retirement date).

The capital payment, the pension payments by the Bank and the cost of the purchased insurance policy, are limited to the amount that would have been paid to the retiree had he elected the full capital payment option.

- (11) IDB New York has a liability for the payment of pensions to its employees, in respect of which it has established a pension fund, in which contributions by the employer and by the employees are deposited. The annual deposits with the fund are based on calculations made by an independent actuary.

Note 16 to the financial statements as of December 31, 2014, contained details regarding remuneration plans for officers at the Bank.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

#### 4. Various actions against the Bank and its consolidated subsidiaries:

As detailed in Note 19 C 12 to the financial statements as at December 31, 2014, various actions are pending against the Bank and its consolidated subsidiaries, including class action suits and requests to approve actions as class action suits. In the opinion of the Bank's Management, which is based, inter alia, on legal opinions and/or on the opinion of managements of its consolidated subsidiaries, which are based upon the opinion of their legal counsels, respectively, as the - case may be, adequate provisions have been included in the financial statements, where required.

The total exposure with respect to claims filed against the Bank and its consolidated subsidiaries, whose prospects of materializing, in whole or in part, have been assessed as reasonably possible, amounted to approx. NIS 2,017 million as of June 30, 2015.

A description of material legal proceedings being conducted against the Bank and Group companies was brought in Note 19 C sections 12 through 14 to the financial statements as at December 31, 2014. The criteria under which a legal proceeding will usually be defined by the Bank as material is brought in Note 1 D 17 to the financial statements as at December 31, 2014.

Following is a summary of significant updates regarding material legal actions against the Bank and its subsidiaries:

4.1 Note 19 C 12.2 to the financial statements as of December 31, 2014, described a lawsuit filed on September 12, 2006, against the Bank, Bank Leumi and Bank Hapoalim, as well as a motion for approval of the lawsuit as a class action suit. The Plaintiff argued that most of the credit to the public is concentrated in the hands of the defendant banks, and that they coordinated among themselves the prices applying to five parameters in everything relating to credit. The Plaintiff assessed the amount claimed at NIS 7 billion in respect of all the defendant banks, reserving the right to amend this amount in accordance with developments during the course of the litigation.

A motion for approval of a compromise arrangement between the parties was filed with the Court on December 11, 2014. The Court instructed, among other things, on January 4, 2015, that an announcement regarding the motion for approval of a compromise arrangement be published in the press. The Plaintiff in the action described in item 4.2 below, filed on January 6, 2015, a motion with the Court requesting the cancellation or delay of the decision of January 4, 2015. The Court has stayed the execution of its ruling.

The Court held a hearing of the case on March 25, 2015, and decided as follows: the decision regarding the publication of the motion for approval of a compromise arrangement was revoked and it was decided that nothing is to prevent the banks and the Plaintiff in these proceedings to reach a compromise agreement as long as this agreement does not hinder the motion of the Plaintiff in the proceedings described in item 4.2 below.

On August 2, 2015, the date for filing the notice on behalf of the banks was extended to September 10, 2015 regarding the submittal of a revised motion to approve a settlement arrangement, and alternatively their position with regard to the unification of the hearing with the proceeding described in item 4.2 below. The petition for the extension stated that the parties are having advanced negotiations in trying to arrive at a compromise arrangement in this case and in the case described in item 4.2 below. The case is fixed for a preliminary hearing on October 11, 2015.

The payment to be made in accordance with the compromise arrangement, if and when approved, shall be made out of funds transferred in accordance with the agreed Order, see item 6 hereunder.

4.2 Note 19 C 12.3 to the financial statements as of December 31, 2014, described a lawsuit filed on November 23, 2006, to the Jerusalem District Court together with a motion for its approval as a class action suit against the Bank, Bank Hapoalim and Bank Leumi. In the claim brief the claimants argue that the defendant banks charge the private household sector interest at an exorbitant rate, which is much higher than the interest rate charged to the commercial and business sectors, this without any economic and commercial justification, with an ostensible existence of a binding arrangement between the banks. The claimants assess the amount of the claim at between NIS 5.2 and NIS 5.6 billion for all the defendants, while they reserve the right to amend the claim brief.

The parties to the case conducted negotiations for reaching a compromise in the matter, which were unsuccessful. For details regarding the opposition by the Plaintiffs in this proceeding to the compromise arrangement discussed in item 4.1 above, see item 4.1 above.

The decision of the Court was given on March 25, 2015, as detailed in item 4.1 above.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

On August 2, 2015, the date for filing the notice on behalf of the banks was extended to September 10, 2015 regarding the submittal of a revised motion to approve a settlement agreement and alternately their position on the unification of the hearing with the proceeding described in item 4.1. The petition for the extension stated that the parties are having advanced negotiations in trying to arrive at a compromise arrangement in this case and in the case described in item 4.1 above. The case is fixed for a preliminary hearing on October 11, 2015.

- 4.3 Note 19 C 12.4 to the financial statements as of December 31, 2014, described an action together with a motion to approve the action as a class action suit, filed on April 27, 2009, against the Bank, Bank Leumi, Bank Hapoalim, Mizrahi-Tefahot Bank and the First International Bank.

The Claimants argue that a binding arrangement had existed between the said banks with respect to commission rates charged by these banks and that the banks established a coordinated policy, which, as alleged by the claimants, was typified by prohibited cooperation and exchange of information. The total damage for all the defendant banks is assessed for the purpose of the action at approx. NIS 1 billion, with no allocation between them.

On October 7, 2009, the District Court instructed that the hearing of this claim should be incorporated with the claim discussed in item 4.4 below.

The District Court approved the compromise agreement on May 31, 2015.

The payment to be made in accordance with the compromise arrangement shall be made out of funds transferred in accordance with the agreed Order, see item 6 hereunder.

- 4.4 Note 19 C 12.5 to the financial statements as of December 31, 2014, described an action together with a motion for the approval of the action as a class action suit, filed on June 30, 2008, against the Bank, Bank Hapoalim and Bank Leumi, submitted to the Tel Aviv District Court. The core issue of the suit rests on the Plaintiffs' claim that, since the end of the 1990's and possibly even earlier, the three defendant banks created a cartel coordinating the prices of commissions charged to their customers. The Plaintiffs further claim that the banks have created an unlawful restrictive business practice regarding the rates of the various commissions charged to customers. As alleged by the Plaintiffs, as a result of the cartel, the price paid by the public is higher than the price that would have been paid had competition not been prevented by the cartel.

The overall damage for all member of the group was estimated at NIS 3.5 billion. The Bank's share in the claimed amount is 22% (namely an amount of approx. NIS 770 million).

According to the decision of the District Court of October 7, 2009, the claim will be heard together with the claim described in item 4.3 above.

The District Court approved the compromise agreement on May 31, 2015. For details, see item 4.3 above.

The payment to be made in accordance with the compromise arrangement shall be made out of funds deposited in accordance with the agreed Order (see item 6 hereunder).

- 4.5 Note 19 C 12.7 to the financial statements as of December 31, 2014, described a lawsuit submitted on October 11, 2012, to the Tel Aviv District Court, against the Bank, FIBI, Leumi Bank and Mizrahi Bank together with a motion for approval of the suit as a class action suit.

The matter of the lawsuit is the value date attributed by the banks to payments made by debtors directly to their account at the Debt Execution Office. As alleged by the Claimants, the practice of the banks is to determine the date on which payments have been received as the value date for these payments from the Debt Execution Office. In respect of the said time difference, the banks charge the debtors with interest in arrears. The Claimants argue that at this stage it is not possible to assess the amount of the claim, since in order to do so, specific examinations would have to be made at the banks.

The Attorney General for the Government submitted his position on February 2, 2015, according to which a winning bank may not charge the account of a customer with interest in respect of the period from date of deposit of a payment with the Execution Office and until it is transferred over to the bank.

At a preliminary hearing held on April 19, 2015, the Court proposed to the banks to appoint a neutral public accountant, who would make a sample test of closed files of the Debt Execution Office, in order to determine whether any damage had been caused. The Court further proposed to the banks to consider submission of a third party notice against the Enforcement and Collection Authority.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

In a preliminary hearing held on June 21, 2015, the Court ruled that the Attorney General for the Government shall submit an amended response by September 5, 2015. The banks shall respond to this response by October 11, 2015, and until that date they would submit their position in writing as to the question of appointment of an expert. Furthermore, to the extent that the banks are interested in having the Enforcement Authority join the case as a third party, they should submit their request in this matter by the said date. A further preliminary hearing was fixed for November 24, 2015.

- 4.6 Note 19 C 12.10 to the financial statements as of December 31, 2014, described a lawsuit filed against the Bank on July 31, 2013, at the Central-Lod District Court, together with a motion for approval of the suit as a class action suit. The Claimant allege that the practice of the Bank is to open foreign currency accounts supplemental to the principal current account without informing the customers and without bringing to their notice the engagement terms including the related cost of managing these accounts. The amount of the claim in respect of all class members is stated by the Claimants at NIS 170 million.

On January 1, 2015, the Judge referred to the Supervisor of Banks the question as to whether the receipt of an amount in foreign currency, with the purpose of keeping it in foreign currency, requires the opening of an additional current account in foreign currency. The Supervisor of Banks submitted his position on June 15, 2015, according to which, the manner of accepting funds depends on the type of transaction that the customer intends to make.

The case is fixed for October 29, 2015, for the hearing of evidence.

- 4.7 Note 19 C 12.12 to the financial statements as of December 31, 2014, described a lawsuit filed on August 28, 2013, with the Tel Aviv District Court, against the Bank, Bank Hapoalim, Bank Leumi, Mizrahi-Tefahot Bank, the First International Bank and MDB, as well as a motion for the approval of the lawsuit as a class action suit.

The Claimants allege that the respondent banks unlawfully charge a commission on the conversion and transfer of foreign currency with no proper disclosure to their customers. They claim that a customer who wishes to convert foreign currency is being charged an additional commission to that listed on the transaction price list, which, as alleged, is the difference between the rate at which the respondents buy foreign currency on the inter-bank market and the rate at which they sell the foreign currency to the customer.

On May 4, 2014, the Court decided that this motion will be heard together with the motion described in item 12.16 in the financial statements as of December 31, 2014.

On August 10, 2014, a motion was filed for the consolidation of the hearing of this case with that of the case described in item 4.13 below. The response of the bank to the motion for the merger of the hearings was filed on January 8, 2015.

At a preliminary hearing of the case, held on March 8, 2015, the Court ruled that the Appellants in this case and in the case described in item 4.13 below, shall submit within sixty days new summary motions for approval. Within sixty days following the submission of the new motions, the Respondents have to file a response. Following the filing of the claims briefs, the Court will rule in the matter of combining the hearing of the case with the proceedings described in item 4.13 below. On April 23, 2015, the Appellant submitted a summary motion for approval of the suit as a class action suit and placed the amount of the claim for all the defendant banks at NIS 7.7 billion, of which the Bank's portion amounts to NIS 929 million. The Bank must file its response to the summarized motion by October 11, 2015.

A further preliminary hearing was fixed for October 25, 2015.

- 4.8 Note 19 C 12.14 to the financial statements as of December 31, 2014, described a lawsuit lodged on October 30, 2013, with the Jerusalem District Court together with a motion for its approval as a class action suit, against the Bank, Mercantile Discount Bank, Bank Hapoalim, Union Bank and FIBI. The Plaintiffs argue that the respondent banks charge their customers upon renewal of credit facilities, with a commission in respect of credit and collateral handling, despite the fact that the collateral in respect of the credit facility remains unchanged. The Plaintiffs assess the amount of the claim at NIS 2 billion, and estimated the Bank's share at NIS 498 million and share of MDB at NIS 195 million.

On March 5, 2015, a verdict was given according to which the motion for approval of the suit as a class action suit was dismissed.

On May 3, 2015 the plaintiff filed an appeal against this verdict. On June 24, 2015, the Supreme Court gave a verdict, with the consent of the parties, dismissing the appeal.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

4.9 Note 19 C 13.2 to the financial statements as of December 31, 2014, described a lawsuit against Mercantile Discount Bank together with a motion for its approval as a class action suit which were filed with the Tel Aviv District Court on January 5, 2014.

The Appellant claims that following the entry into effect of Proper Conduct of Banking Business Directive No. 325, MDB has unilaterally raised the interest rate on credit granted to its customers within the approved credit facility that had been agreed with the customers, and this after the customer had already borrowed funds from MDB within the framework of the credit facility allotted to him and on its basis. The Appellant states the amount of the claim in respect of all group members at NIS 139 million.

The Appellant filed a response to the Bank's response, which may be seen as expanding the case matter. MDB has filed a motion for the dismissal of this response.

On February 22, 2015, the Court decided that in view of the position of the Appellant, that there is no need for an amendment of the claims briefs, the contents of the claims briefs shall remain as-is. MDB is entitled to file a response to the counter response and all the arguments of the parties shall remain intact and shall be heard within the framework of the hearing of the motion for approval of the suit as a class action suit. The parties are undergoing mediation outside the court and therefore hearing of the evidence has been deferred to October 11, 2015.

4.10 Note 19 C 12.15 to the financial statements as of December 31, 2014, described a lawsuit filed with the Tel Aviv-Jaffa District Court on January 30, 2014, against the Bank and against ICC together with a motion for approval of the lawsuit as a class action suit.

The Appellant claims that ICC charges on a monthly basis the accounts of holders of "Active" credit cards, in respect of charge amounts accumulated through use of the card, with a minimum amount only determined by ICC. The remainder of the said charge amounts turns into a loan carrying especially high interest rates. It is further alleged that upon the marketing of the plan, ICC refrained from emphasizing to the customers that cancellation of the credit requires an explicit request by the customer as well as from stating the cost of the credit granted. The Appellant claims that operating a revolving credit mechanism with respect to the customers and charging them with interest, has been made with no effective contractual basis and with the impairment of the customers' autonomy. The Appellant stated the amount of the claim in respect of all group members at NIS 2,225 million.

A decision dismissing the claim against the Bank was given on August 19, 2014. The case against ICC continues. On October 21, 2014, an appeal was filed with the Supreme Court against the decision of the District Court to dismiss in limine the motion for approval against the Bank. The appeal has been fixed for oral complementary arguments on January 28, 2016, following the submission of summing-up briefs by the parties.

On October 29, 2014, ICC motioned for the stay of proceedings at the District Court until a ruling is given by the Supreme Court in an appeal filed by the Appellant. In the hearing held on June 28, 2015, the Court ruled that the motion for approval shall be heard only after the hearing of the appeal.

4.11 Note 19 C 13.3 to the financial statements as of December 31, 2014, described a lawsuit filed on March 4, 2014, against the Bank with the Central-Lod District Court, together with a motion for its approval as a class action suit.

According to the Appellant, the Bank allows customers to deviate from their approved credit facility in contradiction of Proper Conduct of Banking Business Directive No. 325, thus causing them to pay high and the maximum interest rates in respect of the deviation from their approved credit facility. It is further claimed that the Bank charges the customers account with a commission in respect of notice as to the deviation and/or a warning letter regarding such deviation. The Appellant notes that he is unable to quote an exact amount in respect of the damage caused, but in his opinion this amounts to hundreds of millions of NIS.

The Claimant has filed additional class actions on similar grounds and, in accordance with the Court's ruling from June 12, 2014, the additional lawsuits will be heard together with the claim described in this item.

The case was fixed for a preliminary hearing to October 15, 2015.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

4.12 Note 19 C 12.17 to the financial statements as of December 31, 2014, described a lawsuit filed on April 28, 2014, with the District Court Central Region against ICC and others, together with a motion for its approval as a class action suit.

The above motion raises the allegation for two binding arrangements in the field of immediate debit cards ("debit") and pre paid cards ("pre-paid"), which, as alleged by the Plaintiffs, constitute "a systematic and continuous deceit" of customers of the credit card companies. The Plaintiffs claim that the first binding arrangement is an arrangement for the charging of a cross commission in respect of transactions made through the use of debit or pre paid cards. As regards the second binding arrangement, the Plaintiffs claim that it involves the unlawful withholding of monies due to trading houses, in respect of transactions made by debit cards and pre-paid cards, for a period of twenty days, following the date of collection of the money by the credit card companies. The Plaintiffs assess the amount of the claim against all defendants and in respect of all class members at NIS 1,736 million.

On February 24, 2015, a motion for withdrawal from the claim was filed.

A motion was filed with the Court on April 19, 2015, requesting the replacement of the parties applying for a withdrawal and their representatives by the Appellant and his representatives and to instruct the continuation of the proceedings by the Appellant and his representatives.

On July 1, 2015, the Court approved the motion for withdrawal. Concurrently the Court approved the locating of alternative Claimant and his representative, who would undertake the conduct of the proceedings on behalf of the class.

4.13 Note 19 C 13.4 to the financial statements as of December 31, 2014, described a claim together with a motion for its approval as a class-action suit, filed on August 5, 2014, with the Tel Aviv-Jaffa District Court, against the Bank, against MDB and against other banks.

The Appellant is alleging that the respondent banks charge foreign currency transfer and handling commissions contrary to the Banking Rules and contrary to the Antitrust Law. The banks, it is alleged, charge the aforesaid commissions on a graded scale, with the grade being determined according to the size of the amount transferred. The Appellant alleges that this is a binding agreement "tacitly" agreed to by the banks; in addition, it is alleged that some of the respondent banks do not disclose the amount of the commission and/or the way it is calculated. The Appellant has set the aggregate amount of the claim against all respondent banks at NIS 3 billion or, alternatively, at an amount of at least NIS 1.5 billion.

A motion has been filed to unite the hearing of this motion with the motions described in item 4.7 above.

The Court ruled on June 23, 2015, that the Appellant has to deposit until July 23, 2015, a monetary guarantee in an amount of NIS 25 thousand for each respondent, by July 23, 2015. It was also provided that, in the event of the guarantee not being deposited, the motion for approval of the action would be revoked. So far, the guarantee has not been deposited. On August 3, 2015, the banks filed a petition for an adjudication of costs. On August 7, 2015, the applicant filed its response to the banks' petition, in which it alleged that there is no need to impose it with costs and, were the Court to believe otherwise, it requests that it be given additional time to deposit the guarantee.

A further preliminary hearing was fixed for October 25, 2015.

4.14 A lawsuit was filed against the Bank on May 4, 2015, with the Tel Aviv District Court together with a motion for its approval as a class action suit. The subject of the motion is the alleged charging of excess interest on housing loans.

The Claimant argues that the Bank computes the monthly interest by dividing the agreed annual interest by twelve. According to the Claimant, this method of computation leads to the charging of higher interest than the interest that would have been charged had the Bank made a correct calculation. The interest charged by the Bank, as argued by the Claimant, reflects compound interest in contradiction to the law and to agreements signed with customers.

The Claimant assesses the amount of the claim for all class members at NIS 80 million.

5. Class action suits and requests to approve certain actions as class action suits as well as other actions are pending against the Bank and its consolidated subsidiaries, which, in the opinion of the Bank's Management, based on legal opinions and/or on the opinion of managements of its consolidated subsidiaries, which are based on the opinions of their legal counsels, respectively, as the case may be, it is not possible at this stage to evaluate their prospects of success, and therefore no provision have been included in respect therewith.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

5.1 Note 19 C 13.1 to the financial statements as of December 31, 2014, described a petition for approval of an action as a class action suit filed with the Tel Aviv District Court On June 19, 2000 by two borrowers of DMB against DMB and against the Israel Phoenix Insurance Co. Ltd., where the properties of the borrowers are insured. The action is for the amount of NIS 105 million (on June 28, 2012, Discount Mortgage Bank was merged with and into the Bank). The borrowers claim, inter alia, that DMB has insured their properties for amounts which exceed their reinstatement value, and that the sum insured was increased in excess of the increase in the Consumer Price Index.

On December 25, 2000, the Court decided that whereas the arguments in this case are similar to those argued in another class action suit, as described in item 12.1 to Note 19 C to the financial statements as of December 31, 2014, the hearing of the said case will be postponed until a decision is given in the other case. On December 5, 2011, the Court that hears the other motion, gave the compromise agreement the validity of a Court verdict between the parties.

5.2 Note 19 C 13.5 to the financial statements as of December 31, 2014, described a lawsuit filed against the Bank on October 19, 2014, with the Central-Lod District Court, together with a motion for its approval as a class action suit.

The Claimant argues that in violation of the law, the Bank charges its customers an excessive early repayment commission in respect of loans which are not housing loans. It is being argued that the Bank acts in contravention of Proper Conduct of Banking Business Directive No. 454. It was also argued that despite the fact that the Bank is permitted to charge customers with an early repayment commission in an amount reflecting only the damage caused to the Bank, it is the Bank's practice to charge commission fees reflecting considerable profit. The Claimant stated that it is unable to estimate the amount of the damage caused.

A motion for the amendment of the motion for approval of the suit as a class action suit was filed on June 1, 2015, within the framework of which, it had been noted that it is not possible to assess the amount of the claim with respect to all members of the class. On June 30, 2015, the Bank submitted its response to the motion for amendment.

A hearing of the motion for amendment was fixed for November 5, 2015.

5.3 A lawsuit against the Bank was filed on June 14, 2015, with the Tel Aviv District Court, together with a motion for its approval as a class action suit. The motion raises an argument with respect to the charging of excessive interest on arrears relating to CPI linked loans. The Claimant argues that the Bank charges interest on arrears at rates exceeding the contractual rate, and in contravention of the provisions of the Interest Order (Determination of the maximum interest rate), 1970. The grounds of action are violation of an agreement, violation of a legal duty, undue creation of wealth and negligence.

The class, which the Claimant wishes to represent, has been defined as a group of Bank customers, who were granted linked loans, and who were charged with interest on arrears in excess of the contractual interest on arrears (this being determined according to publications in respect of changes in the cost of credit) and/or in excess of the Interest Order during the past seven years.

The Claimant assesses the total amount of the claim for all class members at NIS 155 million.

6. Note 19 C 14 to the financial statements as of December 31, 2013, described the decision of the Antitrust Commissioner regarding binding arrangements between banks, following an investigation conducted since 2004 by the Antitrust Authority.

On April 26, 2009, the Antitrust Commissioner ("the Commissioner") issued a statement under Section 43(a)(1) of the Antitrust Act, 1988, according to which binding arrangements existed between Bank Hapoalim B.M., Bank Leumi Le-Israel B.M., Mizrahi-Tefahot Bank, the First International bank of Israel Ltd. and the Bank (hereinafter: "the banks"), in the matter of communication of information regarding commissions ("the Commissioner's Statement"). Under Section 43(e) of the Antitrust Law, the Commissioner's statement serves as prima facie evidence for its contents in any legal proceedings.

In the wake of the publication of the Statement, the Bank and the other banks submitted appeals against the Commissioner's statement.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

On June 16, 2014 the Antitrust Tribunal approved the agreed order signed between the banks and the Commissioner ("the agreed order"), whereby it is determined that the banks would pay an amount of NIS 70 million, of which an amount of NIS 14 million to be paid by Discount Bank ("the payment"), and this without the banks admitting their liability under the provisions of the law or admitting a violation on their part of the provisions of the law. In view of the approval of the agreed order by the Antitrust Tribunal and to the deposit of the payment by the banks, the Commissioner's statement was cancelled and no enforcement measures would be taken against the banks in connection with the investigation that had led to the publication of the decision.

It has been determined, within the framework of the agreed order, that the payment may be used for compromise arrangements that might be reached by the banks as regards class actions that are pending against them, and which are detailed in the agreed order. The balance of the payment, which would remain at the end of twenty-four months from date of approval of the agreed order, shall be assigned to the State's Treasury.

7. **Agreement between the Swiss Authorities and the U.S. Department of Justice.** On August 29, 2013, an agreement between the Swiss Authorities and the U.S. Department of Justice regarding the program for the settlement of disputes was published regarding deposits of U.S. citizens with Swiss banks (Program for Non-Prosecution Agreements or Non-Target Letters for Swiss Banks).

The program differentiated between a number of categories. Category No. 1 included banks being under investigation or proceedings with the U.S. Department of Justice. According to publications, this category included fourteen banks and such banks were not permitted to participate in the program. It should be noted that IDB (Swiss) is not under investigation or other proceedings by the U.S. Department of Justice.

Category No. 2 was designed for banks that assume the existence of a possibility of effecting violations as detailed in the program. According to the program, banks wishing to be included in this category, could have applied to the U.S. Department of Justice until December 31, 2013, for an agreement for avoiding criminal charges against the bank (Non-Prosecution Agreement), and this only after the Justice Department receives and studies a report of an independent examiner submitted by the applying bank, and subject to the consent of the applying bank to pay a fine in an amount derived from the amount of funds deposited with it by its U.S. customers during the period relevant to the program.

Category No. 3 was designed for banks that declare and commit that they had not effected violations as detailed in the program. Banks that wished to be included in this category had to apply to the U.S. Department of Justice from July 1, 2014 to December 31, 2014, for conformation that they are not targeted for enforcement actions by it (Non-Target letter). As stated in the program, if it is found retroactively that the examination report does not support the original declaration, the case would be handled at the discretion of the U.S. Department of Justice.

The said alternatives of the program required the delivery to the U.S. Department of Justice of information of various scopes, where in the case of Category No. 2 (non-prosecution agreement) detailed information regarding the said accounts was required.

Following an examination of the plan and relying, among other things, on outside legal advice rendered to IDB (Swiss) Bank, the Bank and IDB (Swiss) Bank decided not to join the plan.

To the extent that IDB (Swiss) Bank would have elected to participate in the program under category No. 2, than the maximum fine computed in accordance with the approach detailed in the Swiss program with respect to all accounts of U.S. persons held by it, would have been reduced in relation to accounts that would have been recognized under the program as tax compliant, or as such which joined the voluntary disclosure program with the encouragement of IDB (Swiss) Bank, or as such that are out of scope of the program.

According to the examination of IDB (Swiss), with the assistance of an external consultant, and considering the deductions detailed above, the worst case scenario does not amount to a material sum to the Bank.

It is emphasized that in any event, the result of the said review is considered a crude assessment only, due to the fact that the formula in question is not a simple one but a formula requiring specific and complex discussions with the U.S. Justice Department, mostly due to the fact that different reliefs exist under the program, the effect of which is difficult to assess beforehand.

The Bank informed IDB (Swiss) Bank that as long as it maintains the control thereof, it is the Bank's intension to secure the financial ability of IDB (Swiss) Bank to comply with the regulatory requirements in Switzerland, as required for its business activity.

## 8. CONTINGENT LIABILITIES AND SPECIAL COMMITMENTS (CONTINUED)

### B. Contingent liabilities and other special commitments (continued)

**Examination and investigation actions by the U.S. Authorities.** According to publications and reports, certain Israeli banks are under different stages of examination and investigation on the part of the U.S. authorities.

It was published on December 22, 2014, that the Bank Leumi Group had reached an arrangement of the "Deferred Prosecution Agreement" type with the U.S. Department of Justice, and also reached an additional arrangement with the Financial Services Authority of the State of New York (hereinafter – "the Leumi arrangement"). According to the arrangement, Bank Leumi admitted conducting a series of operations, the aim of which, according to the publication, was assisting tax evasion by its U.S. customers. According to the arrangement, the U.S. Department of Justice agreed to defer the filing of an indictment against the Bank Leumi Group for a period of twenty-four months, during which Bank Leumi is required to abide by the commitments detailed in the agreement. Moreover, various sanctions have been imposed on the Bank Leumi Group, including the payment of a fine in the amount of US\$400 million.

The Bank Leumi arrangement has been presented and discussed at the Bank following its publication. This arrangement is based on specific facts dealing with many and continuous operations attributed to different companies in the Bank Leumi Group and as far as can be discerned from the publications, the agreement had been prepared and formed over a long period of time, with considerable investment of resources and of work time of consultants, the data itself remaining undisclosed. The agreement does not detail the formula for the fine, which determines the amounts that the Bank Leumi Group has agreed to pay, except with respect to the operations of Leumi in Switzerland. It would seem that in part, the amount of the fine had been based on agreements as to the amounts of tax evasion by customers, deriving from and in respect of activities attributed to the Bank Leumi Group. According to the published arrangement, the fine paid by Bank Leumi in respect of its operations in Switzerland, is derived from the formula detailed in the program with respect to category No.2.

The Bank has no knowledge of investigative actions taken against the Bank or against any of its extensions by the U.S. authorities, as regards U.S. customers who had not complied with their obligations according to U.S. tax laws. Furthermore, as published, IDB (Swiss) Bank is not one of the corporations included in the category No. 1 of the Swiss program (namely, banks under investigation, which, therefore, may not participate in the Swiss program).

The Bank is adopting a series of measures for the management of the risk involved in its operations with its U.S. customers. However, in view of the said enforcement actions and due to the uncertainty existing in this matter, it is not possible to assess the risk involved in these operations.

8. On April 29, 2015, a member of a provident fund, which in the past had been managed by MDB, approached the present managing body of that provident fund, raising various arguments in the matter of life assurance in his respect being a member of the provident fund. The member informed of his intention to file for approval of a class action in this matter. The present managing body of the provident fund informed MDB of the said approach, in view of the agreement for the sale of the provident fund signed in the past by MDB. MDB has no knowledge as to which years does that member refer to in his arguments and as to the scope of the financial damage alleged by him.
9. **An agreement for provision of services to government employees.** Note 19 C 17 to the financial statements as at December 31, 2014 described the agreement in question. On June 30, 2015 the engagement with the Accountant General was concluded, and the Bank was refunded on July 31, 2015, an additional sum from the special deposit deposited at the time (NIS 86 million). At the end of each calendar year, the Bank will be required to provide an unconditional self-obligation to the sum of 10% of the balance of the loans or NIS 20 million, whichever is lower, until the full settlement of the loans provided within the framework of this engagement.

## 10. BALANCES AND FAIR VALUE ESTIMATES OF FINANCIAL INSTRUMENTS (CONTINUED)

### E. Additional details regarding significant unobservable inputs and valuation techniques used for the measurement of fair value of items classified to level 3 (continued)

#### 1. Quantitative information regarding the measurement of fair value at level 3 (continued)

Audited				
	Fair value as at December 31, 2014	Valuation Techniques	Unobservable inputs	Range (Weighted Average)
	In NIS millions			In %
<b>A. Items measured at fair value not on a recurring basis</b>				
Impaired credit the collection of which is collateral dependent	1,478	Discounted cash flow, assessments and evaluation	Discount rate, real estate market inputs	
Other	13	Assessments and evaluation, valuation by an expert assessor	Company value	
<b>B. Items measured at fair value on a recurring basis</b>				
<b>Net Assets in respect of derivative instruments</b>				
Other Interest Rate Contracts	145	Discounted cash flow	Counterparty credit risk (CVA)	From 0.00% to 9.52% (0.30%)
Foreign Exchange Contracts	551	Discounted cash flow	One year period inflation expectations	From -1.59% to 3.00% (0.24%)
		Discounted cash flow, Models for the pricing of options.	Counterparty credit risk (CVA)	From 0.00 to 17.40% (1.46%)
<b>Net Liabilities in respect of derivative instruments</b>				
Shekel/CPI Interest Rate Contracts	19	Discounted cash flow	One year period inflation expectations	From -1.75% to 3.00% (0.27%)
			Counterparty credit risk (CVA)	From 0.00% to 7.90% (2.12%)

#### 2. Qualitative information regarding the measurement of fair value at level 3

Significant unobservable inputs, which were used to measure the fair value of derivative financial instruments, are expectations of inflation up to one year, and adjustments regarding counterparty credit risk (CVA).

As the inflation forecasts rise (fall) and the Bank commits to pay the index-linked amount, so the fair value falls (rises). As the inflation forecasts rise (fall) and the counterparty to the transaction is obligated to pay the Bank the index-linked amount, so the fair value rises (falls).

The counterparty credit risk coefficient (CVA) expresses the probability of credit default of the counterparty to the transaction. A rise in the default probability reduces the fair value of the transaction, and vice versa.

## 11. INTEREST INCOME AND EXPENSES – CONSOLIDATED

- (1) Of which, a part of the income (losses) relating to trading bonds that are still on hand at balance sheet date
- (2) Of which, a part of the losses relating to trading shares that are still on hand at balance sheet date
- (3) Reclassified from accumulated other comprehensive income, see Note 14:
- Of which income, from investments in bonds, net
- Of which, from investment in shares
- (4) Derivative instruments comprising a part of the Bank's asset and liability management layout, not designated for hedge relations.
- (5) Including exchange rate differences from trading operations.
- (6) For interest income on investments in trading bonds, see Note 11, above.
- (7) An amount lower than NIS 1 million.

### 13. BUSINESS SEGMENTS – CONSOLIDATED

**A. General.** Equity is being allocated to each segment according to risk assets of the particular segment, in respect of which the segment is credited with theoretical interest. The return of each segment is computed according to the amount of equity allocated to the segment. As detailed in Note 31 B 3 to the financial statements as of December 31, 2014, in 2014 the equity allocated to the various segments was at the rate of 8.5%. Beginning with January 1, 2015, equity is allocated to the different segments at the rate of 9.0%, in accordance with goals determined by the Board of Directors (with an addition of 0.012% per quarter, in accordance with the additional capital requirements with respect to housing loans – see Note 5 1 (b) above).

**B. Changes in the cost allocation model**

In view of the period of time that has passed since the formation of the model for the allocation of costs used in the preparation of the operating segments data, and among other within the framework of the preparations for the implementation of the instruction regarding the regulatory operating segments (see Note 1 F 1 to the condensed financial statements), the Bank has performed a comprehensive review of the cost allocation model, making therein the necessary changes. The new model was initially implemented in the first quarter of 2015.

In view of the significance of the change, and respectively, in view of its impact on the comparability between the data for the current period and the data for prior periods, it has been decided to restate the comparative data for prior periods in accordance with the new model.

The material change in the new model refers to the manner of analyzing and treating indirect expenses. The model deals in a more detailed manner with indirect expenses, therefore it reflects in a more precise manner the allocation of operating expenses at the level of the measurement units.

The method for the implementation of cost allocation is based on an allocation costing, in a manner in which all operating expenses are attributed to profit centers and cost centers, both as direct expenses of the centers and as expenses allocated to the centers by means of allocation mechanisms based on the cost generators of the various costs.

The new allocation method for operating expenses creates a better measurement of the results of the measuring units as well as a better distribution of operating expenses among the different segments (management segments and in the future also regulatory segments) measured by the Bank's Management.

The methodologies of the model are based on several principles, as follows:

- Mapping of the profit centers and of the cost centers, based on the organizational structure of human resources;
- Determination of the type of measurement units;
- Determination of the relations between the analytical units and the measured units;
- Designing the organizational structure for the purpose of measurement;
- Mapping and examination of the flow of expenses relevant to the model;
- Mapping the expense items and determination of criteria for the classification of an expense as a direct/indirect expense;
- Determination of the principles and criteria for attributing the budget items to the consuming units;
- Determination of the process for attributing, moving and allocating expenses at several stages based upon allocation processes in accordance to the nature and substance of the unit/expense.

**C. Changes in classification**

- (1) The improvement of the computation formula used to allocate the cost of capital to the various segments, which caused a reclassification of net interest income between the financial management segment and the other segments;
- (2) Improvement of the classification to the relating segments of the outstanding credit balance in credit cards;
- (3) Improvement in the format of allocating the average balance of assets and the average balance of liabilities among the different operating segments and the financial management segment, considering the data of the subsidiary companies.

## 15. THE INVESTMENT IN THE FIRST INTERNATIONAL BANK ("FIBI")

### A. Data regarding the investment in FIBI

On June 30, 2015 the Bank's holdings in FIBI were 9.28% in the equity and in the voting rights. The cost of the shares in the Bank's books amounted to NIS 515 million as of June 30, 2015.

The market value of the Bank's holdings in FIBI totaled on June 30, 2015: NIS 501 million. The market value of this investment at August 16, 2015: NIS 524 million.

### B. An agreement with FIBI Holdings - 2010

The Bank and FIBI Holdings signed an agreement on March 28, 2010, which, among other things, limited the period in which Discount Bank shall have the right by which FIBI Holdings shall continue to support the appointment of one quarter of the directors of FIBI from among candidates recommended by Discount Bank. Details regarding the highlights of the agreement and regarding the approvals of the Supervisor of Banks and the Antitrust Commissioner with respect to the agreement, including the timetable determined by the Antitrust Commissioner for the reduction in the interest held by Discount Bank in FIBI, were brought in Note 6 D (1) to the financial statements as of December 31, 2014.

### C. Sale of shares in February 2015.

On February 19, 2015, the Bank sold 7,054,625 shares of FIBI, comprising approx. 7% of the share capital of FIBI. The balance of the shares in the First International Bank held by the Bank comprises 9.28% of the share capital of FIBI. The sale was made in an off-market transaction, at a price of NIS 0.4951 per share, reflecting a discount of 2.5% on the base price for the February 19 trading day. The total consideration amounted to NIS 349 million.

In consequence of this sale and the decrease in the Bank's rate of holdings in the shares of FIBI to below 10%, the exceptional impact of the investment in these shares on capital adequacy has been removed, a fact that brought about an improvement in capital adequacy already in the first quarter of 2015. Completion of this move constitutes the Bank's attainment of a relevant milestone in the sale outline determined by the Antitrust Commissioner, prior to the final date that had been fixed for this sale.

In respect of the above, a loss on impairment of a nature other than temporary (OTTI) in the amount of NIS 47 million, net, was recorded in the financial statements as of December 31, 2014.

## 16. CREDIT CARD ACTIVITY

### A. Arrangements between the credit card companies and between such companies and the banks

**Agreement with Bank Otsar Ha-Hayal.** An agreement was signed on March 31, 2015, between ICC and Diners and Bank Otsar Ha-Hayal Ltd. (hereinafter: "Otsar Ha-Hayal"; "the agreement"). The agreement is for a period of five years since date of signature, and would be extended for further periods of five years each, unless one of the parties informed the other party, six months prior to the end of the agreement period, of his wish not to extend the agreement for an additional period.

Within the framework of the agreement, ICC and Diners would issue credit cards to Otsar Ha-Hayal customers and would provide them with the services involved in the issue of the cards to customers and inherent in the use thereof. The agreement establishes the rights of the parties as well as the operating arrangements and the provision of services by ICC and/or Diners in respect of the charge cards issued in terms of the agreement and the remaining terms relating thereto.

### B. (1) Events regarding the clearing of international electronic trade transactions and other matters.

In the second half of 2009 and in the beginning of 2010, ICC faced allegations made by VISA Europe and the Global MasterCard Organization (hereinafter: "the international organizations") with respect to prima facie violations of the rules of these organizations pertaining to the clearing of international electronic trade, in transactions effected by a subsidiary of ICC, ICC International (which had in the meantime been merged with and into ICC). In this framework, fines have been imposed on ICC and its activity in this field of operations has been restricted for a period of several months.

ICC has immediately implemented a reduction plan in order to comply with the requirements of the international organizations, in the framework of which it applied various measures, including changes in the company's management.

A number of trading houses and clusterers had raised demands regarding the burden of monetary sanctions applying to them and the reduction in electronic trade clearing operations conducted with them, which as alleged by them, resulted in heavy damage.

## 16. CREDIT CARD ACTIVITY (CONTINUED)

**(2) Notices by the State Attorney.** In continuation of the investigation conducted by the police, ICC received on December 3, 2014, a notice from the economic department of the State Attorney Office, according to which a file with regards to an investigation of suspicions against ICC, had been delivered for perusal of the State Attorney.

On April 20, 2015, ICC received a notice from the State Attorney Office, to which was appended a "suspicion letter", according to which the State Attorney is considering the filing of an indictment against the company, in respect of perpetrating offences of fraudulent conversion under aggravating circumstances and money laundering.

The suspicion brief describes two cases in which, according to the Prosecution, ICC was involved together with others.

In the first affair it has been alleged that during 2006 through 2009 (hereinafter: "the relevant period"), ICC, through who has officiated as CEO of ICC in the relevant period and the CEO of ICC International in the relevant period (jointly and severally: "the Officers"), together or with others, acted fraudulently regarding false coding of transactions cleared by ICC, and also acted in contradiction with the Prohibition of Money Laundering Act. In the second affair it has been alleged that ICC, through the Officers and together or with others, has presented false display with regards the splitting of trading houses records who has cleared through ICC, thus receiving funds and producing gains fraudulently, as well as acting in contradiction with the Prohibition of Money Laundering Act. The transactions turnover that as alleged is attributed to ICC in relation with the alleged offences is NIS billions.

As stated, in the announcement of the State Attorney ICC has the right to submit a motion to refrain from filing an indictment, whether in writing or by way of an oral plea.

In May 2015, the representative of ICC received a copy of the core of the investigation material in this case. In continuation thereof, a hearing of ICC's arguments in the matter was fixed for October 2015. The decision whether to file an indictment against ICC, and to the extent that a filling of an indictment will be decided, than which offences and on the basis of what facts an indictment will be filed, will be determined only after ICC has exhausted its right for a hearing.

In the opinion of its legal consultants, ICC has good arguments against being indicted and intends to present them at the hearing to be conducted.

According to the law, the Court is authorized to impose fines on ICC in respect of the alleged offences, as well as instructs the forfeiture of funds, if such funds are proved to be offence monies.

ICC and the Bank, based on the opinion of their legal consultants, are of the opinion that, at this early stage, prior to the holding of a hearing it is not possible to assess the result of the oral plea, it is not possible to assess whether an indictment will be filed, and if so, than on what charges and against whom it will be filed. Furthermore, it is not possible to assess what the results of the procedure to be taken will be, if at all taken, and its impact on ICC.

In the event that the claims raised in the letter of suspicions are admitted, they might expose ICC to various additional risks, the chances of the realization of which cannot be assessed. ICC has strong arguments against them.

The Supervisor of Banks informed ICC on April 20, 2015, that in view of the notice of the State Attorney as stated and the "suspicions letter" attached to it, he instructs ICC not to distribute a dividend until the termination of the proceedings, clarification of the consequences thereof and its impact on the financial position of ICC.

**(3) Motion for approval of a derivative claim.** On May 7, 2015, the Bank received a claim together with a motion for approval of the claim as a derivative action (numerous), that had been filed with the Tel Aviv-Yafo District Court. The Court is requested to approve submission of a derivative action against sixteen officers and other executives officiating during the relevant period and by a subsidiary of the subsidiary "ICC International Ltd.", which on December 31, 2009, merged into ICC and was struck off ("the granddaughter company"), in respect of the alleged damage caused to ICC and the granddaughter company and further damage expected to be caused to it, as alleged, with respect to their international clearing operations in the years 2006-2009.

## 16. CREDIT CARD ACTIVITY (CONTINUED)

The Appellant claims that the respondent Officers and other responsible employees, had, among other things, violated their duties causing, as claimed by him, the alleged damage, which is assessed by him at NIS 100 million. The Appellant further argues the potential risk of forfeiture of funds to the tune of NIS billions, as part of the criminal proceedings, if instituted, and of reputation and other damages that are not being assessed, all as claimed by the Appellant.

The Court ruled that the response by the Respondents to the motion is to be filed by July 7, 2015. With the consent of the Appellants, the date for submission of a response has been deferred to September 6, 2015. A petition for a further extension was recently approved.

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY

On March 19, 2013, the team examining the increase of competition in the banking industry submitted its final report, the team, headed by the Supervisor of Banks ("Zaken Committee"), who was appointed in December 2011, by the Governor of the Bank of Israel and the Minister of Finance, following the recommendation of the Committee for Social-Economic Change ("Trachtenberg Committee").

The team has examined ways and means for increasing competition in the banking industry, focusing on services provided to households and small businesses. The final report includes recommendations regarding various issues, intended to increase competition in the banking industry, among which were increasing the number of market participants, improving the credit data area, increasing the power of the customer and simplification of the banking product.

The final report includes recommendations made in the interim report as well as reference to matters relating to the implementation of the recommendations, including:

- 1) Simplifying the closing of a bank account and the transfer to another bank, by means of improving and facilitating the process of transferring the authorizations to charge the account;
- 2) The establishment of an interoffice team headed by the Capital Market, Savings and Insurance department at the Ministry of Finance, for the formation of measures for the granting of retail credit from pension savings sources and the removal of regulatory barriers existing at the present time;
- 3) Recommendation for changing the definition of the small business population to which the retail tariff will apply.

Since publication of the interim report, the team is acting towards the implementation of the recommendations, which involves amendment of instructions that are the authority of the Supervisor of Banks and the Governor of the Bank of Israel. Concurrently, the team is furthering the implementation of the recommendations, the implementation of which require amendments of principal legislation. Furthermore, the Supervisor of Banks is taking further action intended to improve competition and increase transparency in the management of current accounts.

**Banking Law (Customer service) (Amendment No. 19) Bill, 2013.** The Supervisor of Banks published this Bill on July 8, 2013.

The principal provisions of the Bill are:

- A change in the definition of the term "customer" – according to which a customer would be an individual which is not a business as well as a small business as determined by the Governor in the Rules (based on business turnover);
- Authorizing the Supervisor of Banks to publish data regarding interest rates applied by banks to deposits and credit.

**Amendment to the Banking Rules (Customer service) (Commissions), 2008.** The Amendment was published in the Official Gazette on November 28, 2013. The Amendment will take effect on April 1, 2014. However, effect of the Section dealing with the change in the definition of "small business", was delayed until the date on which the relevant section in the amendment to the Banking Act (Service to customer), 1981, will take effect (see above).

The principal provisions of the Amendment are:

- Change in the definition of the term "small business" – in accordance with the Amendment, also individual customers, being a business, are to be classified as a "small business" on condition that the banking corporation did not find out that their business turnover exceeds NIS 5 million. For this purpose, in the circumstances detailed in the amendment, the banking corporation may require such an individual to provide an annual report, as defined in the rules and if its demand has not been answered, the banking corporation would be entitled to classify it as a business that is not a small business;

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY (CONTINUED)

- Reduced minimum commission relating to a direct lane transaction and teller operation;
- Commission tracks:
  - Banking corporations will be required to offer customers (individuals/small businesses) two commission tracks (uniform services assortments for the management of current accounts): the basic track (includes one teller transaction and ten direct track transactions) and an extended lane (includes up to ten teller transactions and up to fifty direct track transactions);
  - In addition, a banking corporation may offer a third track: an extended-plus track (includes the services provided by the extended track as well as additional services, as determined by the banking corporation).

**Banking Order (Service to customer) (Supervision over basic track service), 2014.** This Order, which was published on the Official Gazette on March 26, 2014, imposes supervision over the basic service track and determines that its maximum cost would be NIS 10. The Order is effective as from April 1, 2014.

The Bank is preparing for the implementation of the amendment to the commission rules and the said Order, and accordingly the commission tracks at the Bank became effective on April 1, 2014.

**Amendment to the Banking Rules (Customer service) (Commissions), 2008.** The Amendment was published in the Official Gazette on January 29, 2015, and took effect on February 1, 2015 (except for certain provisions which would become effective at a later date, see below).

The main provisions of the Amendment are as follows:

- Commission tracks: A banking corporation has to allow any customer to join a commission track by informing the bank at the branch or via fax or by the customer's account on the Internet or by a recorded telephone message. The customer will be entitled to cancel his joining by giving notice by the same aforesaid means; bank transactions exceeding the number of transactions determined for the commission tracks, are subject to the notes stated in the full pricelist relating to transactions effected at the counter at a price of a direct channel transaction; total commissions which a bank may charge in respect of account closing operations as detailed in the full price list does not include commissions in respect of tracks; the full price list has to add that the basic track is under supervision;
- Change in the "small business" definition – the classification of a corporation as a "small business" will not be limited to a year and the corporation will not be required to furnish the bank with an additional annual report in order for the classification to continue (except in the circumstances specified below); if the banking corporation has reasonable grounds for assuming that the business turnover of that corporation exceeded NIS 5 million in the last year, it will be entitled to send a written demand to the corporation that it provide the bank with an annual report. If the corporation fails to respond to the bank's demand, the bank will be entitled to classify the corporation as a business that is not a "small business";
- In respect of a transfer by the RTGS system of an amount of up to NIS 1 million, a teller operation commission will be charged, while the commission stated in the full pricelist in respect of a transfer by the RTGS system would apply to a transfer of amounts of over NIS 1 million;
- No commission may be charged in respect of a direct channel operation in respect of charge transaction using an immediate debit card;
- Commission regarding the handling of cash by a teller – in the case of providing service which includes a combination of two or more of the transactions included in the service, the Bank would be entitled to charge one commission only, the higher of the commissions in respect of these transactions;
- A commission may be charged for the issue of an ownership confirmation starting with the second confirmation in a calendar year;
- Housing loan ledger fees and collection fees in respect of non-housing loans granted immediately prior to the application of the new rules, will be abolished;
- A change in the definition of "small business" for the purpose of the application of those parts of the pricelist applying to the clearing of transactions made by debit cards and discounting services for trading houses. For this purpose, a business of a private individual or of a corporation during the first year since the beginning of its operations, or which the clearing turnover of transactions by debit cards made on its behalf by the banking corporation does not exceed NIS 3 million, shall be considered a small business. Examination of the clearing turnover shall be performed in accordance with the data existing in the hands of the banking corporation;

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY (CONTINUED)

- A definition of "change" has been added – the handing of a note or coins or a combination of the two in exchange for receiving a note or coins or a combination of the two in a value equal to the amount denominated therein, excluding the exchange of an old legal tender for a new legal tender;
- An addendum to the definition of "the start of obtaining the service" as regards the clearing of debit cards – upon the signing by the customer of the clearing agreement. The change takes effect on February 1, 2015;
- Excluding the commission in respect of clearing services for debit transactions from the rule, according to which, a commission which a banking corporation is entitled to charge for a service included in the pricelist for small businesses shall not exceed that determined in the pricelist for a large business. This instruction will take effect on July 1, 2015;
- The duty has been set for the presentation of a summarized pricelist also to customers obtaining from the corporation clearing services for debit card transactions, and also an addendum to the rules regarding the format of the summarized pricelist has been added;
- In Part 6, the part of credit cards in the full pricelist: the deferred payment commission shall be abolished; changes were made with respect to the commission in respect of foreign currency transactions and in respect of the withdrawal of foreign currency abroad. On March 23, 2015, an update was published in respect of the effective date of these changes. The changes will take effect on July 1, 2015 (instead of April 1, 2015);
- Section 12 of the full list price includes a list of services regarding the clearing of debit card transactions field, in respect of which commissions are chargeable in accordance with the price list;
- Section 13 of the pricelist has been added – "discounting services for trading houses";
- A summary price list was added for customers receiving from the bank clearing services for debit card transactions;
- Entering into effect of Sections 12 and 13 of the pricelist, presentation of the summarized pricelist to customers receiving clearing services, and the change in the definition of a "small business" as regards Sections 12 and 13 of the pricelist, took effect on July 1, 2015.

**Draft Amendment of the Banking Rules (Customer service) (Commissions), 2008.** An updated draft was published on March 9, 2015, within the framework of which it is proposed as follows:

- to abolish the commission charged to the depositor in respect of a dishonored check;
- to apply control to "notices" commission, the intention of the Supervisor of Banks being to determine a maximum price for such a commission, in accordance with the direct cost involved therein;
- to eliminate the possibility of charging a commission in respect of delivery of follow-up letters;
- to determine that "card fees" shall not be charges in respect of an immediate debit card issued to a customer who has already a credit card issued by that same banking corporation;
  - Changing the definition of "credit card" to "debit card";
  - Amendments to Part 6 to the First Addendum ("debit cards") and to the pricelist of debit cards (the addition of the possibility for the presentation of the price of services in the foreign currency pricelist, cancellation of card fees for immediate debit cards issued to customers holding a credit card issued by the same corporation, amendments relating to commissions in respect of foreign currency transactions and the withdrawal of foreign currency abroad).

**Banking Order (Customer service) (Supervision over notices or warning service), 2015.** The Order was published on May 26, 2015, and declares the "notices or warning service" as a service under supervision. The maximum commission amount that may be charged for such service would be NIS 5. The Order will take effect on July 1, 2015.

**Letter by the Deputy Supervisor of Banks in the matter of tracks service.** In a letter dated June 21, 2015, the Deputy Supervisor of Banks instructed banking corporations to carry out several actions, as detailed in the letter, in order to verify that the tracks service is presented to the relevant customer public in the best possible manner. The Bank is preparing for the implementation of the requirements included in the letter (it is required to prepare until October 1, 2015).

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY (CONTINUED)

**Proper Conduct of Banking Business Directive No. 423 in the matter of "tracks service".** The Directive was issued on June 21, 2015. With the aim of enhancing customer awareness of the tracks service and their characteristics, banking corporations are required by this Directive as follows:

- To provide new customers upon the opening of an account, with the reduced pricelist, an explanatory leaflet regarding "tracks service", which, among other things, presents the prices in each track as compared with the price of services included therein, according to the reduced pricelist outside the framework of the service, as well as information regarding the manner of joining the "tracks service" option;
- To obtain, upon the opening of a current account, a clear indication from the customer in writing as to the option elected by him for the charging of fees to his account (whether by way of a track service and which one of them, or by charging fees per transaction);
- With respect to existing customers – in order to enable them to make an informed decision as to the fee charging method most suitable to the nature of their operations, a banking corporation has to provide a customer wishing to join a track service, prior to his doing so, with information in writing regarding the amounts of commission charged to his account during the quarter preceding the quarter prior to the date of his application to join a track service, or in the quarter preceding the date of such application, in respect of services included in the track, including the commission supplementing the minimum charge, divided by type and number of transactions made by the customer and by months;
- Advertise in a prominent place on the main page of the Internet website of the bank, a link under the name of "Commissions – tracks service" to the explanatory page regarding tracks service.

The Directive takes effect on January 1, 2016, except for the instruction to advertise the link on the Internet website, which takes effect on August 1, 2015.

The Bank is preparing for the implementation of the Directive.

**Banking Rules (Customer service) (Proper disclosure and delivery of documents) (Amendment), 2014.** The Amendment to the Rules was published on October 7, 2014. The principal elements of the Amendment are:

- A banking corporation has to publish also on its Internet website, various data that under these rules have to be published on a notice board in the bank's branches;
- Requiring a banking corporation to provide to anyone wishing to open an account for business purposes, an explanatory paper, in a separate paper, that includes, among other things, clarifications regarding the practical meaning of the classification of an account as a "small business" account with respect to the services price list;
- Requiring the banking corporation to provide to each customer wishing to join this lane, prior to his joining, information in writing regarding commission amounts charged to him during the quarter before the quarter preceding the date of submission of the joining application, in respect of services included in this lane, in the manner detailed in the Amendment;
- Authorization of The Supervisor of Banks to determine various instructions as regards the information to be provided to a customer, as above.

The Amendment entered into effect in full on November 7, 2014.

**Amendment of Banking Rules (Customer service) (Proper disclosure and submission of documents), 1992.** The Amendment was published in the Official Gazette on December 30, 2014.

The principal provisions of the Amendment are:

- Granting the Commissioner the power to determine types of account and terms, which, if in existence, the signature of the customer on certain types of agreements stated in the rules, would not be required;
- Requiring the banking corporation to publish on its Internet website agreements of the certain types stated in the rules, and which are considered uniform contracts, as defined in the law;

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY (CONTINUED)

- Requiring the banking corporation to deliver to the customer or to present in the account of the customer on the website of the banking corporation a copy of an agreement or a document of the types detailed in the rules, which did not required the customers signature, proximately after obtaining his approval to their contents or alternatively present it in the account of the customer on the bank's website or their delivery by Email, subject to allowing him the possibility of printing and keeping the agreement/document, as stated. With respect to an agreement or document prepared in the presence of the customer, the possibility has been added of presenting it in the account of the customer on the bank's website or of delivery thereof by Email, subject to obtaining in writing the specific agreement of the customer to the delivery in the said manner.
- Determining various changes relating to the notices which a banking corporation has to deliver to customers regarding changes in the terms of managing their accounts;
- Determining an additional exception to the instruction with respect to the non-delivery of notices under the rules to a customer residing abroad, and who has not provided an address in Israel for delivery of notices, and this in case where the customer has asked to receive notices via the Internet website of the banking corporation;
- Determination that a banking corporation is required to inform the data that has to be delivered under the rules, in respect of a loan for a period exceeding one year, which is repayable in installments, once in each year and no later than February 28.

The rules enter into effect of January 1, 2015, except for the sections dealing with types of accounts and terms under which certain agreements with the customer shall not require his signature and by presenting agreements or documents in the customer's account on the bank's website or delivering them by Email.

The amendment regarding notices to certain customers pertaining to changes in the terms of management of their accounts will enter into effect on April 1, 2015.

**Proper Conduct of Banking Business Directive No. 414 in the matter of disclosure of services in securities costs.** The instruction was published by the Supervisor of Banks on April 3, 2014. The principal items of the directive are: the duty to present to a customer who was charged with Israeli and/or foreign securities commission, within the framework of the semi-annual statement of commissions. Comparative data regarding commissions paid by customers holding deposits of similar value to that of the deposit held by the customer, this in the manner as detailed in the instruction; the duty to present on the Internet website of the Bank the said comparative data relating to the data for a period of six months; the duty to present to the customer, within the framework of the semiannual statement of commissions, detailed data relating to securities commission charged to him during a period of six months in the manner detailed in the directive. The directive will become effective on January 1, 2015. The Bank is implementing the requirements in accordance with the directive.

**Proper Conduct of Banking Business Directive No. 425 in the matter of "Annual reports to customers of banking corporations".** The Supervisor of Banks published on November 19, 2014, a Proper Conduct of Banking Business Directive in the matter of "annual reports to customers of banking corporations", comprising the implementation of the Zaken Committee recommendations in the matter of "bank identity card".

The directive is designed to regularize the annual reporting duty of the corporation for customers matching the definition of "individual" and "small business", as regards all assets and liabilities of the customer with the banking corporation, including his total income and expenses during the year regarding assets, liabilities and current operation in his account.

The annual report is intended to assist customers in making educated consumer decisions, to improve the ability of customers to follow their activity in the account and to increase their ability to compare various banking products and services.

The Supervisor of Banks stated that the directive requires indirect amendments and certain adjustments of the proper disclosure rules, which shall be made further on.

It should be noted that the implementation of the various procedures as described above, will require the Bank to make wide range computerized preparations, training of staff and determination and absorption of work procedures, at a financial cost that cannot be assessed at this stage, and all this within a relatively short period of time.

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY (CONTINUED)

The Directive takes effect on February 28, 2016, with respect to the 2015 annual report. However, it is further stated in the directive that the data regarding the credit rating will not be presented until an explicit instruction is issued by the Supervisor of Banks, though the banks must be ready to present this data starting with the said date.

**Amendment of Proper Conduct of Banking Business Directive No. 439 in the matter of account charging authorization.** On September 1, 2014, the Supervisor of Banks published the amendment to the Directive. The object of the amendment is to face the difficulties involved in the process of transferring a charge authorization relating to an existing account with one bank to a new account with another bank, a matter identified as a central barrier facing customers wishing to change banks. The principal items of the amendment are: a new chapter "Submitting an application for establishment of an authorization to charge an account" has been included, which regularizes the process of submitting an application for authorization to charge an account, directly by the customer or by the beneficiary (subject to obtaining a written consent of the customer).

Among other things, this chapter determines a mechanism for the transfer of a list of items from the customer or from the beneficiary to the bank, using each one of the communication means defined in the amendment; instructions have been determined regularizing the response to the customer and to the beneficiary within five business days, and stating that where the response is positive, the bank has to establish the authorization within the said time period; the chapter "Application for a change of account charged by authorization" has been updated and a new process has been determined, within the framework of which, for the transfer of authorization to charge an account from one bank to another, which includes several stages: submission of an application by the customer for the transfer of charges by authorization, examination of the authorization data and the establishment and transfer of information to the beneficiary.

The effective date for the amendment has been fixed for October 11, 2015.

**Proper Conduct of Banking Business Directive No. 418 in the matter of the opening of accounts via the Internet.** On July 15, 2014, the Supervisor of Banks published the Directive, constituting an additional layer in the adoption of the Zaken Committee recommendations. The Directive details the matters required from banking corporations, which are interested in allowing the opening online of bank accounts for customers, and determines limitations on operations in such accounts, designed to reduce the risks involved in conducting an online account. According to the Directive, an account may be opened on the basis of a copy of an identity card, a copy of an additional identification document, and an online signature on a declaration under the Prohibition of Money Laundering Order. In addition, identification of the customer shall be made by a visual meeting as part of performing a broader "know your customer" process.

Accounts of this type would be limited in scope of their monetary operations. In addition, it would not be possible to appoint an "authorized signatory" for such an account, and checks issued to the owner of such an account shall be limited in endorsement. These limitations would be withdrawn only after a full face to face identification of the customer is made at the branch, in accordance with the provisions of the Prohibition of Money Laundering Order (Duties of identification, reporting and maintenance of records by banking corporations for the prevention of money laundering and terror financing), 2001. Implementation of the Directive has been postponed until the amendment to the proper disclosure rules of December 30, 2014 takes effect (see above), and to the publication of the circular of the Supervisor of Banks dated January 4, 2015, in the matter of types of accounts and terms under which an agreement with the customer shall not require his signature.

**Circular of the Supervisor of Banks in the matter of types of accounts and terms under which an agreement with the customer shall not require his signature.** Further to the amendment of proper disclosure rules (see above), the circular was published on January 4, 2015, taking effect on date of publication, and stated that with respect to agreements as detailed below, the customer's signature would not be required, on condition that the customer would be able to confirm on the website of the banking corporation that he had been given the possibility of reviewing the agreements:

Agreements regarding general business terms or the opening and managing of a current account, including an agreement which includes general terms for the provision of various banking services as detailed in the proper disclosure rules, to be opened online as prescribed in Proper Conduct of Banking Business Directive No. 418; an agreement for the deposit of funds for a specified period exceeding one year; agreement in the matter of telephonic instructions.

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY (CONTINUED)

**Amendment of Proper Conduct of Banking Business Directive No. 432 in the matter of "transfer of activity and closing down a customer's account".** The Amendment was published by the Supervisor of Banks on December 15, 2014, with the aim of simplifying the process of transferring the activity or the closing of an account of a customer.

The essence of the Amendment is as follows:

- The bank shall provide to a customer considering the feasibility of transferring to another bank or the closing of his account, a detailed annual report ("banking identity card") in a uniform format and easy to understand, updated to the month preceding the date of application, as well as a manual assisting the customer in understanding the actions involved in transferring the operations or in closing the account;
- A customer may apply for the closing of his account or for the transfer of activity from his account, not only by visiting the bank branch but also by the bank's Internet website, by e-mail, by telephone and by any additional means of communication in accordance with the bank's decision;
- The process of transferring operations shall be concluded within five business days since the date on which the customer submitted the application. The process of closing an account shall be concluded within five business days from the date on which the customer completed the actions which he had to execute in order to close the account. The process of transferring an Israeli securities portfolio shall be concluded within five business days from date of the instruction given by the customer, and the transfer of a foreign securities portfolio – within fourteen business days from date of the instruction. The Directive states that on date of closing the account, the account management agreement shall expire and it would be classified as a "closed account";
- A banking corporation shall not cancel benefits and rebates granted to the customer, only on grounds of his request for the transfer of activity or for the closing of an account;
- Guidelines has been determined in respect of cases where the customer applies for the transfer of current operations to another bank, though remaining in the account are rights or liabilities which are not yet due;
- Emphasis has been given to the possibility given to the new bank to act on behalf of the customer in all actions required to transfer the customer's operations from his old account to his account with the new bank and to close the account with the old bank.

The Directive partly took effect on January 1, 2015. Most of the material amendments in the Directive took effect on July 1, 2015. The amendments relating to the summarized and detailed information to be provided to the customer with respect to the operations in his account ("banking identity card") shall take effect on the date the Proper Conduct of Banking Business Directive No. 425 ("annual statements to customers of banking corporations") takes effect, namely, on February 28, 2016.

**Amendment of Proper Conduct of Banking Business Directive No. 435 in the matter of telephonic instructions.** The amendment to the Directive was published on January 4, 2015, and took effect upon the publication thereof. In accordance with the amendment, it is possible to present to a customer on the Internet website an agreement for the giving of telephonic instructions, and the confirmation by the customer on the said website, that he had been given the possibility of reviewing the agreement and that this will serve instead of his signature on the agreement.

**Amendment of Proper Conduct of Banking Business Directive No. 454 - "early repayment of a non-housing loan".** The amendment to the instruction was published on June 21, 2015. The amendment makes all individuals/small businesses (as defined in the Reporting to the Public Directives) subject to the formula prescribed in the directive for calculating the payment with respect to early repayment. As the basis for calculating the payment, the interest to be published from time to time by the Bank of Israel has been prescribed as the proposed value. The amendment makes non-housing loans subject to the rules prescribed in Proper Conduct of Banking Business Directive No. 451 (Housing Loans) with regard to the early repayment process, the extent of disclosure to the borrower and the ways for the borrower to notify the bank of his desire to make an early repayment. The amendment is part of the recommendations of the Zaken Committee. The instruction will take effect on April 1, 2016.

**Licensing and the establishment of banking associations in Israel.** The Supervisor of Banks published on May 5, 2015, an outline for the establishment of banking associations in Israel. The outline details the threshold terms for the establishment of banking associations in Israel, and the stages required for their establishment. The outline comprises an infrastructure for increasing the number of players within and outside the banking industry and forms an additional step towards the adoption of the recommendation of the team examining the intensification of competition in the banking sector.

## 17. REPORT OF THE TEAM FOR EXAMINING THE INCREASE IN COMPETITION IN THE BANKING INDUSTRY (CONTINUED)

**The Regularizing of Off-banking Loans (Amendment No. 3), Bill, 2015.** The Bill was published on July 20, 2015, towards its first reading by the Knesset. It is proposed by the Bill that the restrictions imposed by law on off-banking institutions shall also apply to banks. At this stage it is not yet possible to assess the effect of the Amendment upon the Bank.

Details regarding Banking Rules (Customer service)(Commissions)(Amendment), 2012, and the Letter of the Supervisor of Banks regarding the re-pricing of commissions in respect of securities operations, were brought in the 2013 Annual Report. Details regarding the Banking Rules (Customer service) (Commissions) (Amendment No. 2), 2012; letter of the Deputy Supervisor of Banks dated May 7, 2014, in the matter of tracks service; Proper Conduct of Banking Business Directive No. 421 in the matter of reduction or addition to interest rates, were presented in the 2014 annual report.

The Bank estimates that the income of the Group will be adversely affected by an amount assessed at approx. NIS 180 million per year.

## 18. ASSETS HELD FOR SALE – CONSOLIDATED

During 2013, the possibility of sale of the holdings of the Group in Discount Bank Latin America (hereinafter: "DBLA"), a wholly owned and controlled subsidiary of IDB New York was studied. Several potential buyers, noncommittally provided indications as to the consideration they might be ready to pay and have performed due diligence reviews, under limitations prescribed by the Bank. In January 2014, the Bank decided to continue examining the possibility of the sale of DBLA. The Bank's Board of Directors approved its intention to sell the holdings in DBLA and instructed the Management to continue negotiations in this respect. In view of the above, and noting that DBLA is not material at the Group's level, the assets and liabilities of DBLA as of December 31, 2013 (and since then), have been classified as held for sale.

As part of that stated above, a provision was included for impairment of available-for-sale securities of DBLA, the balance of which at June 30, 2015, amounted to US\$5.7 million, net (NIS 21.5 million; December 31, 2014: US\$ 5.8 million, NIS 22.6 million).

An agreement for the sale of the operations of DBLA was signed on December 18, 2014. The agreement is subject to conditions precedent, including various regulatory approvals, and accordingly it is not possible at this stage to predict when the transaction would be consummated. According to the agreement, all the conditions precedent must be completed within one year of signing. Incompletion of the conditions allows the parties to cancel the agreement.

In accordance with the agreement, the empty shell of the legal entity remaining in the wake of the transaction will be liquidated following the consummation of the transaction. In the interim period and until consummation of the transaction, DBLA shall continue to operate and conduct business in the ordinary course of business, as in the past, except for restrictions applying to material changes in its business operations.

A loss in the amount of US\$17 million (NIS 66 million) has been recorded in the financial statements as of December 31, 2014, as a result of this agreement, an amount of NIS 50 million after the tax effect.

## 18. ASSETS HELD FOR SALE – CONSOLIDATED (CONTINUED)

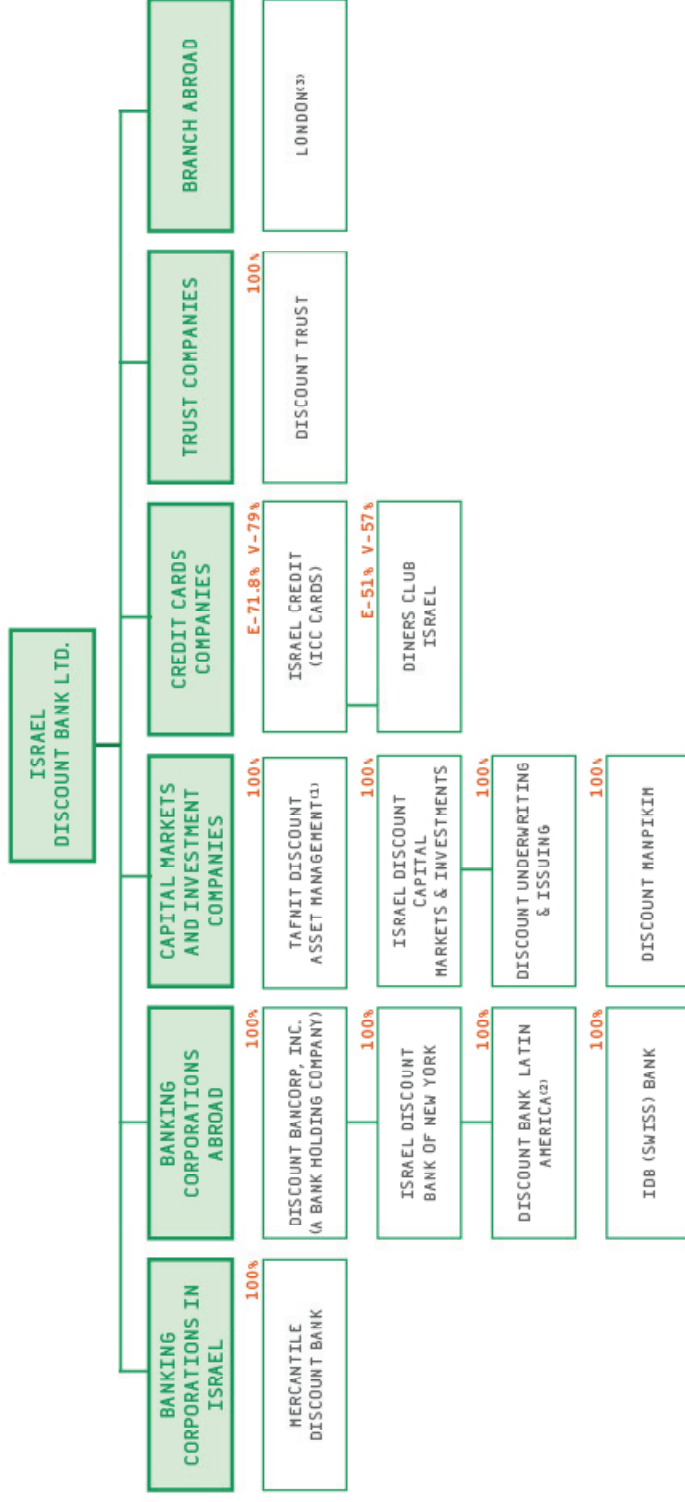

Following are data regarding assets and liabilities classified as held for sale (which also include assets of the Bank in a negligible amount):

	Unaudited		Audited
	June 30		December 31
	2015	2014	2014
	in NIS millions		
<b>Assets classified as held for sale</b>
